The Upstarts Brad Stone, 2017-01-31 ONE OF AMAZON'S BEST BOOKS OF 2017 A look deep inside the new Silicon Valley, from the New York Times bestselling author of The Everything Store Ten years ago, the idea of getting into a stranger's car, or a walking into a stranger's home, would have seemed bizarre and dangerous, but today it's as common as ordering a book online. Uber and Airbnb have ushered in a new era: redefining neighborhoods, challenging the way governments regulate business, and changing the way we travel. In the spirit of iconic Silicon Valley renegades like Steve Jobs and Bill Gates, another generation of entrepreneurs is using technology to upend convention and disrupt entire industries. These are the upstarts, idiosyncratic founders with limitless drive and an abundance of self-confidence. Led by such visionaries as Travis Kalanick of Uber and Brian Chesky of Airbnb, they are rewriting the rules of business and often sidestepping serious ethical and legal obstacles in the process. The Upstarts is the definitive story of two new titans of business and a dawning age of tenacity, conflict and wealth. Crucial Errors in Murder Investigations Ted Duhs, 2016-08-29 Why is it that some people are convicted of murders that they did not commit, while others are not convicted of murders that they did commit? Australian Police Services are generally well funded, so something more must be involved. Just what that is, is investigated in this book. To minimise the prospect of future errors, we need both to scrutinise past cases where errors have been revealed, and to investigate police training procedures with a view to uncovering any errors of omission or commission, to see what scope there is for improvements. Each of us has good reason to take an interest in such matters, since any one of us could be a victim if we are in the wrong place at the wrong time. In fact all of us are victims to the extent that some guilty parties continue to walk free on our streets, and as taxpayers all of us fund the additional costs of dealing with crime, including the sizeable compensation payments that are made to those whose wrongful convictions are quashed. This book deals with instructive cases which continue to agitate the public mind, and makes practical suggestions for improved procedures.

Sector 12 and the Art of Dying Joseph Kainz, 2016-01-26 Rab's got a problem. Well, he's got several. It's not just that he's living outside human space and that humanity's defenses keep him there. It's not that he's a Ranger for the Frontier Corps, a more or less unsupported soldier with few resources and no backup. It's not even that Sector 12 is filled with a multitude of alien races that don't recognize his authority and so view him as a criminal or, worse, an enemy. No, Rab can deal with all this. He's dealt with it for a while. His real problems arrive when a group of Frontier Corps Marines gets blasted into Sector 12 during an unsuccessful attack. Rab is assigned the task of rescuing them, which is easier said than done given that someone almost immediately blows up his ship and tries to either kill or capture him for reasons unknown. That could be a problem.

Faith, Families & Friends: 150 Years of Sacred Heart of Jesus Parish and Montegut Louisiana Laura A. Browning, 2016-11-21 The focus of the book is the history of the Sacred Heart of Jesus Roman Catholic Parish and Sacred Heart Church in Montegut, Louisiana. The book follows the church-parish boundaries, including the term of each priest, and with the creation of each new parish out of Sacred Heart, St. Ann (1908), St. Joseph (1948), and St. Charles Borromeo (1971), the focus continues with the Priests of Sacred Heart. However, the book could not reflect Sacred Heart without writing about Montegut, Bourg, Little Caillou, and Pointe aux Chenes. The church has given us important roots, binding us as a church and community family, sticking us to this small place, Montegut. Sacred Heart Parish predates Sacred Heart Church by over thirty years. Pere Menard blessed the first dedicated chapel built on Dugas property at St. John the Baptist in le Terrebonne in November 1859. Sacred Heart of Jesus Church marks its founding as

the creation of the parish by the Diocese of New Orleans in November 9, 1864.

The Evolution of the Gender Pay Gap Frances Hamilton,Elisabeth Griffiths,2023-11-10 Through interdisciplinary research, this book explores the continued cause of the significant gender pay gap that still exists in many countries today. This gap persists despite a wide range of measures having been introduced to protect women at work. Internationally varied approaches which have been attempted include prohibiting discrimination, maternity leave, maternity pay, health and safety protections for pregnant workers, tax breaks, childcare vouchers, shared parental leave, and gender pay gap reporting. This volume makes a significant and original contribution by tackling the topic through fresh historical and activist approaches, specific consideration of certain professions, and topical issues, such as the gig economy, treatment of carers post-coronavirus, and developing approaches to prosecuting pay equity claims. Our comparative approach interrogates how countries studied in this volume have had varying approaches and differing success in tackling this pervasive issue of the gender pay gap. Lessons to learn regarding policy reform are included in chapters from authors based not only in the UK but also in the United States, Australia, and the Republic of Ireland and fully developed in the conclusion.

Some of the topical areas include, for example, the cognitive structure of spatial knowledge; events and processes in geographic space; incomplete or imprecise spatial knowledge; languages of spatial relations; navigation by organisms and robots; ontology of space; communication of spatial information; and the social and cultural organization of space to name a few. This volume contains the papers presented at the 9th International Conference on Spatial Information Theory, COSIT 2009, held in Aber Wrac'h, France, September 21–25, 2009. For COSIT 2009, 70 full paper submissions were received. These papers were carefully reviewed by an international Program Committee based on relevance to the conference, intellectual quality, scientific significance, novelty, relation to previously published literature, and clarity of presentation. After reviewing was completed, 30 papers were selected for presentation at the conference and appear in this volume. This number of papers reflects the high quality of submissions to COSIT this year.

This quote from the authors hints at the investigative power of the techniques this book teaches: Nothing I am going to describe to you is illegal, nor does it in any way involve accessing unauthorized data, [...but] involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution. From search strings that will reveal secret documents from South Africa (filetype: xls site: za confidential) to tracking down tables of Russian passwords (filetype: xls site: ru login), this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses Google.
