How do we teach students to discuss appropriately, integrate and understand the mountains of information they receive, and express themselves clearly and effectively? In this lively and practical book, 20-year teaching veteran Erik Palmer presents an approach aligned to the six Common Core anchor standards for speaking and listening but focused on preparing students for 21st century communication inside and beyond the classroom. Here, you'll get concrete guidance for teaching and assessing * Collaborative discussion * Listening and media literacy * Questioning and reasoning * Speech presentation * Effective multimedia use * Adapting speech to different content and tasks With due respect to reading and writing, we do most of our communicating—in the classroom and in life—through listening and speaking.
