Modern Pace Handicapping Tom Brohamer,2000

Calculating the pace and comparative speed of horses in a race often holds the key to the puzzle of selecting the winner.

Keeneland's Ted Bassett James E. "Ted" Bassett,Bill Mooney,2014-10-17 In the December 30, 1967, edition of the weekly Thoroughbred trade publication, the Blood-Horse, was an announcement that took up one inch of space—James E. Ted Bassett III had been named assistant to the president of the Keeneland Association. It was sandwiched between equally short news items about a handicapping seminar at an East Coast racetrack and a California vacation trip by a horse-owning couple. Bassett's new job, in his own words, was not earthshaking news. More than four decades later, Ted Bassett is one of the most respected figures within the global Thoroughbred industry. He has served as Keeneland's president, chairman of the board, and trustee, playing a critical role in its ascendancy as a premier Thoroughbred track and auction house. Bassett was also president of Breeders' Cup Limited during its greatest period of growth and has been a key architect in the development of the Sport of Kings as we know it today. Written in collaboration with two-time Eclipse Award-winning journalist Bill Mooney, Keeneland's Ted Bassett: My Life recounts Bassett's extraordinary journey, including his days at Kent School and Yale University, through his U.S. Marine Corps service in the Pacific theater during World War II, and as director of the Kentucky State Police during the turbulent 1960s. He helped found the College of Justice & Safety at Eastern Kentucky University, and his continuing service to the Marine Corps has gained him the highest honors accorded to a civilian. During his forty-plus years with Keeneland, Bassett has hobnobbed with hot walkers in the track kitchen, hosted the first visit by Queen Elizabeth II to a United States track, and participated in many of the most important events in the modern history of horse racing. With self-

effacing humor, characteristic charm, and candor, Bassett describes his association with historic figures such as J. Edgar Hoover and Kentucky governors Albert B. Chandler, Edward T. Ned Breathitt, and John Y. Brown; and his friendships with racing personalities D. Wayne Lukas, Nick Zito, Ron McAnally, Pat Day, and Joe Hirsch. Bassett shares details about difficult corporate decisions and great racing events that only he can supply, and about the formation of Equibase, the premier data collection agency within the Thoroughbred industry. He tells about his role as an international ambassador for racing, which has made him a highly influential figure on six continents. Bassett often describes his life as a fascinating blur. That blur and all its unique components are brought into sharp focus in a book that is as wide-ranging as it is personal, filled with a gold mine of firsthand stories and historical details. In addition to highlighting Keeneland's reputation as the jewel of the Thoroughbred industry, Bassett chronicles the business of racing and accomplishments of many prominent people in the horse world, and elsewhere, during the twentieth century.

Picking Winners Andrew Beyer, 1994 A classic guide to handicap strategies in the field of thoroughbred racing Just as football evolved with the introduction of the forward pass and basketball with the development of the jump shot, so too was handicapping forever changed by the use of speed figures--and it all started with Andrew Beyer. With a foreword discussing the changes that have swept horse racing since the book's original publication in 1975, *Picking Winners* is essential reading both for serious horseplayers and curious amateurs.

Computer-Based Horse Race Handicapping and Wagering Systems Bill Benter, William Benter, 2020-02-14
The Gambler Who Cracked the Horse-Racing Code Bill Benter did the impossible: He wrote an algorithm that couldn't lose at the track. Close to a billion dollars later, he tells his system. This book examines the elements necessary for a practical and successful computerized horse race handicapping and wagering system. Data requirements, handicapping model development, wagering strategy, and feasibility are addressed. A logit-based technique and a corresponding heuristic measure of improvement are described for combining a fundamental handicapping model with the public's implied probability estimates. The author reports significant positive results in five years of actual implementation of such a system. This result can be interpreted as evidence of inefficiency in pari-mutuel racetrack wagering. This paper aims to emphasize those aspects of computer handicapping which the author has found most important in practical application of such a system. Also included the Bill Benter What Are My Odds? Presentation at ICCM in 2004.

Body Language of Horses Tom Ainslee, Tom

Ainslie, 1980-05-01 Horses communicate with remarkable accuracy in a language of posture, gesture and sound. They express their needs, wishes and emotions to each other and to the rare human being who understands them. After reading this unprecedented, exciting and up-lifting book, you will understand the equine language. You therefore will know how to recognize: A happy horse. A frightened horse. An angry horse. A bored horse. A grieving horse. A frustrated horse. A horse in pain. A playful horse. A proud horse. An eagerly competitive horse. And many horses more! Moreover, you will know how to reassure the frightened, calm the angry, comfort the grieving, divert the bored -- and deal with most other human-equine difficulties. You will know how to educate a foal or rehabilitate a rogue. You will know how to look at race horses on their way to the starting gate and differentiate the likely winners from the losers. You even will know how to buy a horse. But best of all, you will finally understand what these grand animals are all about, and you will know better than ever before how they (and we) fit into nature's scheme of things.
