The Development of Fishing Ports and the Future Requirements Regarding the Tasks of Fishing Ports in the Baltic Sea Gunnar Lundqvist,2000

OECD Economic Surveys: Estonia 2017 OECD,2017-09-15 The Estonian economy displays numerous strengths, including an excellent business environment, high educational attainment, and solid public finances. However, around a quarter of the population is still at risk of poverty and productivity growth has slowed down.

Estonia David James Smith,2001 In 1998, Estonia became the first of the former Soviet republics to enter membership negotiations with the EU. This book traces the remarkable reforms that have propelled Estonia from the USSR to the threshold of the EU in less than a decade.

Estonia David Smith,2013-12-16 In 1998, Estonia became the first of the former Soviet republics to enter membership negotiations with the European Union. Since then it has been hailed as 'the model pupil' amongst the current applicants. This study traces the remarkable reforms that have propelled Estonia from the USSR to the threshold of the EU in less than a decade.

The work also explores the tensions inherent in the concept of a postcommunist 'return to Europe'. Since 1991, membership of western transnational organizations has been consistently portrayed as the best guarantee of Estonia's independence. Yet the membership criteria imposed by these organizations have frequently conflicted with the nationalist priority of restoring a sovereign Estonian nation-state. At the same time, Estonia's geopolitically-sensitive location poses a dilemma for the West, thereby ensuring that the country will remain the 'litmus test' - not just of Russia's intentions towards Europe, but of the 'New Europe' as a whole.

The Politics of Energy and Memory between the Baltic States and Russia Agnia Grigas, 2016-03-03 Since the 1990s, Baltic-Russian relations have been amongst the most contentious on the European continent. Energy security concerns, historical legacies, and the status of Russian minorities have all proved key flash points. Baltic-Russian relations have been described as a 'litmus test' of Russia's willingness to leave behind its imperialist ambitions; simultaneously the policies of Tallinn, Riga or Vilnius towards Russia can have a direct impact on EU-Russian and NATO-Russian relations. The Baltic states share similar histories and resources, and face the same geopolitical challenges. All are dependent on Russia for energy yet, as this fascinating study reveals, they have pursued very different foreign policies towards their powerful neighbour. In *The Politics of Energy and Memory between the Baltic States and Russia* Agnia Grigas provides an unprecedented analysis of contemporary Baltic-Russian relations and identifies the causal factors that drive the foreign policies of the Baltic states in such divergent routes. Supported by case studies on the oil and gas sectors as well as the tug of history, this book is an invaluable resource for scholars and policy makers.

Doing Business with Estonia Marat Terterov,Jonathan Reuvid,2005 Originally published in the pre-EU-accession period, this E-Book edition of *Doing Business with Estonia* has been updated to take account of the post-accession changes to the legal and fiscal environment. It remains a definitive appraisal of the economic system and investment climate, including an examination of the legal structure and business regulation, information on the financial sector and unique best practice on all aspects of trading with and investing in Estonia. Estonia is regarded as one of Central and Eastern Europe's most successful transitional economies and emerging markets. The guide also provides an overview of key sectors of trade and investment.

Maritime Security and MET Detlef Nielsen,2005 This volume collects the papers presented at the 2005 Annual General Assembly and Conference of the International Association of Maritime Universities (IAMU), which was held in Malmo, Sweden from 24 to 26 October 2005, and hosted by the World Maritime University. Section 1 presents interim and final reports on several research projects funded by IAMU. Section 2 presents a broad range of academic papers on the theme of maritime Security and MET. These range from the challenges faced by MET institutions

worldwide in incorporating the new topic of maritime security into their syllabi, to the economic costs of the new maritime security regime to the shipping industry and to ports. Other topics are also covered, including the technical means of monitoring the movements of ships, and the social implications for seafarers on board ships. Section 3 includes papers on a variety of current MET issues, such as bridge resource management, quality management in MET, careers at sea, and ship handling and marine engineering simulators.

The Estonian Straits Alexander Lott, 2018-04-05 In The Estonian Straits Alexander Lott establishes the interrelations between the main legal categories of straits and provides legal classifications for the Viro Strait, the Irbe Strait and the Sea of Straits in the north-eastern part of the Baltic Sea.

Regional Development in Central and Eastern Europe

Grzegorz Gorzelak, John Bachtler, Maciej Smętkowski, 2018-10-24 This book provides an up-to-date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries. It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and development with, firstly, the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies; and, secondly, with budgetary constraints. The book covers a wide range of issues, including global and national challenges to regional convergence and cohesion; regional dynamics, city networks and border issues; the effectiveness of policy responses at national and European levels, including an assessment of policy experiences from outside the new Member States; and likely future developments.

Shipping and Shipbuilding Subsidies Jesse Edwin Saugstad, 1932

The Baltic Sea Renate Platzöder, Philomène

Verlaan,2023-07-24 Recent developments have produced fundamental and far-reaching changes in the sovereignties bordering the semi-enclosed area of the Baltic Sea. This book presents a comprehensive and balanced codification of issues and views, focusing on new developments in the Baltic Sea Area with specific reference to the UNCLOS 1982 Convention, the particular marine uses of the Baltic Sea, and national views and interests of the bordering states and third parties. It deals with matters such as the Kiel Canal, delimitation, dispute settlement and navigation, shipping, the ecosystem, fisheries, and scientific research. The Baltic Sea is the outcome of a European Workshop on the Law of the Sea co-sponsored by the Law of the Sea Institute (University of Hawaii), the William S. Richardson School of Law (University of Hawaii) and the Stiftung Wissenschaft und Politik (Research Institute for International Affairs) in Ebenhausen (Germany). This workshop is the first in a series designed to illuminate major issues in ocean law and policy which require attention on the national, regional, and global levels. This book provides a useful basis for the consideration and further discussion of those interested in the sea and the environment, helping academics and policy-makers alike not only ascertain but also understand objectives and concerns underlying the states of the region and the reaction of other states and the international community as a whole.
