The Recent Archaeology of the Early Modern Period in Quebec City: 2009

William Moss, 2017-12-02 This volume is the result of collaboration between SPMA and the Association des archeologues du Quebec (AAQ); its guest editor is William Moss, Chief Archaeologist for the City of Quebec. The publication has arisen from the celebration of the 400th anniversary of the city's founding by Samuel de Champlain in 1608, an occasion which gave momentum to a number of important archaeological projects in the city and surrounding region, and provided an excellent opportunity to present their results. It contains sixteen papers, all translated from French, the language of Quebec City. They include accounts of exciting discoveries relating to the port, the great chateau on the crag above it, the defences, and the newly discovered remains of the short-lived colony of the 1540s. The papers underline Quebec's status as one of the leading centres of urban research in North America. The volume provides the only modern overview of archaeological work in the city in the English language.

Archaeological and Historical Aspects of West-European Societies Marc Lodewijckx, 1996 The contents of this volume of essays in his honour gives a good overview of the fields in which Prof. Van Doorselaer has been active throughout his academic career. This book is especially an Album Amicorum, filled with reminiscences and intentions to continue the work. The voluminous size of this book may be considered as an adequate measure of the overall sympathy for Prof. Van Doorselaer. We hope that this publication may encourage him to remain active in the field of archaeology, and that the co-operation among colleagues, stimulated by this project, may be continued in the future.
