Peer to Peer Accommodation Networks Sara Dolnicar,2017-12-01 The first book to present a new conceptual framework which offers an initial explanation for the continuing and rapid success of such 'disruptive innovators' and their effects on the international hospitality industry. It discusses all the hot topics in this area, with a specific focus on Airbnb, in the international context.

Contemporary Case Studies on Fashion Production, Marketing and Operations Pui-Sze Chow,Chun-Hung Chiu,Amy C. Y. Yip,Ailie K. Y. Tang,2017-12-04 This book adopts a case study based research approach to examine the contemporary issues in the fashion industry. It documents real-world practices in fashion business from production, marketing to operations. Founded on an extensive review of literature, these case studies discuss the challenges that are pertinent to the current business environment in this important industry, provide benchmarks and generate insights to practitioners as well as suggest future directions to researchers. The book serves as a nexus of the theories and the industrial practices that advances knowledge for both the academia and the private sector in fashion business.

Internet Literature in China Michel Hockx,2015-02-10 Since the 1990s, Chinese literary enthusiasts have explored new spaces for creative expression online, giving rise to a modern genre that has transformed Chinese culture and society. Ranging from the self-consciously avant-garde to the pornographic, web-based writing has introduced innovative forms, themes, and practices into Chinese literature and its aesthetic traditions. Conducting the first comprehensive survey in English of this phenomenon, Michel Hockx describes in detail the types of Chinese literature taking shape right now online and their novel aesthetic, political, and ideological challenges. Offering a unique portal into postsocialist Chinese culture, he presents a complex portrait of internet culture and control in China that avoids one-dimensional representations of oppression. The Chinese government still strictly regulates the publishing world, yet it is growing increasingly tolerant of internet literature and its publishing practices while still drawing a clear yet ever-shifting ideological bottom line. Hockx interviews online authors, publishers, and censors, capturing the convergence of mass media, creativity, censorship, and free speech that is upending traditional hierarchies and conventions within China—and across Asia.

Geomorphology and Society Michael E. Meadows, Jiun-Chuan Lin,2018-06-07 This book deals with the relationship between geomorphology and society. This topic has had rather scant treatment in the literature except to some extent under the label "applied geomorphology". In this text the authors aim to bring together conceptual issues and case studies of how geomorphology influences society and, indeed, how society is in turn influenced by geomorphology. In an age in which the influence of human activities on global environments has become so paramount that it is increasingly common to refer to it geologically as the "anthropocene", the book aims to reflect on the geomorphological significance of widespread and diverse forms of human impact in a range of environmental settings.

Social Media in Industrial China Xinyuan Wang,2016-09-13 Life outside the mobile phone is unbearable.' Lily, 19, factory worker. Described as the biggest migration in human history, an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas. Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media. It was here she witnessed a second migration taking place: a movement from offline to online. As Wang argues, this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other, where the online world now provides a home for the migrant workers who feel otherwise 'homeless'. Wang's fascinating study explores the full range of preconceptions commonly held about Chinese people – their relationship with education, with family, with politics, with 'home' – and argues why, for this vast population, it is time to reassess what we think we know about contemporary China and the evolving role of social media.

Changing Media, Changing China Susan L. Shirk,2011-01-27 Thirty years ago, the Chinese Communist Party (CCP) made a fateful decision: to allow newspapers, magazines, television, and radio stations to compete in the marketplace instead of being financed exclusively by the government. The political and social implications of that decision are still unfolding as the Chinese government, media, and public adapt to the new information environment. Edited by Susan Shirk, one of America's leading experts on contemporary China, this collection of essays brings together a who's who of experts--Chinese and American--writing about all aspects of the changing media landscape in China. In detailed case studies, the authors describe how the media is reshaping itself from a propaganda mouthpiece into an agent of watchdog journalism, how politicians are reacting to increased scrutiny from the media, and how television, newspapers, magazines, and Web-based news sites navigate the cross-currents between the open marketplace and the CCP censors. China has over 360 million Internet users, more than any other country, and an astounding 162 million bloggers. The growth of Internet access has dramatically increased the information available, the variety and timeliness of the news, and its national and international reach. But China is still far from having a free press. As of 2008, the international NGO Freedom House ranked China 181 worst out of 195 countries in terms of press restrictions, and Chinese journalists have been aptly described as dancing in shackles. The recent controversy over China's censorship of Google highlights the CCP's deep ambivalence toward information freedom. Covering everything from the rise of business media and online public opinion polling to environmental journalism and the effect of media on foreign policy, *Changing Media, Changing China* reveals how the most populous nation on the planet is reacting to demands for real news.
