Seizures and Epilepsy Jerome Engel, Jr.,2012-12-31 This second edition of Seizures and Epilepsy, written almost a quarter of a century after the ground-breaking first edition, is more than an update: it is a complete revision due to tremendous advances in the field. Our understanding of the fundamental neuronal mechanisms underlying epileptic phenomena, as well as current diagnosis and treatment, have been heavily influenced over the past several decades by seminal neuroscientific developments, particularly the introduction of molecular neurobiology, genetics, and modern neuroimaging. According to the World Health Organization, epilepsy accounts for 1% of the global burden of disease, equivalent to breast cancer in

women and lung cancer in men. Among primary disorders of the brain, it is equivalent to depression, dementia, and substance abuse. Singly authored by Jerome Engel, Jr, this must-read from 1989 reasserts itself as a modern classic comprehensive textbook covering a broad range of both basic and clinical epileptology. Basic scientists who are interested in learning more about clinical epileptology, as well as clinicians who would like to understand more about fundamental mechanisms will find this text useful. Residents and postdoctoral fellows, particularly those interested in a career in epilepsy, will benefit from the continuity and organization of this single-authored comprehensive textbook.

My Mommy Has Epilepsy Stacey Chillemi, 2017-06-12 DO YOU OR A LOVE ONE HAVE EPILEPSY? DOES YOUR CHILD HAVE EPILEPSY? DOES YOUR CHILD KNOW WHAT TO DO IF SOMEONE HAS A SEIZURE? ARE YOU LOOKING FOR AN EXCELLENT CHILDREN'S BOOK TO TEACH WHAT EPILEPSY IS TO YOUR CHILD? Millions of people have epilepsy or experience seizures. Are you one of them? Are you trying to figure out how to explain to your child or a child in your family about epilepsy and what to do if someone is experiencing a seizure? Author Stacey Chillemi and Illustrator provides spectacular proof that children really understand more than you think. Illuminating the cartoon illustrations of confusion and fear that epilepsy can cause, this new edition of *My Mommy Has Epilepsy* uses lively, subversive illustrations to show how to understand what epilepsy is and what to do if someone is experiencing a seizure. This picture book is sure to elicit a clear understanding and opportunity to eliminate children's fear of epilepsy from all who read it.

Epilepsy Simon Pierce, 2017-12-15 Epilepsy can be frightening to both the sufferer and their loved ones. However, knowing more about the symptoms and treatment can give people a sense of empowerment. This volume discusses what epilepsy is, how it can be treated, and what can be done for someone who is having a seizure. The informative book, supplemented with in-depth sidebars, full-color photographs, and detailed charts, dispels the myths surrounding epilepsy and gives readers a clearer picture of this often misunderstood disorder.

Epilepsy Across the Spectrum Institute of Medicine, Board on Health Sciences Policy, Committee on the Public Health Dimensions of the Epilepsies, 2012-07-29 Although epilepsy is one of the nation's most common neurological disorders, public understanding of it is limited. Many people do not know the causes of epilepsy or what they should do if they see someone having a seizure. Epilepsy is a complex spectrum of disorders that affects an estimated 2.2 million Americans in a variety of ways, and is characterized by unpredictable seizures that differ in type, cause, and severity.

Yet living with epilepsy is about much more than just seizures; the disorder is often defined in practical terms, such as challenges in school, uncertainties about social situations and employment, limitations on driving, and questions about independent living. The Institute of Medicine was asked to examine the public health dimensions of the epilepsies, focusing on public health surveillance and data collection; population and public health research; health policy, health care, and human services; and education for people with the disorder and their families, health care providers, and the public. In *Epilepsy Across the Spectrum*, the IOM makes recommendations ranging from the expansion of collaborative epilepsy surveillance efforts, to the coordination of public awareness efforts, to the engagement of people with epilepsy and their families in education, dissemination, and advocacy for improved care and services. Taking action across multiple dimensions will improve the lives of people with epilepsy and their families. The realistic, feasible, and action-oriented recommendations in this report can help enable short- and long-term improvements for people with epilepsy. For all epilepsy organizations and advocates, local, state, and federal agencies, researchers, health care professionals, people with epilepsy, as well as the public, *Epilepsy Across the Spectrum* is an essential resource.

Navigating Life with Epilepsy David C. Spencer, 2016-09-01 Roughly 3 million people in the United States have already been diagnosed with epilepsy and another 200,000 new cases are diagnosed each year. Worldwide, approximately 1 percent of the global population is diagnosed with epilepsy at some point in their lives. With the diagnosis come questions, concerns, and uncertainties from both the person diagnosed and their family. So, where to go? *Navigating Life with Epilepsy* provides accessible, comprehensive, and up-to-date information about epilepsy shared from the two decades of experience of epileptologist David Spencer, MD, FAAN. This book guides the reader through the initial diagnosis, offers explanations on current approaches to diagnostic testing, medications, treatment options, and life management for the patient, their family, and their caregiver. Patient's stories are peppered throughout to illustrate that you are not alone: like you, they must navigate the myriad psychosocial challenges associated with epilepsy, including everyday concerns like driving, work, and relationships. *Navigating Life with Epilepsy* is a perfect resource for both patients with epilepsy and the family members and friends who care for them.

