#### **Crime Prevention Policies in Comparative Perspective Adam**

Crawford, 2013-05-13 This book brings together a collection of leading international experts to explore the lessons learnt through implementation and the future directions of crime prevention policies. Through a comparative analysis of developments in crime prevention policies across a number of European countries, contributors address questions such as: How has 'the preventive turn' in crime control policies been implemented in various different countries and what have its implications been? What lessons have been learnt over the ensuing years and what are the major trends influencing the direction of development? What does the future hold for crime prevention and community safety? Contributors explore and assess the different models adopted and the shifting emphasis accorded to differing strategies over time. The book also seeks to compare and contrast different approaches as well as the nature and extent of policy transfer between jurisdictions and the internationalisation of key ideas, strategies and theories of crime prevention and community safety.

**Energy from the Desert** Kosuke Kurokawa, 2003 The world's deserts are sufficiently large that, in theory, covering a fraction of their landmass with PV systems could generate many times the current primary global energy supply. Moreover, the energy produced is from solar radiation -- a clean and renewable source -- hence such systems would have the potential to contribute massively to the protection of the global environment. Energy from the Desert is an extensive and high-level international study, representing the accumulated research of the world experts involved in Task VIII of the IEA PVPS Programme. To date, the market focus for photovoltaics has been on small to medium, stand-alone or building-integrated power systems, which have proven, but as yet not realized, the great potential of this technology. This definitive study evaluates the feasibility, potential and global benefits of very large scale photovoltaic power generation (VLS-PV) systems deployed in desert areas and each generating from 10MW to several gigawatts.

**Análisis de estados financieros** Ángel Muñoz Merchante, Eva María Ibañez Jiménez, Este libro contiene el conjunto de temas que suelen figurar en los programas de la asignatura Análisis de Estados Financieros o Análisis Contable, disciplina que se estudia como colofón del ciclo de materias en que es habitual segregar la enseñanza de la Contabilidad dentro de los planes de estudio de los Grados en ADE, Finanzas y Contabilidad o Comercio y Turismo, entre otros. En concreto, el libro desarrolla el programa oficial de dicha asignatura en la Universidad Nacional de Educación a Distancia (UNED). Los contenidos incluidos en este texto se estructuran en dos grandes partes o bloques temáticos, que abordan aspectos estrechamente relacionados: Primera parte. Marco conceptual y estados financieros (capítulos 1 al 7). Segunda parte. Análisis e interpretación de la información financiera (capítulos 8 al 12). Los temas tratados en la Primera parte tienen por objeto el estudio del entramado de nociones que constituyen el soporte teórico de la normativa y de la práctica contable (lo que se denomina "Marco conceptual de la Contabilidad" o de la información financiera), así como el examen de los documentos que sintetizan la información producida por el sistema contable empresarial: los estados financieros o estados contables. En el desarrollo de estos capítulos se enfatiza especialmente en los objetivos de la Contabilidad Financiera y del Análisis de Estados Financieros -y en las relaciones entre ambas disciplinas-, y se desvelan los intereses específicos de los principales colectivos que utilizan esta información para la toma de decisiones económicas. En la Segunda parte se exponen las herramientas y métodos analíticos más utilizados en el análisis e interpretación de la información financiera (capítulo 8) y se examinan con detalle las áreas o variables que son de interés para la mayoría de los usuarios de la información empresarial: la liquidez (capítulos 9 y 10), la solvencia a largo plazo (capítulo 11), y los resultados y la rentabilidad (capítulo 12). Los materiales teóricos y prácticos incluidos en el libro pretenden facilitar el aprendizaje mediante un proceso continuo de autoevaluación. Con esta finalidad, cada capítulo se compone de las siguientes secciones: Índice. Relación de los epígrafes y subepígrafes en los que se desarrollan los contenidos del capítulo. Se señalan las principales nociones que el estudiante aprenderá. Presentación. Se anticipan las cuestiones más relevantes que van a tratarse en el capítulo, situándolas en el contexto del programa. Exposición teórica del tema tratado que, cuando es pertinente, se complementa con ejemplos y casos prácticos con el fin de facilitar su estudio y correcta comprensión. Cuestionario tipo test. Todos los capítulos incluyen un cuestionario de doce preguntas, con cuatro respuestas alternativas de las cuales solo una es correcta, que constituye una primera herramienta de autoevaluación para el lector. Casos prácticos. Conjunto de ejercicios y supuestos prácticos, con distinto grado de dificultad, que persiguen consolidar las nociones estudiadas en el propio capítulo. Respuestas y soluciones del cuestionario tipo test y de los casos prácticos. Al final del libro figura una selección de la Bibliografía utilizada clasificada en: libros, artículos, documentos o pronunciamientos y normativa, así como algunas direcciones útiles de internet, a donde el lector puede acudir cuando

desee ampliar los temas tratados o consultar otros enfoques. Por último, el texto incluye el Índice analítico, recurso de gran utilidad y poco habitual en los manuales españoles, que remite al usuario a la(s) página(s) del texto en la que encontrará la explicación teórica de los conceptos relacionados y sus aplicaciones prácticas, en su caso. Agradecemos especialmente a la profesora Laura Parte Esteban, Catedrática de Economía Financiera y Contabilidad de la UNED, sus aportaciones a la obra durante los años de docencia compartida en la asignatura, así como al profesor Francisco Esteo Sánchez, Catedrático de Contabilidad de la Universidad Complutense y Auditor de cuentas, su ayuda en la preparación del epígrafe dedicado al Informe de auditoría, incluido en el Capítulo 7. Asimismo, deseamos agradecer anticipadamente a los futuros lectores de este libro su confianza al tiempo que les solicitamos sus comentarios y sugerencias que pueden enviar a estas direcciones: [anumer@cee.uned.es](mailto:anumer@cee.uned.es); [eibanez@cee.uned.es](mailto:eibanez@cee.uned.es) Ángel Muñoz Merchante Eva M<sup>a</sup> Ibáñez Jiménez Madrid, otoño de 2023
