**Ohio Train Disasters** Jane Ann Turzillo, 2014-11-11 In nearly a century of heavy rail travel in Ohio, a dozen train accidents stand out as the most horrific. In the bitter cold, just after Christmas 1876, eleven cars plunged seventy-five feet into the frigid water below. The stoves burst into flames, burning to death all who were not killed by the fall. Fires cut short the lives of forty-three people in the head-on Doodlebug collision in Cuyahoga Falls in 1940 and eleven people in a train wreck near Dresden in 1912. Author Jane Ann Turzillo unearths these red-hot stories of ill-fated passengers, heroic trainmen and the wrecking crews who faced death and destruction on Ohio's rails.

**Voices of Eternity** Sarah Wilson Estep, 1988-07-01 Tape recorded messages of voices thought to be those of the author's deceased friends, relatives, and spirit guides answer questions about the afterlife and reincarnation

**Voices from Forever** Randall Keller, **Voices From Forever**, 2009-11 **Voices From Forever** chronicles my journey through the paranormal by way of Electronic Voice Phenomena (EVP). What started out as an experiment, proved to be the most eye-opening and profound experience of my life. There is no longer

any doubt that beyond this existence is a greater continuation; an equally dynamic and vital place where the passion of human emotion and the animism of the universe converge to reveal a glimpse of what is to come. My attempts to make contact through EVP taught me just how thin the veil is between what we know as living, and the afterlife that claims us all. Death is not the end of being alive, but the beginning of our next step - one that we must all take.

Spirit Voices Mark L. Cowden, 2011 Mark L. Cowden is the audio-visual technician who recorded what is believed to be the first ever documented case of a live, two-way conversation with the spirit world. In early 2010, at an apparently haunted hotel in Northern Ireland, Mark was part of a small team of people who were filming a television documentary series about ghost stories when something incredible happened. While a medium and a psychic investigator sat on a bed in the next room and attempted to contact the spirit of a ghost in the hotel, Mark was able to record not only the medium's side of the conversation, and her report of the responses she was receiving from the spirit, but the spirit's replies directly as well! With camera's rolling, an independent television crew documented the whole process. Not only is this

believed to be the first time anybody has ever managed to record a whole conversation between this world and the next, it was also a first for television. SPIRIT VOICES documents Mark's work in the field of paranormal forensics and details the technology and methods he developed to achieve such groundbreaking results.

*The Three Christs of Ypsilanti* Milton Rokeach, 2011-04-19 On July 1, 1959, at Ypsilanti State Hospital in Michigan, the social psychologist Milton Rokeach brought together three paranoid schizophrenics: Clyde Benson, an elderly farmer and alcoholic; Joseph Cassel, a failed writer who was institutionalized after increasingly violent behavior toward his family; and Leon Gabor, a college dropout and veteran of World War II. The men had one thing in common: each believed himself to be Jesus Christ. Their extraordinary meeting and the two years they spent in one another's company serves as the basis for an investigation into the nature of human identity, belief, and delusion that is poignant, amusing, and at times disturbing. Displaying the sympathy and subtlety of a gifted novelist, Rokeach draws us into the lives of three troubled and profoundly different men who find themselves "confronted with the ultimate contradiction conceivable for human beings: more than one person claiming the same identity."

**Thinking Outside the Box** Norma Sumption, Brian Clune, Jim Pfister, 2019-01-16 This is the story of one man's incredible journey into the unknown—and how he changed both this world and the next.

*A Season with the Witch: The Magic and Mayhem of Halloween in Salem, Massachusetts* J. W. Ocker, 2016-10-04 Edgar Award-winning travel writer spends an autumn living in one of America's spookiest tourist destinations: Salem, Massachusetts. Salem, Massachusetts, may be the strangest city on the planet. A single event in its 400 years of history—the Salem Witch Trials of 1692—transformed it into the Capital of Creepy in America. But Salem is a seasonal town—and its season happens to be Halloween. Every October, this small city of 40,000 swells to close to half a million as witches, goblins, ghouls, and ghosts (and their admirers) descend on Essex Street. For the fall of 2015, occult enthusiast and Edgar Award-winning writer J.W. Ocker moved his family of four to downtown Salem to experience firsthand a season with the witch, visiting all of its historical sites and macabre attractions. In between, he interviews its leaders and citizens, its entrepreneurs and visitors, its street performers and Wiccans, its psychics and critics, creating a picture of this unique place and the

people who revel in, or merely weather, its witchiness.

