**Radical Eroticism** Rachel Middleman, 2018-01-16 In the 1960s, the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom, visual pleasure, and the nude in contemporary art. Radical Eroticism examines the importance of women's contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art—performance, pop, postminimalism, and beyond. This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties, from the crumbling of modernist aesthetics and the expanding field of art practice to the emergence of the feminist art movement. Artists Carolee Schneemann, Martha Edelheit, Marjorie Strider, Hannah Wilke, and Anita Steckel created works that exemplify these innovative approaches to the erotic, exploring female sexual subjectivities and destabilizing assumptions about gender. Rachel Middleman reveals these artists' radical interventions in both aesthetic conventions and social norms.

Sexy Bodies Elizabeth Grosz, Elspeth Probyn, 2013-02-01 Are bodies sexy? How? In what sorts of ways? *Sexy Bodies* investigates the production of sexual bodies and sexual practices, of sexualities which are dyke, bi, transracial, and even hetero. It celebrates lesbian and queer sexualities but also explores what runs underneath and within all sexualities, discovering what is fundamentally weird and strange about all bodies, all carnalities. Looking at a pleasurable variety of cultural forms and texts, the contributors consider the particular charms of girls and horses, from National Velvet to Marnie; discuss figures of the lesbian body from vampires to tribades to tomboys; uncover 'virtual' lesbians in the fiction of Jeanette Winterson; track desire in the music of legendary Blues singers; and investigate the ever-scrutinised and celebrated body of Elizabeth Taylor. The collection includes two important pieces of fiction by Mary Fallon and Nicole Brossard. *Sexy Bodies* makes new connections between and amongst bodies, cruising the borders of the obscene, the pleasurable, the desirable and the hitherto unspoken rethinking sexuality anew as deeply and strangely sexy.

**Journeys to the Other Shore** Roxanne L. Euben, 2008-07-01 The contemporary world is increasingly defined by dizzying flows of people and ideas. But while Western travel is associated with a pioneering spirit of discovery, the dominant image of Muslim mobility is the jihadi who travels not to learn but to destroy. *Journeys to the Other Shore* challenges these stereotypes by charting the common ways in which Muslim and Western travelers negotiate the dislocation of travel to unfamiliar and strange worlds. In Roxanne Euben's groundbreaking excursion across

cultures, geography, history, genre, and genders, travel signifies not only a physical movement across lands and cultures, but also an imaginative journey in which wonder about those who live differently makes it possible to see the world differently. In the book we meet not only Herodotus but also Ibn Battuta, the fourteenth-century Moroccan traveler. Tocqueville's journeys are set against a five-year sojourn in nineteenth-century Paris by the Egyptian writer and translator Rifa'a Rafi' al-Tahtawi, and Montesquieu's novel *Persian Letters* meets with the memoir of an East African princess, Sayyida Salme. This extraordinary book shows that curiosity about the unknown, the quest to understand foreign cultures, critical distance from one's own world, and the desire to remake the foreign into the familiar are not the monopoly of any single civilization or epoch. Euben demonstrates that the fluidity of identities, cultures, and borders associated with our postcolonial, globalized world has a long history--one shaped not only by Western power but also by an Islamic ethos of travel in search of knowledge.

Funk the Erotic L.H. Stallings, 2015-08-07 Funk. It is multisensory and multidimensional philosophy used in conjunction with the erotic, eroticism, and black erotica. It is the affect that shapes film, performance, sound, food, technology, drugs, energy, time, and the seeds of revolutionary ideas for black movements. But funk is also an experience to feel, to hear, to touch and taste, and in *Funk the Erotic*, L. H. Stallings uses funk in all its iterations as an innovation in black studies. Stallings uses funk to highlight the importance of the erotic and eroticism in Black cultural and political movements, debunking the truth of sex and its histories. Brandishing funk as a theoretical tool, Stallings argues that Western theories of the erotic fail as universally applicable terms or philosophies, and thus lack utility in discussions of black bodies, subjects, and culture. In considering the Victorian concept of freak in black funk, Stallings proposes that black artists across all media have fashioned a tradition that embraces the superfreak, sexual guerrilla, sexual magic, mama's porn, black trans narratives, and sex work in a post-human subject position. Their goal: to ensure survival and evolution in a world that exploits black bodies in capitalist endeavors, imperialism, and colonization. Revitalizing and wide-ranging, *Funk the Erotic* offers a needed examination of black sexual cultures, a discursive evolution of black ideas about eroticism, a critique of work society, a reexamination of love, and an articulation of the body in black movements.

**Libido** Alphonso Lingis, 1985 Alphonso Lingis's engaging book studies the phenomenological and postphenomenological theories of sexuality of six contemporary French philosophers: Jean-Paul Sartre, Maurice Merleau-Ponty, Emmanuel Levinas, Jean-François Lyotard, Gilles Deleuze, and Félix Guattari. After centuries of philosophical silence on the matter, these writers, during the last forty years, have undertaken the first extended exploration of human sexuality in Western philosophical literature. Lingis presents the arguments developed by the six philosophers, critically assesses them, and offers his own explanation of how the libidinal body can be characterized, what the libidinal drive is, and what alterity commands in the erotic imperative.

