Free Men in an Age of Servitude Lee H.

Warner, 2014-07-15 Freedom did not solve the problems of the Proctor family. Nor did money, recognition, or powerful supporters. As free blacks in eighteenth- and nineteenth-century America, three generations of Proctor men were permanently handicapped by the social structures of their time and their place. They subscribed to the Western, middle-class value system that taught that hard work, personal rectitude, and maintenance of family life would lead to happiness and prosperity. But for them it did not -- no matter how hard they worked, how clever their plans, or how powerful their white patrons. The eldest, Antonio, born a Spanish slave, became a soldier for three nations and received government recognition for his daring and his skills as a translator. His son, George, an entrepreneur, achieved material success in the building trade but was so hampered by his status as a free black that he eventually lost not only his position in the community but his family.

John, George's son, seized the opportunity proffered by Reconstruction and spent ten years in the Florida state legislature before segregation forced him to return to the life of a tradesman. Warner describes the Proctor men as inarticulate. They left no personal papers and no indication of their attitudes toward their hardships. As a result, this work relies heavily on local government documents and oral history. Inference and intimation become vital tools in the search for the Proctors. In important ways the author has produced a case study of nontraditional methodology, and he suggests new ways of describing and analyzing inarticulate populations. The Proctors were not typical of the black population of their era and their location, yet the story of their lives broadens our knowledge of the black experience in America.

A Door Into Ocean Joan Slonczewski, 2000-10-13 Joan Slonczewski's *A Door into Ocean* is the novel upon which the author's reputation as an important SF writer principally rests. A ground-breaking work both of feminist SF and of world-building hard SF, it concerns the Sharers of Shora, a nation of women on a distant moon in the far future who are pacifists, highly advanced in biological sciences, and who reproduce by parthenogenesis--there are no males--and tells of the conflicts that erupt when a neighboring civilization decides to develop their ocean world, and send in an army. Sources of Japanese Tradition, Abridged Wm. Theodore De Bary, Carol Gluck, Arthur Tiedemann, 2006-10-03 For almost fifty years, Sources of Japanese Tradition has been the single most valuable collection of English-language readings on Japan. Unrivalled in its wide selection of source materials on

history, society, politics, education, philosophy, and religion, the two-volume textbook is a crucial resource for students, scholars, and readers seeking an introduction to Japanese civilization. Originally published in a single hardcover book, Volume 2 is now available as an abridged, two-part paperback. Part 1 covers the Tokugawa period to 1868, including texts that address the spread of neo-Confucianism and Buddhism and the initial encounters of Japan and the West. Part 2 begins with the Meiji period and ends at the new millennium, shedding light on such major movements as the Enlightenment, constitutionalism, nationalism, socialism, and feminism, and the impact of the postwar occupation. Commentary by major scholars and comprehensive bibliographies and indexes are included. Together, these readings map out the development of modern Japanese civilization and illuminate the thought and teachings of its intellectual, political, and religious leaders.

The R.E.A.V.E.S. Experiment Jared D.

Williams,2010-09-16 The year is 2050. Across a well-lighted stage, Tony and Sue are dancing with the hope of winning the hearts of the judges, along with their approval. Sadly, the judges don't see it their way, and as the music stops, Tony and Sue are eliminated. Suspecting foul play, the pair hires a private detective to uncover a web of mysteries that surround their demise, Sam Blade. A middle-aged detective from Seattle who is tired of handling divorce cases, Sam grabs the opportunity of having a real detective work instead. As he probes into the dancers' ordeal, he stumbles upon a myriad of twists, turns, and lust while he puts the pieces of this puzzle together, eventually leading to extortion, kidnapping, and death. He soon comes to a conclusion that the Government is not there for its people. The R.E.A.V.E.S. Experiment follows Sam in his quest for the truth, while an innocent family is unwittingly thrust into danger through the use of modern technology that is well beyond the norm. Featuring a Government that is out of control, this masterpiece by Williams will engross readers with its set of unforgettable characters that play along unpredictable twists and erratic turns.

5 Survivors Tracy Stecker,2011-09-06 First-person accounts by five PTSD survivors bring hope to the millions suffering from but not yet diagnosed with this affliction—and their loved ones. First-person accounts by five PTSD survivors bring hope to the millions suffering from but not yet diagnosed with this affliction--and their loved ones. Each year millions of people are afflicted by Post-Traumatic Stress Disorder (PTSD). Most struggle to simply make it through the day as sights, sounds, and smells bring their life's most harrowing experience front and center, to be relived again and again. And many are

unaware of the root problem of these symptoms or are unwilling to admit one exists. Through moving firsthand accounts 5 Survivors sheds an intimate light on the impact of PTSD on three veterans of war, a survivor of Hurricane Katrina, and a victim of childhood sexual abuse. With courage and honesty, they tell their stories of trauma, revealing the struggles they faced later in life, and how they eventually worked toward positive change and healing. With the guidance of PTSD expert and researcher Tracy Stecker, Ph.D. who outlines the symptoms and progress of each survivor, those living untreated with PTSD may see themselves in these stories, realize they are not alone, and take action to get help. Friends and family of those who have been greatly impacted by trauma will gain a more intimate understanding of a loved one's struggle and pain. About the author Tracy Stecker, Ph.D., is a psychologist at the Dartmouth Psychiatric Research Center. She developed a curriculum titled Using a Brief Intervention to Motivate Clients to Get Help in collaboration with Hazelden. Her focus is on treating veterans of Iraq and Afghanistan returning with PTSD and/or substance abuse issues. Several of these projects have been funded by the National Institute of Mental Health and the National Institute for Alcoholism and Alcohol Abuse.

Art and Life Ute Ben Yosef, 2023-10-14 *Art & Life: The Story of Samuel Bak* traces the development of a child

prodigy deeply shaped by the catastrophic events of the Shoah, from his early artistic influences to his years in the Vilna Ghetto and Landsberg DP Camp, his formal training in Israel and Paris, and his fruitful art career in Rome, New York, Switzerland, and Boston. Augmenting the rich existing literature on Bak, *Art & Life* explores—in thoughtful prose and through reproductions of both iconic and rarely seen work created between 1942 and 2022—how he navigated the prevailing art trends of the mid-twentieth century in search of his own pictorial language. It considers the personal, historical, and artistic currents that led Bak, now aged 90, to create an astonishing body of work that bears witness to cataclysmic events, embodies our common humanity of suffering and hope, and poses questions about the repair of the world.
