Restart Gordon Korman,2017-05-30 The amazing New York Times bestseller about what you can do when life gives you a second chance. Chase's memory just went out the window. Chase doesn't remember falling off the roof. He doesn't remember hitting his head. He doesn't, in fact, remember anything. He wakes up in a hospital room and suddenly has to learn his whole life all over again . . . starting with his own name. He knows he's Chase. But who is Chase? When he gets back to school, he sees that different kids have very different reactions to his return. Some kids treat him like a hero. Some kids are clearly afraid of him. One girl in particular is so angry with him that she pours her frozen yogurt on his head the first chance she gets. Pretty soon, it's not only a question of who Chase is -- it's a question of who he was . . . and who he's going to be. From the #1 bestselling author of Swindle and Slacker, Restart is the spectacular story of a kid with a messy past who has to figure out what it means to get a clean start.

Conflict Talk in English as a Lingua Franca Mayu Konakahara, 2023-05-08 This volume aims to fill two gaps in pragmatic research into English as a lingua franca (ELF): the investigation of conflict talk and the incorporation of a multimodal perspective into the analysis of ELF interactions. To this end, multimodal conversation analysis is used, combined with the perspective of politeness theory. The author shows how interactants use multimodal resources to manage competitive overlaps, disagreement, and third-party complaints in casual ELF conversations among friends. In doing so, the notion of cooperativeness is re-examined, and the appropriateness of an intercultural approach to analyzing multimodal resources in ELF interactions is demonstrated.

Epistemic Stance in English Conversation Elise Kärkkäinen, 2003-12-19 This book is the first corpus-based description of epistemic stance in conversational American English. It argues for epistemic stance as a pragmatic rather than semantic notion: showing commitment to the status of information is an emergent interactive activity, rooted in the interaction between conversational co-participants. The first major part of the book establishes the highly regular and routinized nature of such stance marking in the data. The second part offers a micro-analysis of I think, the prototypical stance marker, in its sequential and activity contexts. Adopting the methodology of conversation analysis and paying serious attention to the manifold prosodic cues attendant in the speakers' utterances, the study offers novel situated interpretations of I think. The author also argues for intonation units as a unit of social interaction and makes observations about the grammaticization patterns of the most frequent epistemic markers, notably the status of I think as a discourse marker.

Second Language Pragmatics and English Language Education in East Asia Cynthia Lee, 2020-12-27 This edited collection addresses the link between second language pragmatics (including interlanguage and intercultural) research and English language education. The chapters use different contemporary research methods and theoretical frameworks such as conversation analysis, language-learners-as-ethnographers, discourse and interactional approaches and data in contexts (either in the region or overseas). The content explores and discusses the significance of learning and teaching of second language (L2) pragmatics in language education for learners who use English as a lingua franca for academic and intercultural communication purposes with native and non-native speakers of English, focusing on pragmatic actions, social behaviours, perceptions and awareness levels in three regions in East Asia - China, Japan and South Korea. It is an important contribution to the area of second language pragmatics in language education for East Asian learners. It recommends research-informed pedagogies for the learning and teaching of interlanguage or intercultural pragmatics in regions and places where similar cultural beliefs or practices are found. This is an essential read for researchers, language educators, classroom teachers, readers who are interested in second language pragmatics research and those interested in second language acquisition and English language education in the East Asian context.

Dogzilla Dav Pilkey, 1993 Dogzilla rises from a volcano to break up the First Annual Mousopolis Barbecue Cook-Off, and scatter the Big Cheese's troops with her fearsome doggy breath--but the threat of a bath sends her scurrying back to her mountain. Illustrations are painted in bright acrylics around cleverly trimmed and placed photographs of Pilkey's pet mice, cat, and corgi, for a wonderfully silly look, appropriately accompanied by a pun-laden text.--School Library Journal

The Fall of Language in the Age of English Minae Mizumura, 2015-01-06 Winner of the Kobayashi Hideo Award, *The Fall of Language in the Age of English* lays bare the struggle to retain the brilliance of one's own language in this period of English-language dominance. Born in Tokyo but raised and educated in the United States, Minae Mizumura acknowledges the value of a universal language in the pursuit of knowledge yet also embraces the different ways of understanding offered by multiple tongues. She warns against losing this precious diversity. Universal languages have always played a pivotal role in advancing human societies, Mizumura shows, but in the globalized world of the Internet, English is fast becoming the sole common language of humanity. The process is unstoppable, and striving for total language equality is delusional—and yet, particular kinds of knowledge can be gained only through writings in specific languages. Mizumura calls these writings texts and their ultimate form literature. Only through literature and, more fundamentally, through the diverse languages that give birth to a variety of literatures, can we nurture and enrich humanity. Incorporating her own experiences as a writer and a lover of language and embedding a parallel history of Japanese, Mizumura offers an intimate look at the phenomena of individual and national expression.