<https://www.facebook.com/groups/102193593178906/Speaking to the Dead with Radios> is a process to communicate with our deceased loved ones using a hacked AM/FM or home built radio with a tape or a digital recorder. You do not need to be a psychic, a medium or have any paranormal gifts to make contact and record audio messages from your deceased loved ones or even from your deceased pets using these devices. Within this book starting in chapter one, I will outline and discuss a brief history of Radio Sweep (Ghost Box) Electronic Voice Phenomena. In chapter two, I will teach you the concept of speaking to the dead with radios one in which you can encounter the dead through real time spirit communication. Chapter three is where you will learn which store bought radios can be hacked, made to work as a Radio Sweep

(Ghost Box) EVP device. In chapter four, I will teach you about unhappy spirits you may encounter, and I will teach you about Technicians, kind and loving spirits whose sole purpose is to help ensure your recording sessions runs smoothly without issues. Chapter five teaches you about preferred radio sweep equipment, and how to make an appointment to record with the dead. In chapter six, I will outline what encompasses a Radio Sweep (Ghost Box) EVP recording session and discuss the various session types you may engage in. Chapter seven is where I will show you how to upload your digital recorder's wma file to your computer, and there on convert it to a wave file using NCH(r) software. In chapter eight, I will teach you how to segment or break up your question with answer files, and teach you how to de-noise them if necessary. Chapter nine which is one of the most important chapters in this book is where I will teach you how to classify recorded messages as Radio Traffic, Suspect Paranormal, and Paranormal. In chapter ten I will teach you how to listen to and transcribe any recorded Suspect Paranormal or Paranormal messages into a Microsoft(r) Excel worksheet. Chapter twelve is where I will share and discuss a variety of session types I have recorded to give you an idea how you should expect cases of this type may proceed if you decide to

engage a recording session of this type. Lastly in chapter thirteen, I will share with each of you some ideas I have what Radio Sweep (Ghost Box) EVP devices can be used for going forward. Please note that within this book are the names of people that build and sell home made radio sweep - ghost boxes. I am sad to report that two of these box builders have passed away since this book was published. They are Joseph Angelo Cioppi Senior and Frank Sumption Sr. I would like to introduce a radio sweep ghost box builder not mentioned in this book. His name is Andrew Openlander of Chicago Spirit Wave Google him. Andrew like the others builds amazing radio sweep - ghost boxes and he ships worldwide.

*Voices from Paradise* Judith Chisholm, 2000 Death does not respect status or age. It often comes as a thief in the night, unexpectedly robbing the victim of life and leaving friends and relatives bewildered and bereft. Who among us has not lost someone we loved? And who does not long to make contact with that loved person again - to know that they still live, but in another dimension? After the sudden death of her son Paul, Judith Chisholm learned that death is not the end, but a change of form. That our loved ones are waiting for us a heartbeat away in another

world. She tells the story of her journey from death and despair to revelation and hope. We read how, in the years since his death, she has used paranormal phenomena first discovered half a century ago to record Paul's voice on a tape recorder. It is an experience many others have shared. The book explains in detail how the procedure works. It can be tested by anyone who wishes to: it is the only known psychic phenomenon that it is repeatable! Readers can try for themselves to open channels of communication with their own loved ones who have crossed the divide between this life and their new life on the other side. While there is no guarantee, it can certainly be said to work for many.-- Publisher's description.

Whether you're a beginning guitarist or an old veteran, chances are you're as enchanted with effects pedals as the next player. If so, **STOMP ON THIS!: THE GUITAR PEDAL EFFECTS GUIDEBOOK** is the book for you. Popular guitarist and music writer Brian Tarquin offers an inside, in-depth

The book begins with a brief history of pedals, from the 1960's to the present, and considers such landmark designs as the wah and overdrive, and goes on to cover a vast range of modern pedals. Tarquin also features interviews with designers such as Mike Mathews of Electro Harmonix, Jim Dunlop, Seymour Duncan, and Robert Keeley. You'll learn how particular pedals have been used in famous recordings, and you'll pick up a wealth of new ideas that will help you add variety and new flavor to your own guitar work.

