Made to Break Giles Slade, 2009-06-30 Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be

shortening the future of our way of life as well.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith, 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Why Physician Home Loans Fail Josh Mettle, 2014-03-28 AT LAST—A NO B.S. GUIDE FOR PHYSICIANS. Look behind the curtains of MORTGAGE BANKING, discover the REAL LANDMINES and learn how to make a FLAWLESS HOME PURCHASE. In the post-meltdown world of mortgage banking, physicians face more challenges and have a higher rate of underwriter decline than any other professional client we advise. It's shocking but true.

Spend a few minutes in physician chat rooms where the topic is “mortgage” and you are likely to read nightmare after nightmare horror story. It’s emotionally devastating to see what a botched home loan and closing can do to a family. Within these pages, seasoned physician mortgage professional and fourth-generation Utah real estate investor, Josh Mettle, exposes the land mines and provides unique solutions to seamlessly overcome the pitfalls nearly all physicians face. YOU WILL LEARN: • How to avoid the landmines that most commonly lead to surprising last minute declines. • How student loans (including IBR and deferment) affect how you qualify for financing. • How to find a true mortgage and real estate specialist in your hometown. • What specifically to look for in a real estate and mortgage advisor. • A step-by-step guide, which virtually guarantees you a flawless home purchase. The challenges you’re likely to face are commonplace within your field, but can be embarrassing, expensive, and painful to learn firsthand. There is no bigger disappointment than finding out your loan was declined by an underwriter at the last minute forcing you to scramble to find temporary housing. Avoid that agony by educating yourself with a few simple precautions contained within these pages. Physician home loans are a “niche” loan practice, which is why you won’t find the information contained in this book anywhere else. When it comes to securing a physician home loan you don’t need a general practitioner, you need a super specialist.

Strengthening Communities with Neighborhood Data G. Thomas Kingsley, Claudia

J. Coulton, Kathryn L. S. Pettit, 2016-11-15 Efforts to address the problems of distressed urban neighborhoods stretch back to the 1800s, but until relatively recently, data played little role in forming policy. It wasn't until the early 1990s that all of the factors necessary for rigorous, multifaceted analysis of neighborhood conditions--automated government records, geospatial information systems, and local organizations that could leverage both--converged. *Strengthening Communities* documents that convergence and details its progress, plotting the ways data are improving local governance in America.

Social Inequality and Social Stratification in U.S. Society Christopher Doob, 2015-08-27
Social Inequality – examining our present while understanding our past. *Social Inequality and Social Stratification in US Society*, 1st edition uses a historical and conceptual framework to explain social stratification and social inequality. The historical scope gives context to each issue discussed and allows the reader to understand how each topic has evolved over the course of American history. The authors use qualitative data to help explain socioeconomic issues and connect related topics. Each chapter examines major concepts, so readers can see how an individual's success in stratified settings often relies heavily on their access to valued resources—types of capital which involve finances, schooling, social networking, and cultural competence. Analyzing the impact of capital types throughout the text helps map out the prospects for individuals, families, and also classes to maintain or alter their position in social-stratification systems. Learning Goals
Upon completing this book, readers will be able to: Analyze the four major American classes, as well as how race and gender are linked to inequalities in the United States
Understand attempts to reduce social inequality Identify major historical events that have influenced current trends Understand how qualitative sources help reveal the inner workings that accompany people's struggles with the socioeconomic order Recognize the impact of social-stratification systems on individuals and families
