*Emergency Contact* Mary H. K. Choi, 2019-04-09 "Smart and funny, with characters so real and vulnerable, you want to send them care packages. I loved this book." –Rainbow Rowell From debut author Mary H.K. Choi comes a compulsively readable novel that shows young love in all its awkward glory—perfect for fans of *Eleanor & Park* and *To All the Boys I've Loved Before*. For Penny Lee, high school was a total nonevent. Her friends were okay, her grades were fine, and while she'd somehow landed a boyfriend, they never managed to know much about each other. Now Penny is heading to college in Austin, Texas, to learn how to become a writer. It's seventy-nine miles and a zillion light years away from everything she can't wait to leave behind. Sam's stuck. Literally, figuratively, emotionally, financially. He works at a café and sleeps there too, on a mattress on the floor of an empty storage room upstairs. He knows that this is the god-awful chapter of his life that will serve as inspiration for when he's a famous movie director but right this second the seventeen bucks in his checking account and his dying laptop are really testing him. When Sam and Penny cross paths it's less meet-cute and more a collision of unbearable awkwardness. Still, they swap numbers and stay in touch—via text—and soon become digitally inseparable, sharing their deepest anxieties and secret dreams without the humiliating weirdness of having to, you know, see each other.

The Adventures of a Black Hand Full of Moondust N.Coe Copes, 2020-02-27 TRUST GOD ONLY & WALK IN BLIND FAITH-ALONE for more than 5 years in silence. Maybe I was set up to die that way. A freak accident, perhaps. That's how it would have looked. Someone expected that, and with expectations that low and miserable, I never worried about someone like that. Risky behavior was my hobby in those days. Unknowingly, I was selected as a target of interest, mistaken for the average bear hunted down during hibernation, plenty of times before. The obvious game is to benefit from life insurance policies matured well and long enough to play a surprised or sorry role when a target expires. Apparently, keeping up appearances is costly. This ritual targets the LGBT Community, persons identifying

with mental illness, and persons with criminal history involving drugs. I would play this game like a baby Grand Piano but it worked. This account I am opening is not a game, however, and secrets like these make a killing, literally. GOD has the final word.

Chandler, 2010-09-21 This text provides critical information to help organizations improve their emergency communications, including the tools, automation technology, and processes of crisis notification. To grasp the importance of emergency notification, imagine this scenario: A shooter is on the loose at a college campus. Chaos reigns. To contain the situation, campus personnel need to communicate immediately and efficiently, not only with the students, faculty, and staff, but also the local police, federal law enforcement, and media. Effective emergency notification makes things right, it allows the right message to reach the right people at the right time—facilitating the right response. Emergency Notification explains how. This book offers must-know information for business security, senior management, human resources staff, government policymakers, and emergency planners, examining what, when, how, why, and with whom to communicate during crises. *A Lorton Prison Project* Carolyn Williams,2018-05-15 This story captures the insight of a bright, intuitively smart young man who grew up in the low-income housing projects of Southeast Washington, DC, our nations capital city. His name was Jimmy Black Blango, better known as JB. He lived in the Barry Farms Housing projects at the height of a glorified drug market, in the midst of a culture of the celebrated thug life, gang violence, and mob-style crime. Aside from all that, it was a known fact that gangbangers pledged allegiance to serving time in jail. Even JB got caught up in a clean sweep operation on the streets of Washington, DC, and was sent down to Lorton to serve his time. From there, his status on the streets of Washington, DC, was upgraded to include street credits (i.e., the status of lieutenant) for serving a stench at what was once called the most notorious prison on the east coast, the Lorton Correctional Complex. Now that the prison was mandated by federal law to shut down, the criminal element on the outside decided to bring their drug enterprise on the inside. This was an effort to establish networks that reached beyond the district and extended to all points targeted south. Yet due to the pending closure of the Lorton Complex and the greed among thieves, backstabbing gangbangers, cold-blooded killers, malicious cutthroat staffers, and others caused the whole scam to blow up. At the end of the day, a nefarious culmination of unsavory conduct caused many elements of the Lorton Complex to suffer its unfortunate demise.

*Evaluating Information Systems* Zahir Irani, Peter Love, 2008-05-12 The adoption of Information Technology (IT) and Information Systems (IS) represents significant financial investments, with alternative perspectives to the evaluation domain coming from both the public and private sectors. As a result of increasing IT/IS budgets and their growing significance within the development of an organizational infrastructure, the evaluation and performance measurement of new technology remains a perennial issue for management. This book offers a refreshing and updated insight into the social fabric and technical dimensions of IT/IS evaluation together with insights into approaches used to measure the impact of information systems on its stakeholders. In doing so, it describes the portfolio of appraisal techniques that support the justification of IT/IS investments. *Evaluating Information Systems* explores the concept of evaluation as an evolutionary and dynamic process that takes into account the ability of enterprise technologies to integrate information systems within and between organisations. In particular, when set against a backdrop of organisational learning. It examines the changing portfolio of benefits, costs and risks associated with the adoption and diffusion of technology in today's global marketplace. Finally approaches to impact assessment through performance management and benchmarking is discussed.
