Language and Social Justice Kathleen C. Riley,Bernard C. Perley,Inmaculada M. García-Sánchez,2024-02-22 Language, whether spoken, written, or signed, is a powerful resource that is used to facilitate social justice or undermine it. The first reference resource to use an explicitly global lens to explore the interface between language and social justice, this volume expands our understanding of how language symbolizes, frames, and expresses political, economic, and psychic problems in society, thus contributing to visions for social justice. Investigating specific case studies in which language is used to instantiate and/or challenge social injustices, each chapter provides a unique perspective on how language carries value and enacts power by presenting the historical contexts and ethnographic background for understanding how language engenders and/or negotiates specific social justice issues. Case studies are drawn from Africa, Asia, Australia, Europe, North and South America and the Pacific Islands, with leading experts tackling a broad range of themes, such as equality, sovereignty, communal well-being, and the recognition of complex intersectional identities and relationships within and beyond the human world. Putting issues of language and social justice on a global stage and casting light on these processes in communities increasingly impacted by ongoing colonial, neoliberal, and neofascist forms of globalization, *Language and Social Justice* is an essential resource for anyone interested in this area of research.

Woodland Gossip Mary Louisa Boyle,1864 A children's story by Mary Louisa Boyle about the ability of woodland trees and flowers to talk amongst themselves, loosely based on *Edler Herr von und zu (What the wood whispers to itself)* by the German writer Gustav Heinrich Gans Putlitz. Contemporary reviews point to the similarities between *Woodland gossip* and Tennyson's *Oak*, and in fact, Boyle knew Tennyson, whose son Hallam married her niece Audrey. One of Tennyson's most poignant poems of his old age is addressed To Mary Boyle.

Transliterations of terms appear before the representations in foreign characters. This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as *Dasein* (German), *pravda* (Russian), *saudade* (Portuguese), and *stato* (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages—English, French, German, Greek, Italian, Portuguese, Russian, and Spanish. Originally published in French, this one-of-a-kind reference work is now available in English for the first time, with new contributions from Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J.
