Drug Trafficking, Corruption and States L. Garay-Salamanca; E. Salcedo-Albarán, 2015-05-20 Drug Trafficking, Corruption and States is cutting edge research. Garay Salamanca and Salcedo-Albarán, along with their contributing authors help document the transition from economic to political imperatives within transnational drug cartels. The break from the Zetas by La Familia Michoacana is one example contained in their empirical survey. Social Network Analysis is their tool for illuminating the varying dynamics of cartel-state inter-penetration and reconfiguration. In doing so they clearly discern between State Capture (StC) and Co-opted State Reconfiguration (CStR). As the drug wars and criminal insurgencies rage in the Americas and beyond, this seminal framework will facilitate efforts by scholars, law enforcement officials, intelligence analysts and policymakers to understand shifts in sovereignty, and to illuminate the mechanisms of transnational illicit networks and their interaction with the state.

Sustainability in Coffee Production Andrea Biswas-Tortajada, Asit K. Biswas, 2015-06-12 Coffee, as a commodity and through its global value chains, is the focus of much interest to achieve fair trade and equitable outcomes for producers, processors and consumers. It has iconic cultural and economic significance for Colombia, which is one of the world's major coffee producers for the global market. This book examines sustainable coffee production in Colombia, specifically the initiatives of Nestlé to create shared value. It describes the transformation of the coffee landscape by the development of economically, socially and environmentally viable and dedicated supply chains. Suppliers have been encouraged to shift production and quality paradigms, in order to develop long-term and sustainable strategies for higher value and premium quality products. This has been partially achieved by establishing a robust partnership with the Coffee Growers Federation and other public, private and social actors, thereby taking control of the institutional architecture and knowledge base that exists in the country. The book provides an important lesson of corporate social responsibility and the creation of shared value for the benefit of farmers, corporations and consumers.

Health in Ruins César Ernesto Abadía-Barrero, 2022-09-09 In Health in Ruins César Ernesto Abadía-Barrero chronicles the story of El Materno—Colombia's oldest maternity and neonatal health center and teaching hospital—over

several decades as it faced constant threats of government shutdown. Using team-based and collaborative ethnography to analyze the social life of neoliberal health policy, Abadía-Barrero details the everyday dynamics around teaching, learning, and working in health care before, during, and after privatization. He argues that health care privatization is not only about defunding public hospitals; it also ruins rich traditions of medical care by denying or destroying ways of practicing medicine that challenge Western medicine. Despite radical cuts in funding and a corrupt and malfunctioning privatized system, El Materno's professors, staff, and students continued to find ways to provide innovative, high-quality, and noncommodified health care. By tracking the violences, conflicts, hopes, and uncertainties that characterized the struggles to keep El Materno open, Abadía-Barrero demonstrates that any study of medical care needs to be embedded in larger political histories.

Commercial Nationalism and Tourism Leanne White, 2017-01-19 This book combines academic analysis and critical exploration to examine national narratives in the context of tourism and events around the world. It explores how particular narratives are woven to tell (and sell) a national story. By deconstructing images of the nation, it closely examines how national texts create key archival imagery that can promote tourism and events while also shaping national identity. It investigates the complex relationship between state appropriation of marketing strategies and the commercial use of

nationalist discourses. The book aims to demystify the ways in which the nation is imagined by key organisers and organisations and then communicated to millions.

Sports and Nationalism in Latin / o America H. Fernández L'Hoeste, R. Irwin, J. Poblete, 2015-05-06 This collection interrogates sports in Latin America as a key terrain in which nation is defined and populations are interpellated through emotionally charged practices (state policy, media representations, and sports play itself by professionals, national teams and amateurs) of inclusion and exclusion.

War and Peace in Colombia Chiara Savonitto, 2018-07-31 Il 24 novembre 2016, il governo colombiano e le Fuerzas Armadas Revolucionarias de Colombia - Ejército del Pueblo (FARC-EP) hanno firmato un accordo volto a garantire una pace stabile e duratura alla popolazione colombiana. In seguito ad una guerra civile durata per più di cinquant'anni, il più influente gruppo di guerriglieri nel paese ha mostrato la sua determinazione a porre fine alla lotta armata contro lo Stato e a perseguire i suoi scopi politici e ideologici attraverso mezzi legali e democratici. Prendendo ispirazione dai recenti sviluppi riguardanti il caso colombiano, quest'opera mette in risalto il ruolo svolto dal Diritto Internazionale e dalle relative entità giuridiche all'interno del conflitto armato combattuto tra il governo colombiano e le FARC, nonché durante i negoziati che hanno portato alla firma dell'accordo di pace nel 2016. In particolare, il lavoro valuta la conformità delle parti

