*Bridging Cultural Barriers in China, Japan, Korea & Mexico* Boye Lafayette De Mente, 2009-11 The economies of the advanced countries have gone global, but not the cultures. This presents a plethora of problems that include economic as well as political affairs, especially with countries whose cultures are often so different that compromises--much less agreements--range from difficult to impossible. In this book, author Boy Lafayette De Mente, known for his pioneer books on the business and social cultures of China, Japan, Korea and Mexico, presents a series of business-oriented insights that take much of the mystery out of the mindset and behavior of the Chinese, Japanese, Koreans and Mexicans. It is excellent background reading for business people, diplomats, political leaders, academics and students.

**Korean Business Etiquette** Boye Lafayette De Mente, 2011-06-14 South Korean companies and technology have suddenly conquered the world. Samsung, Hyundai and LG are industry leaders and the global brands. Korean culture in the form of K-Pop music videos and Korean Wave films and TV dramas are watched everywhere from Tel Aviv to Singapore to Rio. Korean gourmet food trucks ply the streets of New York and LA, and kimchi has found a place on the shelves of well-stocked supermarkets around the world. With just a fraction of Japan's land area, less than half its population, and no natural resources—how have Korean companies managed to conquer the world in such a short period of time? What is the secret sauce of Korean business practices and companies that makes them so successful? To find out, readers need more than statistics and company profiles. Learning the basics about Korean culture, about Korean social etiquette and Korean business culture, will enable you to understand for the first time how Koreans think and why they work so effectively to achieve their goals. This understanding will enhance your own effectiveness in doing business with Koreans, or in competing with them—whether in Korea or elsewhere.

**Computer-Human Interaction** Seongil Lee, Hyunseung Choo, Sungdo Ha, In Chul Shin, 2008-07-04 Welcome to the proceedings of APCHI 2008, the 8th Asia-Pacific Conference on Computer-Human Interaction held in Seoul, Korea. Following the success of the preceding APCHI conferences, in Singapore (1996, 2000), Australia (1997), Japan (1998), China (2002), New Zealand (2004) and Taiwan (2006), the 8th APCHI brought together the researchers, developers, practitioners, and educators in the field of human-computer interaction. APCHI has been a major forum for scholars and practitioners in the Asia-Pacific region on the latest challenges and developments in HCI. Theoretical breakthroughs and practical systems and interfaces were presented at this 2008 conference, thanks to the support of KADO, the HCI ITRC of Sungkyu-wan University, and KIST. APCHI 2008 featured a comprehensive program including keynote speeches, regular paper presentations, poster, demos, and special panel sessions. To address the challenge of socially blending ubiquitous computing technologies and a wider spectrum of people with a variety of skills, knowledge, and capabilities, APCHI 2008 set “Universal and Ubiquitous” as the conference theme. APCHI 2008 attracted a total of 151 paper submissions. Among such a large number of submissions, 45 full papers were accepted as submitted or with minor revisions. All papers were reviewed by at least two reviewers. For the remaining submissions, 41 were recommended to change according to the reviews and were submitted as extended abstracts and posters. One special session with six invited papers was organized to support the conference theme of “Universal and Ubiquitous.”

**Korean Mind** Boye Lafayette De Mente, 2012-11-27 The Koreans: understanding a people and their culture through key words and language. Koreans have a unique character and personality that sets them apart from all other Asians. And although Korean attitudes and behavior may be influenced by the modern world, the Korean mindset is still very much shaped by ancient culture and traditions. As is the case with all ancient cultures created within highly refined and meticulously structured social systems over thousands of years, one of the keys to understanding traditional Korean attitudes and behavior is the language of the people—or more precisely, key words in the language. These key words provide access to the Korean mind—to core concepts and emotions, the attitudes and feelings that make up the Korean psyche. These key terms reveal both the heart and soul of

Koreans and provide bridges for communicating and interacting with Koreans on the most fundamental level. In The Korean Mind, Boye Lafayette De Mente explores the meanings and cultural context of the most important code words of the Korean language, terms whose significance goes well beyond their literal definitions, providing an insight into Korean culture and the personality of the Korean people. Keywords include: Aboji, Ah-boh-jee – The Father Culture Anae, Ah-negh – Wives: The Inside People Han Yak, Hahn Yahk – The Herbal Way to Health Innae, Een-nay – A Culture of Enduring Katun Sosuy Pap, Kaht-unn Soh-suut Pahp – Eating from the Same Rice Bowl And over 200 more...
