Scott Russell previously met a Brazilian lady, Juliana, online and made several trips to Brazil where he not only got to know her family and culture but fell in love as well. A retired and divorced Californian, Scott had to overcome his marriage anxiety before finally proposing. This is all told in flashbacks. After obtaining a tourist visa, Juliana makes her first trip to California. Once the two are settled in Scott's apartment, he leads Juliana on a mission of discovery. He shows her the California sights, tells her some of its history and introduces her to Cara, his daughter. His aim, to show Juliana his world and a whole new way of life. A paper chase ensues in struggling through the lengthy, expensive, and bureaucratic immigration process. When it is finally over, the two lovebirds celebrate. Scott raises his glass in toast. Well, honey, we've made it through some very challenging times my heart attack, your diverticulitis. All those complicated government forms we had to fill out. The medical tests you had to endure. Even a trip to Rio for your K-3 visa interview. Then your green card interview in San Francisco. That's not even counting the cost. I just want you to know I love you and truly believe it was all worth it. I wish us to be always together. They agree, with all the time, cost, and effort they'd put in, they had little empathy for anyone entering the country illegally. Complicating the situation, Scott finds out his daughter's new boyfriend entered the country illegally. *Brasileira* is a story of the challenges faced by two lovers from different countries and what they must endure to live together.

Recent Research in Second Language Phonetics/Phonology Barbara O. Baptista, Andreia S. Rauber, Michael A. Watkins, 2009-10-02 *Recent Research in Second Language Phonetics/Phonology: Perception and Production* reports the findings of seventeen interphonology studies on perception/production of sounds by different first language speakers. All the papers describe careful empirical research, and as such will be of great interest to anyone working, or intending to work, in the specific field of second language phonological acquisition. However, given that speech production and perception are highly complex skills, the research findings in this volume will also be relevant to those with a broader interest in language learning or cognition in general.

Passive Sentences in English and Portuguese Milton Mariano Azevedo, 1980 This study analyzes passive sentences in English and Portuguese which result from a post-semantic transformation applied when a noun, which does not play the semantic role of actor, is chosen as syntactic subject. Choice between a passive and its non-passive or active counterpart reflects differences in the distribution of information in the sentence as regards the relative importance of the latter's constituents for communication. Such distribution is analyzed in terms of Prague school theory, especially that involving the notions of communicative dynamism and the distribution of theme and rheme. The book concludes with a contrastive analysis of English and Portuguese passive sentence patterns which serves as the basis for observations on the teaching of Portuguese passives to native speakers of English.

Brazilian Folk Narrative Scholarship (RLE Folklore) Mary MacGregor-Villarreal, 2015-02-11 Although Brazilian scholars have collected and studied folklore since the second half of the nineteenth century, their work has gone

largely unnoticed by folklorists working in other parts of the world. With the exception of anthropologists who occasionally study the folk literature of indigenous peoples in Brazil, few foreigners are familiar with, or even aware of, the kinds of folklore studies that have been undertaken in that country. This work, first published in 1994, aims to characterize the nature of Brazilian narrative studies and trends; to discuss and assess the roots of the apparent preoccupations, approaches and objectives of traditional narrative scholarship in Brazil; to examine Brazilian folklore scholarship in light of Euro-American research; and to point out the results and accomplishments of Brazilian research while simultaneously indicating possibilities for new directions in research.

Black Into White Thomas E. Skidmore, 1993 Published to wide acclaim in 1974, Thomas E. Skidmore's intellectual history of Brazilian racial ideology has become a classic in the field. Available for the first time in paperback, this edition has been updated to include a new preface and bibliography that surveys recent scholarship in the field. Black into White is a broad-ranging study of what the leading Brazilian intellectuals thought and propounded about race relations between 1870 and 1930. In an effort to reconcile social realities with the doctrines of scientific racism, the Brazilian ideal of whitening—the theory that the Brazilian population was becoming whiter as race mixing continued—was used to justify the recruiting of European immigrants and to falsely claim that Brazil had harmoniously combined a multiracial society of Europeans, Africans, and indigenous peoples.

Freedom by a Thread Flavio Dos Santos Gomes, Joao Jose Reis, 2017-08-12 Freedom by a Thread: The History of Quilombos in Brazil brings together some of the best scholars in the world working on the history of quilombos (maroon societies) in Brazil from a variety of perspectives and approaches. Over 40 percent of the total volume of captive Africans arrived in Brazil during a 400-year period of legal and contraband transatlantic slaving. If slavery penetrated every aspect of Brazilian life, so did resistance—and co-existence with it—in the form of small to large-scale quilombos. Palmares and the other quilombos built an exciting history of freedom. Yet, it is a history filled with traps and surprises, advances and setbacks, conflict and commitments, while advancing their immediate interests and more ambitious projects of liberty. These events and many others are part of the history told in this book.