**Between System and Poetics** Dr Thomas AF Kelly, 2013-05-28 This is the first book-length examination of the work of an important contemporary thinker in the continental tradition, William Desmond. His thought is a new, post-modern way of articulating what he calls the 'between'. Rooted in Plato and Augustine, and advancing through a confrontation with Hegel and Nietzsche, Desmond rejects facile scepticism and wins through to a strikingly original and powerfully searching articulation of the human. The present volume contains essays on Desmond's work both by emerging scholars and by well-established thinkers. It also contains a specially written essay on the practices of philosophy by Desmond himself.

*History of dancing ring and Casino-Salsa* Alan Silvano Borges, Alicia J. Sardiñas, 2017-03-23 The experiences we describe in this book are part of our lives; we intend to offer an image of the surging of casino dancing and ring (Rueda) in Cuba. To do so, we have requested the experiences and anecdotes of the dancers who participated from the very prodigious beginning of a dance that is as Cuban as the palms, the sugar cane, the rum and the tobacco... We dedicate this book to ah the founders of casino dance and ring, who definitely are the creators of this dancing style, that later has been called Salsa in other countries. We will make it extensive to ah the professors, promoters, directors of casino rings and to the good dancers that are already hundreds of thousands in Cuba and ah over the world.

**Sport, Dance and Embodied Identities** Noel Dyck, Eduardo P. Archetti, 2020-08-20 Sport and dance command the passions and devotion of countless athletes, dancers and fans worldwide. Although conventionally thought to reside within separate social realms, these two embodied cultural forms are revealed in this benchmark volume to share a vital capacity to constitute and express identities through their practiced movements and scripted forms. Thus, the work of choreographers and coaches along with the performances of dancers and athletes offer not merely entertainment and aesthetic accomplishment but also powerful means for celebrating existing social arrangements and cultural ideals or, alternately, for imagining and advocating new ones. Drawing on a wide selection of sport and dance activities from around the world, this book elucidates the ways in which embodied performances both mirror and reshape social life. It traces, for example, how football, salsa and tango can each be employed to articulate or rewrite national and gender identities. Also examined are children's sport and the dynamics by which immigration and cultural integration, along with the socialization of children and youth, may be directed through the organization of community sport. The volume investigates the marshalling of sport and dance in settings from Africa to Ireland as vehicles for framing moral issues that revolve around the appropriate use, protection and exhibition of the body. This innovative study establishes the paradoxical fashion in which dance and sport can unite certain people and communities while at the same time serving exclusionary and nationalistic purposes.

**The Anthropology of Sex** Hastings Donnan, Fiona Magowan, 2020-05-31 Sex scholarship has a long history in anthropology, from the studies of voyeuristic Victorian gentlemen ethnographers, to more recent analyses of gay sex, transsexualism, and the newly visible forms of contemporary sexuality in the West. The Anthropology of Sex

draws on the comparative field research of anthropologists to examine the relationship between sex as identity, practice and experience. Sexual cultures vary enormously and, while often the topic of tabloid titillation, they are more rarely subjected to strict cultural analysis. The Anthropology of Sex is the first work to critically synthesise over a century of comparative expertise, knowledge and understanding of diverse sexual forms. - Explores sexuality from diversity to perversity and asks how diverse sexual practices are linked. - Probes the cultural and comparative context of contemporary sexual practice and belief. - Examines the shaping of sex by global and globalizing forces. The Anthropology of Sex will be key reading for undergraduate and postgraduate courses in anthropology and related disciplines.

*Lexicon of the Mouth* Brandon LaBelle, 2014-06-19 *Lexicon of the Mouth* surveys the oral cavity as the central channel by which self and surrounding are brought into relation. Questions of embodiment and agency, attachment and loss, incorporation and hunger, locution and the non-sensical are critically examined. In doing so, LaBelle emphasizes the mouth as a vital conduit for negotiating the foundational narrative of proper speech. *Lexicon of the Mouth* aims for a viscous, poetic and resonant discourse of subjectivity, detailed through the micro-oralities of laughing and whispering, stuttering and reciting, eating and kissing, among others. The oral cavity is posed as an impressionable arena, susceptible to all types of material input, contamination and intervention, while also enabling powerful forms of resistance, attachment and conversation, as well as radical imagination. *Lexicon of the Mouth* argues for the revolutionary promise of the laugh, the spirited mythologies of the whisper, the schizophonics of self-talk, and the primal noise of gibberish, suggesting that the significance of voicing is fundamentally bound to the exertions of the mouth. Subsequently, assumptions around voice and vocality are unsettled in favor of an epistemology of the oral, highlighting the acts of the tongue, the lips and the throat as primary mediations between interior and exterior, social structures and embodied expressions. LaBelle makes a significant contribution to currents in sound and voice studies by reminding that to hear the voice, and to consider a politics of speech, is first and foremost to assume the mouth.

*Arte erótica* Daniel Kiecol, 2019-07 This illustrated book presents representations of erotic art from the oldest civilizations up through the mid-twentieth century. Ingres, Fragonard, Japanese and Chinese prints, frescoes and vases from ancient Rome, sixteenth century engravings, daguerreotypes from the late nineteenth century, drawings by Rodin, works by Schiele--suggestive or crude, these representations are among the most beautiful and remarkable in the history of art.
