Imagine Erik Johansson,2016-09-20 Electrical lines that turn into the strings of a massive guitar in the sky. A man dragging a bed sheet, which turns into a road, across an empty field. A charming cottage on an island that is actually the back of a giant fish. Digital photography artist Erik Johansson has achieved international fame by taking and then combining photos into surreal, M.C. Escher-like worlds. This is his first book, and it captures the improbable and impossible in fifty distinctive images. Digital artist Erik Johansson starts with a simple hand-drawn sketch, but what you see in the end is anything but simple: dazzlingly realistic scenes made of hundreds of photographs—all meticulously staged and propped and then stitched together in software—offer a glimpse into wholly invented, incredibly detailed worlds. While shooting takes only a few days, Johansson’s planning and retouching process each take months, resulting in out-of-this-world images that have won him fans worldwide. Here’s what people are saying about the Erik Johansson’s work: “Erik Johansson has created a portfolio of stunning images combining photography, raw materials, and digital editing.” — Daily Mail UK “Erik Johansson ... has [taken] the blogosphere by storm by producing heavily manipulated photographs [that] invert aesthetics as we understand them, inspired by MC Escher and other surrealist artists.” — Independent UK

OFFLINE: Finding Yourself in the Age of Distractions Desi Anwar,2020-04-02 This collection of reflections is to remind us of some of the things we can turn our distracted minds to, when we can direct our attention to what are in front of us, above us, and more importantly, within us, using all the senses that we were all born with. They are a rediscovery of some of the things we have forgotten how to do or have put aside in favour of our allconsuming electronic toys, and an attempt to help us reconnect once more with our senses and our natural gifts. So, why not put your smart phones, tablets, games, gadgets and anything with a screen, down for a few minutes. Take a deep breath and look up. Because at the end of the day, it is not just any journey we are making, but a journey to discover and appreciate who we are and what makes us human.

The Pool Group and the Quest for Anthropological Universality Betsy van Schlun,2016-11-21 The Anglia Book Series (ANGB) offers a selection of high quality work on all areas and aspects of English philology. It publishes book-length studies and essay collections on English language and linguistics, on English and American literature and culture from the Middle Ages to the present, on the new English literatures, as well as on general and comparative literary studies, including aspects of cultural and literary theory.

Polyphony Embodied - Freedom and Fate in Gao Xingjian’s Writings Michael Lackner,Nikola Chardonnens,2014-06-23 Like artists, important writers defy unequivocal interpretations. Gao Xingjian, winner of the Nobel Prize in literature, is a cosmopolitan writer, deeply rooted in the Chinese past while influenced by paragons of Western Modernity. The present volume is less interested in a general discussion on the multitude of aspects in Gao's works and even less in controversies concerning their aesthetic value than in obtaining a response to the crucial issues of freedom and fate from a clearly defined angle. The very nature of the answer to the question of freedom and fate within Gao Xingjian's works can be called a polyphonic one: thereare affirmative as well as skeptical voices. But polyphony, as embodied by Gao, is an even more multifaceted phenomenon. Most important for our contention is the fact that Gao Xingjian's aesthetic experience embodies prose, theater, painting, and film. Taken together, they form a Gesamtkunstwerk whose diversity of voices characterizes every single one of them.

The Infinite Library Kane X. Faucher,2011 This is book I in a trilogy. The other titles : The infinite atrocity and The infinite grey.

The Endless Enigma Jean-Hubert Martin,Stephan Andreae,Museum Kunst Palast (Düsseldorf, Germany),2003 Fascinated by optical phenomena and curious to explore the limits of picture making, painters share a long history of creating visual puzzles, composite pictures with shifting perspectives. Ambiguous images whose various levels of meaning depend entirely on the observer's point of view have drawn more than a few painters' brushes over time. This rich volume is dedicated to that multifarious tradition, from early Indian and Persian miniatures of imaginary anthropomorphic landscapes, to Giuseppe Arcimboldo's pictures of the seasons, and finally the works by the great surrealist masters Max Ernst and Salvador Dal', encountering along the way such diverse artists as Francis Picabia, William Hogarth, Leonardo da Vinci, M.C. Escher, Tony Cragg and Kara Walker. Dal', whose work is at the center of this book and gives it its title, came up with no less than seven strata of perception for his work The Endless Enigma, in which parts of the picture merge into ever-new scenarios depending on the individual area the viewer chooses to focus on. A unique presentation of ambiguous pictures that originated in different cultures and epochs, The Endless Enigma: Dal' and the Magicians of Multiple Meaning reveals the enormous complexity of this artistic phenomenon, underlining the meaning of the method of seeing and discovering.