belligeranti con gli obblighi stabiliti da tre principali rami del Diritto Internazionale: il Diritto Internazionale Umanitario, il Diritto Internazionale Penale e il Diritto Internazionale dei Diritti Umani. On November 24, 2016, the Colombian government and the Fuerzas Armadas Revolucionarias de Colombia – Ejército del Pueblo (FARC-EP) signed a final peace agreement aimed at guaranteeing a reliable and long-lasting peace to Colombia and its population. After a civil war lasted for more than five decades, the main guerrilla movement in the country has shown its determination to pursue its ideological purposes through legal and democratic means, permanently abandoning insurgency and revolutionary political aspirations. By taking inspiration from the recent developments concerning the Colombian case, this study evaluates the role played by International Law and the relevant international legal entities within the armed conflict fought between the Colombian government and the FARC, as well as during the negotiations that led to the signature of the peace agreement in 2016. Specifically, it assesses the compliance of the belligerent parties with the obligations established by three main bodies of law: International Humanitarian Law, International Criminal Law, and International Human Rights Law.

Poesía en el tiempo y otros versos MARCOS LOPEZ HERRADOR,

El tiempo congelado Luigi Onnis, 2016-04-18 La anorexia y la bulimia son trastornos de la conducta alimentaria en alarmante expansión. Difundidas

sobre todo entre las mujeres adolescentes, expresan sin embargo un sufrimiento que va más allá del problema nutricional. Este libro quiere devolver a estos trastornos el significado de «fenómenos complejos», en los que se entrecruzan influencias socioculturales, relacionadas con las profundas transformaciones del rol de la mujer en una sociedad que exhibe cuerpos eternamente jóvenes y eficientes; aspectos psicológicos individuales, que en la problemática relación con el cuerpo expresan dificultad para asumir el crecimiento; y dinámicas familiares, donde la rigidez de los lazos y mitos compartidos parecen detener las propias capacidades evolutivas de las jóvenes. Hay pues un hilo conductor que atraviesa los múltiples componentes involucrados en estos trastornos: el imposible intento de suspender el tiempo del desarrollo y del crecimiento. De este tiempo suspendido, el cuerpo anoréxico y bulímico ofrece una sugestiva metáfora, cuyos significados se van reconstruyendo pacientemente en esta obra. Una guía esencial que ayudará a comprender mejor el sentido de un sufrimiento cada vez más extendido entre las generaciones jóvenes.

Screen Time Is Not Forever/El tiempo de pantalla no es para siempre

Elizabeth Verdick, 2023-05-02 Children learn boundaries and safety when using screens, and fun things to do when screens are off. As important as screens are in our lives, we all need to unplug, especially children. This reassuring English-Spanish bilingual picture book offers children and families a starting point for limiting screen time and making the most of the time you have with your screens and without. While screens are needed for learning and can be helpful and fun, they are not intended for use all the time. The American Academy of Pediatrics recommends consistent limits on screen time for children, and adults should take steps to ensure online safety for kids. With straightforward suggestions, children will learn valuable information about online safety, setting healthy screen-time boundaries, and the importance of screen-free time. With her trademark mix of empathy and encouragement, author Elizabeth Verdick offers appealing and healthy alternatives to using screens, as well as ways to stay safe and happy when online. Illustrator Marieka Heinlen's active and vibrant illustrations of young children interacting with their caregivers and families bring the activities and suggestions for screen-free fun to life. A section for adults at the end of the book in both English and Spanish includes information on the effects of too much screen time and suggestions for establishing screen-time boundaries. Best Behavior series Simple words and lively full-color illustrations guide children to choose positive behaviors. Select titles are

available in two versions: a durable board book for ages 1–4 and an expanded paperback for ages 4–7. Bilingual board book and paperback editions of all titles also are available. Kids, parents, and teachers love these award-winning books. All include helpful tips for teachers, caregivers, and parents.

Conozco el tiempo / I Know the Weather Trisha James, 2017-07-15 Weather is an important science concept at the early elementary level. Recognizing and identifying kinds of weather requires observational skills and certain vocabulary terms. This bright volume allows young meteorologists to correlate weather in carefully selected photographs with descriptive weather vocabulary, such as rainy, sunny, and foggy. Beyond Imported Magic Eden Medina, Ivan da Costa Marques, Christina Holmes, 2014-08-15 Studies challenging the idea that technology and science