**Haunted Marquette** Tyler Tichelaar, 2018-01-05 Over Forty Tales of Ghosts and Paranormal Experiences Founded as a harbor town to ship iron ore from the nearby mines, Marquette became known as the Queen City of the North for its thriving industries, beautiful buildings, and being the largest city in Upper Michigan. But is Marquette also the Queen of Lake Superior's Haunted Cities? Seventh-generation Marquette resident Tyler Tichelaar has spent years collecting tales of the many ghosts who haunt the cemeteries, churches, businesses, hotels, and homes of Marquette. Now, separating fact from fiction, he delves into the historical record to determine which stories may be true and which are just the fancies of frightened minds. Hear the chilling tales of: • The wicked nun who killed an orphan boy • The librarian mourning her sailor lover • The drowned sailors who climb out of Lake Superior at night • The glowing lantern of the decapitated train conductor • The mailman who gave his life for the U.S. mail • More ghostly

ladies in floor-length white gowns than any haunted city should have. Haunted Marquette opens up a fourth dimension view of the Queen City's past and reveals that much of it is still present.

Weird California Greg Bishop, Joe Oesterle, Mike

Marinacci, 2006-03-01 THE WEIRD SERIES What's weird around here? That's a question Mark Moran and Mark Sceurman have enjoyed asking for years—and their offbeat sense of curiosity led them to create the best-selling phenomenon, *Weird N.J.* But why should they stop at New Jersey when there's so much that's peculiar, odd, and utterly nutty across the whole U.S.? So the two Marks—along with several other writers with a taste for the strange—have focused on some key locales, giving each of them the full “New Jersey” treatment. Spanning the breadth of the country, from New York to California, these are travel guides of a sort, but to the kind of places voyagers will never find on their everyday maps. Instead, they're chock-full of local legends, crazy characters, cursed roads, and bizarre roadside attractions. So come along and join the fun: Some of what's out there is disturbing, some hilarious, but all of it is unforgettably...weird. Praise for *WEIRD N.J.*: “They are the chroniclers of the creepy, bards of the bizarre...From abandoned asylums to colorful real-life characters

past and present, to folk stories of ghosts, monsters, and aliens, Mr. Scurman and Mr. Moran have created a journal of New Jersey's unwritten history."—The New York Times. "Enough with the head-severing mobsters of Jersey. The state is packed with far more evil than TV could ever invent—from satanic Klan rallies to time-traveling tree farmers. And Weird N.J. has the pictures to prove it."—Rolling Stone. "Mark Scurman and Mark Moran see their native state as others do not. For them, it is a demented Disneyland of worldly, and otherworldly, delights."—The Boston Globe. "If it's the offbeat, paranormal or downright weird that you crave...there could be no better place"—USA Today. Praise for Weird U.S. "Weird U.S. is delicious armchair reading. Who can resist an ax-wielding man in a bunny suit, a home shaped like a giant shoe, cannibal albino villages, midget colonies, passages to hell or close relations of Bigfoot and the Loch Ness monster?"—San Francisco Chronicle. "Weird U.S. is a marvelous work of entertainment and the basis for a truly unique vacation."—Library Journal. "Kudos to Mark Moran and Mark Scurman...This is the book by which future explorers will chart their road trips in pursuit of the meaning of this nation."—New York Press.

**Guitar Encyclopedia** Brian Tarquin,2014-09-02 From renowned guitarist and multi-Emmy-award winning composer, Brian Tarquin, comes a display-quality, full-color reference guide to guitars. The *Guitar Encyclopedia* begins with the history of guitars spanning back to the birth of Epiphone by a Greek immigrant and the great inventions of Les Paul, to the boom of the Rock-'n-Roll-shredder days with Ibanez guitars and the futuristic designs of the Gibson Moderne and the Randy Rhodes Polka Dot Flying V. The book also contains interviews from guitar designers such as Fender and Eastwood, as well as boutique companies such as Gander and Specimen. A far cry from other dry schematic encyclopedias, this book details the connections between different guitars and the monumental recordings that they produced. With introductions by Gary Hoey, Chris Poland (Megadeth), and Eric Shoaf (Vintage Guitar magazine), this book provides a rich and unique account of iconic guitars throughout history. Positive Lightning Laurie Salzler, 2014-12-15 Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously

unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path.