Ebony ,2005-11 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert,Erma Hermens,Marja Peek,1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

The China Study: Revised and Expanded Edition T. Colin Campbell,Thomas M. Campbell, II,2016-12-27 The revised and expanded edition of the bestseller that changed millions of lives The science is clear. The results are unmistakable. You can dramatically reduce your risk of cancer, heart disease, and diabetes just by changing your diet. More than 30 years ago, nutrition researcher T. Colin Campbell and his team at Cornell, in partnership with teams in China and England, embarked upon the China Study, the most comprehensive study ever undertaken of the relationship between diet and the risk of developing disease. What they found when combined with findings in Colin's laboratory, opened their eyes to the dangers of a diet high in animal protein and the unparalleled health benefits of a whole foods, plant-based diet. In 2005, Colin and his son Tom, now a physician, shared those findings with the world in The China Study, hailed as one of the most important books about diet and health ever written. Featuring brand new content, this heavily expanded edition of Colin and Tom's groundbreaking book includes the latest undeniable evidence of the power of a plant-based diet, plus updated information about the changing medical system and how patients stand to benefit from a surging interest in plant-based nutrition. The China Study—Revised and Expanded Edition presents a clear and concise message of hope as it dispels a multitude of health myths and misinformation. The basic message is clear. The key to a long, healthy life lies in three things: breakfast, lunch, and dinner.

The 17 Day Diet Dr Mike Moreno,2011-05-12 Dr Mike Moreno's 17 Day Dietis a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles: Accelerate- the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days

to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep good habits up for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

Attention Servicemember Ben Brody,2020-09 Attention Servicemember is Ben Brody's searing elegy to the experience of the American wars in Iraq and Afghanistan. Brody was a soldier assigned to make visual propaganda during the Iraq War. After leaving the army, he traveled to Afghanistan as an independent civilian journalist. Returning to rural New England after 12 years at war, he found his home unrecognizable - even his own backyard radiated menace and threat. So he continued photographing the war as it exists in his own mind. This critically-acclaimed photobook was shortlisted for the Aperture-Paris Photo First Book Award and is now in its second printing.

The Female Secession Megan Brandow-Faller,2020-04-21 Decorative handcrafts are commonly associated with traditional femininity and unthreatening docility. However, the artists connected with interwar Vienna’s “female Secession” created craft-based artworks that may be understood as sites of feminist resistance. In this book, historian Megan Brandow-Faller tells the story of how these artists disrupted long-established boundaries by working to dislodge fixed oppositions between “art” and “craft,” “decorative” and “profound,” and “masculine” and “feminine” in art. Tracing the history of the women’s art movement in Secessionist Vienna—from its origins in 1897, at the Women’s Academy, to the Association of Austrian Women Artists and its radical offshoot, the Wiener Frauenkunst—Brandow-Faller tells the compelling story of a movement that reclaimed the stereotypes attached to the idea of Frauenkunst, or women’s art. She shows how generational struggles and diverging artistic philosophies of art, craft, and design drove the conservative and radical wings of Austria’s women’s art movement apart and explores the ways female artists and craftswomen reinterpreted and extended the Klimt Group’s ideas in the interwar years. Brandow-Faller draws a direct connection to the themes that impelled the better-known explosion of feminist art in 1970s America. In this provocative story of a Viennese modernism that never disavowed its ornamental, decorative roots, she gives careful attention to key primary sources, including photographs and reviews of early twentieth-century exhibitions and archival records of school curricula and personnel. Engagingly written and featuring more than eighty representative illustrations, *The Female Secession* recaptures the radical potential of what Fanny Harlfinger-Zakucka referred to as “works from women’s hands.” It will appeal to art historians working in the decorative arts and modernism as well as historians of Secession-era Vienna and gender history.