flow only from global North to South. The essays in this volume study the creation, adaptation, and use of science and technology in Latin America. They challenge the view that scientific ideas and technology travel unchanged from the global North to the global South—the view of technology as “imported magic.” They describe not only alternate pathways for innovation, invention, and discovery but also how ideas and technologies circulate in Latin American contexts and transnationally. The contributors' explorations of these issues, and their examination of specific Latin American experiences with science and technology, offer a broader, more nuanced understanding of how science, technology, politics, and power interact in the past and present. The essays in this book use methods from history and the social sciences to investigate forms of local creation and use of technologies; the circulation of ideas, people, and artifacts in local and global networks; and hybrid technologies and forms of knowledge production. They address such topics as the work of female forensic geneticists in Colombia; the pioneering Argentinean use of fingerprinting technology in the late nineteenth century; the design, use, and meaning of the XO Laptops created and distributed by the One Laptop per Child Program; and the development of nuclear energy in Argentina, Mexico, and Chile. Contributors Pedro Ignacio Alonso, Morgan G. Ames, Javiera Barandiarán, João Biehl, Anita Say Chan, Amy Cox Hall, Henrique Cukierman, Ana Delgado, Rafael Dias, Adriana Díaz del Castillo H., Mariano Fressoli, Jonathan Hagood, Christina Holmes, Matthieu Hubert, Noela Invernizzi, Michael

En el Tiempo de la Luz Benjamin Alire Sáenz, 2009-10-13 "Ben Saenz's vivid imagination captures all that is beautiful, agonizing and redemptive in the crossings we make through borders of geography and culture. But it is in the interior journeys of the psyche and the soul that we must find salvation; Saenz's brilliant prose penetrates to that core and he finds and exposes that truth. A reader can ask for no more than this: to be spellbound by a story, and to come to the last page with a sense of having been being changed and allowed to carry something of it away." –Abraham Verghese, author of *My Own Country* From award-winning poet Benjamin Alire Sáenz comes a haunting novel depicting the cruelties of cultural displacement and the resilience of those who are left in its aftermath. In *Perfect Light* is the story of two strong-willed people who are forever altered by a single tragedy. After Andrés Segovia's parents are killed in a car accident when he is still a young boy, his older brother decides to steal the family away to Juárez, Mexico. That decision, made with the best intentions, sets into motion the unraveling of an American family. Years later, his family destroyed, Andrés is left to make sense of the chaos—but he is ill-equipped to make sense of his life. He begins a dark journey toward self-destruction, his talent and brilliance

brought down by the weight of a burden too frightening and maddening to bear alone. The manifestation of this frustration is a singular rage that finds an outlet in a dark and seedy El Paso bar—leading him improbably to Grace Delgado. Recently confronted with her own sense of isolation and mortality, Grace is an unlikely angel, a therapist who agrees to treat Andrés after he is arrested in the United States. The two are suspicious of each other, yet they slowly arrive at a tentative working relationship that allows each of them to examine his and her own fragile and damaged past. With the urgent, unflinching vision of a true storyteller and the precise, arresting language of a poet, Sáenz's *In Perfect Light* bears witness to the cruelty of circumstance and, more than offering escape, the novel offers the possibility of salvation.

Participating in Peace Jefferson Jaramillo-Marín, Luz Mery López-Lizarazo, Adriel Ruiz-Galvan, Matthew Louis Bishop, Juan Mario Díaz-Arévalo, Juan Miguel Kanai, Melanie Lombard, Simon Rushton, Anastasia Shesterinina, Henry Staples, 2023-07-31 What role does dialogue play in peacebuilding? How can community-based activities contribute to broader peace processes? What can participatory research methods add to local efforts to build peace? In this book, the authors examine these questions through their work with two different Colombian communities who have pursued dialogue amidst ongoing violence, environmental injustice and socio-economic challenges. By reflecting on what people in these contrasting places have achieved through

participatory peacebuilding, the authors explore different forms of local agency, the prospects for non-extractive academic engagement, and practical and theoretical lessons for participating in peace in other conflict-affected settings.

Systems of Violence, Second Edition Nazih Richani, 2013-06-01 Expanded new edition of an important study of the protracted violence in Colombia. This book examines the political, economic, and military factors that have contributed to decades of violent conflict in Colombia during one of the longest protracted civil wars in the world. Using four years of field research, and more than two hundred interviews, Nazih Richani examines Colombia's "war system"—the systemic interlacing relationship among actors in conflict, their respective political economy, and also the overall political economy of the system they help in creating. Several key questions are raised, including when and why do some conflicts protract, and what types of socioeconomic and political configurations make peaceful resolutions difficult to obtain? Also addressed are the lessons of other protracted conflicts, such as those found in Lebanon, Angola, and Italy. In this expanded second edition Richani contributes new chapters looking at developments in Colombia since the book's initial publication a decade ago and a look at the challenges for peace that lie ahead.
