Gender and Ideology in Translation Vanessa Leonardi, 2007 Leonardi analyses and evaluates the problems that may arise from ideology-driven shifts in the translation process as a result of gender differences. First she offers a theoretical background, draws up an analytic checklist of linguistic tools and states the main hypothesis, then she tests the hypothesis with four empirical analyses.

A Madness Most Discreet Nichole Van, 2018-04-19 Tennyson D'Angelo . . . Darkness lives within each of us. Shadows. We are each capable of great goodness and unbelievable evil. It is the duality of being human. I want to live in the light. I don't enjoy the shadows. But I'm not sure I've been given a choice in the matter. The shadows own me. They dance at my edges and tangle in my light. They torment my days and make my nights an anguished hell. I simply want to be free. One way . . . or another. The call him the Prophet. Tennyson D'Angelo, the man who can foretell the future. A modern-day oracle. And Olivia Hawking desperately needs his help. She tracks him down in Italy, begging for his assistance. Italian Literature Before 1900 in English Translation Robin Healey, 2011-01-01 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors - Dante Alighieri, [Niccoláo] Machiavelli, and [Giovanni] Boccaccio - and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature.--Pub. desc.

Translating Travel Loredana Polezzi, 2001 Translating Travel examines the relationship between travel writing and translation, asking what happens when books travel beyond the narrow confines of one genre, one literary system and one culture. The volume takes as its starting point the marginal position of contemporary Italian travel writing in the Italian literary system, and proposes a comparative reading of originals and translations designed to highlight the varying reception of texts in different cultures. Two main themes in the book are the affinity between the representations produced by travel and the practices of translation, and the complex links between travel writing and genres such as ethnography, journalism, autobiography and fiction. Individual chapters are devoted to Italian travellers' accounts of Tibet and their English translations; the hybridization of journalism

and travel writing in the works of Oriana Fallaci; Italo Calvino's sublimation of travel writing in the stylized fiction of *Le città invisibili*; and the complex network of literary references which marked the reception of Claudio Magris's *Danubio* in different cultures.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Simplification, Explicitation and Normalization Margherita Ippolito, 2014-09-18 The search for general laws and regularities in Translation Studies gained new momentum in the 1990s when Baker (1993) promoted the use of large electronic corpora as research tools for exploring the linguistic features that render the language of translation different from the language of non-translated texts. By comparing a corpus of translated and non-translated English texts, Baker and her research team put forward the hypothesis that translated texts are characterized by some "universal features", namely simplification, explicitation, normalization and levelling-out. The purpose of this study is to test whether simplification, explicitation and normalization apply to Italian translations of children's books. In order to achieve this aim, a comparable corpus of translated and non-translated works of classic fiction for children has been collected and analysed using Corpus Linguistics tools and methodologies. The results show that, in the translational subcorpus, simplification, explicitation and normalization processes do not prevail over the non-translational one. Therefore, it is suggested that the status of translated children's literature in the Italian literary "polysystem" (Even-Zohar, 1979, 1990) and, from a general viewpoint, all the cultural, historical and social conditions that influence translators' activities, determine translation choices that can also tend towards processes different from those proposed by Baker.

Giacomo Castelvetro, Renaissance Translator Maria Luisa De Rinaldis, 2003

The Prince / Il Principe Niccolò Machiavelli, 2017-06-23 This edition contains the English translation and the original text in Italian. The Prince (Italian: *Il Principe*) is a 16th-century political treatise by the Italian diplomat and political theorist Niccolò Machiavelli. From correspondence a version appears to have been distributed in 1513, using a Latin title, *De Principatibus* (About Principalities). However, the printed version was not published until 1532, five years after Machiavelli's death. This was done with the permission of the Medici pope Clement VII, but long before then, in fact since the first appearance of the 'Prince' in manuscript, controversy had swirled about his writings. Although it was written as if it were a traditional work in the mirrors for princes style, it is generally agreed that it was especially innovative. This is only partly because it was written in the vernacular Italian rather than Latin, a practice which had become increasingly popular since the publication of Dante's *Divine Comedy* and other works of Renaissance literature. The Prince is sometimes claimed to be one of the first works of modern philosophy, especially modern political philosophy, in which the effective truth is taken to be more important than any abstract ideal. It was also in direct conflict with the dominant Catholic and scholastic doctrines of the time concerning how to consider politics and ethics. Although it is relatively short, the treatise is the most remembered of Machiavelli's works and the one most responsible for bringing the word Machiavellian into usage as a pejorative. It also helped make Old Nick an English term for the devil, and even contributed to the modern negative connotations of the words politics and politician in western countries. In terms of subject matter it overlaps with the much longer *Discourses on Livy*, which was written a few years later. In its use of near-contemporary Italians as examples of people who perpetrated criminal deeds for politics, another lesser-known work by Machiavelli which The Prince has been compared to is the *Life of Castruccio Castracani*. *Il Principe* (titolo originale in lingua latina: *De Principatibus*, lett. *Sui Principati*) è un trattato di dottrina politica scritto da Niccolò Machiavelli nel 1513, nel quale espone le caratteristiche dei principati e dei metodi per mantenerli e conquistarli. Si tratta senza dubbio della sua opera più nota e celebrata, quella dalle cui massime (spesso superficialmente interpretate) sono nati il sostantivo machiavellismo e l'aggettivo machiavellico. L'opera non è ascrivibile ad alcun genere letterario particolare, in quanto non ha le caratteristiche di un vero e proprio trattato; se ne è ipotizzata la natura di libriccino a carattere divulgativo. Il Principe si compone di una dedica e ventisei capitoli di varia lunghezza; l'ultimo capitolo consiste nell'appello ai de' Medici ad accettare le tesi espresse nel testo.