Epilepsy on Our Terms Georgia D. Montouris, John M. Pellock, 2008 Nearly three million people in the United States live with epilepsy every day and

another 180,000 Americans develop epilepsy every year. Around the world, more than 60 million people have epilepsy. Epilepsy impacts everyone in different ways, as well as their families, friends and professional caregivers. This enlightening book presents the firsthand personal accounts of children with seizure disorders and their parents. In their own words, these children and parents vividly describe the experiences of handling the crisis of the initial seizure, adjusting to the diagnosis of epilepsy, coping with seizures, managing medications and side effects, and dealing with health care providers, teachers, schoolmates, siblings, and friends. Their stories reveal the terror, uncertainty, and frustration felt by children and parents after an initial seizure or a diagnosis of epilepsy and document the ongoing trials, tribulations, and triumphs of coping with seizures, medication schedules and side effects, health care providers and hospitals, schoolmates, siblings, relatives and friends. These accounts provide realistic insights into the myriad issues encountered in living with childhood epilepsy. The book also includes a straightforward medical discussion of childhood seizures, written in layperson's terms; a glossary of medical terms; and a guide for schoolteachers and parents.

Epilepsy in Children Orrin Devinsky, MD, Erin Conway, MS, RN, CPNP, Courtney Schnabel Glick, MS, RD, CDN, 2015-12-02 From a leading neurologist, experienced nurse practitioner, and registered dietitian comes the complete guide to managing your child's life with epilepsy. Epilepsy in Children offers the practical advice and information you need to respond to your child's seizures safely and effectively, understand the latest treatment options, and find hope for a seizure-free future. Get the right diagnosis for your child and the correct treatment to reduce the frequency of seizures faster. Learn the benefits and risks of pharmaceutical, surgical, and alternative therapies, including the ketogenic diet. Help your child maintain a normal life at school, with friends, and in sports and other activities. Navigate the transitions from infancy and childhood to puberty and becoming a young adult. "Epilepsy in Children is an indispensable starting point and guide for parents and families. Orrin Devinsky is a leading clinician, researcher, and teacher who takes down walls and engages deeply with patients and families. He and his colleagues have created a resource that is clearly written and yet covers the breadth of epilepsies, therapies, and resources available." —W ARREN L AMMERT, CHAIRMAN OF THE EPILEPSY FOUNDATION BOARD OF DIRECTORS "When a child is first diagnosed, it's a bleak, isolating time for families. This book sheds light in the darkest corners and gives parents a crucial playbook to help both their children and themselves. The authors leverage their medical, nursing, and nutrition backgrounds to address

the most difficult issues with a uniquely collaborative approach. It's a game changer.” —KATE COONEY PICO, PARENT As an advocate, I am grateful that Orrin Devinsky has taken his immense talent and decades of experience to help parents address the critical and diverse needs of children with epilepsy. As the father of a child with epilepsy, there are no words adequate for me to thank him for dedicating his life to helping our children. In *Epilepsy in Children* Dr. Devinsky and his team give families an opportunity to transform a sense of fear, isolation, and helplessness, into hope, confidence, and strength. —PHILIP M. GATTONE, MEd., PRESIDENT AND CEO, EPILEPSY FOUNDATION ORRIN DEVINSKY, MD, is a professor of neurology, neurosurgery, and psychiatry at the NYU School of Medicine, and director of the NYU Comprehensive Epilepsy Centers and the Saint Barnabas Institute of Neurology and Neurosurgery (INN). He has published widely on the subject of epilepsy, with more than 400 articles and chapters and more than 20 books and monographs. He has served on the board of the National Epilepsy Foundation and the American Epilepsy Society. He cofounded epilepsy.com, the Epilepsy Therapy Project, and the journals *Epilepsy and Behavior* and *Reviews in Neurological Diseases*. ERIN CONWAY, MS, RN, CPNP is a pediatric nurse practitioner at the NYU Comprehensive Epilepsy Center. COURTNEY SCHNABEL GLICK, MS, RD, CDN is a registered dietitian at the NYU Comprehensive Epilepsy Center.

Epilepsy 199 Answers Andrew N. Wilner, MD, FACP, FAAN, 2008-01-16 Andrew N. Wilner is a recipient of the Click 2008 AAN Journalism Fellowship Award! The Epilepsy Foundation estimates that 2.7 million Americans have epilepsy, and that an additional 181,000 new cases are diagnosed every year. Being diagnosed with any chronic disease can cause confusion and anxiety to the uninformed patient. Written by an expert in the field, *Epilepsy: 199 Answers*, 3rd Edition, continues to provide accurate, up-to-date and comprehensible medical information for epilepsy patients and family members. Easy-to-read, informative, and time-tested, this question and answer book covers everything from brain surgery to the Atkins diet; readers will also enjoy a first-rate resource section, and a health record tracker so patients can accurately chart their progress and receive optimal care.

Acute Encephalopathy and Encephalitis in Infancy and Its Related Disorders Hideo Yamanouchi, Solomon L.
