The Check Model for Event Planning Micah Jacobson, Abbey Levine, 2012-08-01

Event Information Systems Markus Heuchert, 2021-04-15 Events are an essential element of society. Advancing digital technologies and the ongoing globalization has put forward a variety of different business, leisure, or scientific events that need to be managed in order to take place. As a result of the proliferation of digital technology, IT systems are an indispensable part of this management process. Amid this pandemic crisis, these systems have become increasingly important due to the relocation of events into the virtual sphere. Since every event entails different requirements, event management systems need to be very flexible. In contrast to other application systems, this flexibility is needed during use as the requirements of future events are not known during the initial selection and roll-out of the software. This calls for an intensified dialogue between the business and IT to match technical possibilities with practical requirements. Currently, adequate means to support this dialogue are lacking. To this end, this dissertation presents a reference model that encompasses the essential processes and data structures in the domain. In 36 application cases, the reference model is instantiated and evaluated. Practitioners and researchers are the intended audiences of this work. Researchers may use it as a foundation to design novel IT artifacts in the domain. Practitioners benefit from the first comprehensive tool to support the design and use of digital technology in event management.

The Business of Event Planning Judy Allen, 2002-07-09 Practical tools and expert advice for professional event planners Before planning an event, there is much that must be done behind the scenes to make the event successful. Before any thought is even given to timing or location of the event, before the menus are selected and the decor designed, there are proposals to be written, fees and contracts to be negotiated, and safety issues to be considered. This book takes you behind the scenes of event planning and explains every aspect of organizing and strategic planning. This book will be of value to both the professional event planner and to clients who are dealing with planners. Its comprehensive coverage includes: how to prepare winning proposals, and how to understand them if you are the client; how to determine management fees; negotiating contracts; safety issues; designing events in multicultural settings; and new technology that makes operations more efficient (such as online registration and response management, database project management tools). The book also includes practical tools such as sample letters of agreement, sample layouts for client proposals, forms, and checklists. Professional event planner Judy Allen offers first-time or professional event planners all the top-class advice they need to make their special events come off without a hitch.

After The Event Chris Henson, 2023-08-01 I am waiting for Mark. For the last several months he has been missing, Garbo-like, from public life. But in reality he has been writing a new book. We have agreed to go back over the original manuscripts for this edition, to do some editing, add in some extras, delete a few choice words and phrases. We meet in his London home, where he is dressed in a workday uniform of brown shirt, jeans and trainers, hair clipped up in practical busy-busy fashion, all smiles and loud laughter. We first met over five years ago. Then we tentatively shook hands and the laughter was nervous. All that has changed. But some things have not. He still famously hates interviews. Around us there is evidence of a very regular existence. There are books scattered everywhere, a Sony widescreen with a DVD of Shackleton sitting below it. Atop the fireplace hangs a painting called Fishermen by James Southall, a tableau of weather-beaten sea dogs wrestling with a rowing boat; a gift he bought himself on the anniversary of a publication. Balanced against a wall in the office next door is a replica of the Rosebud

sledge burned at the dramatic conclusion of Citizen Kane. As I unpack my scripts, I begin with a question. You once said, 'There is a figure that is adored, but I'd question very strongly that it's me.' There is silence. A stare. You did say it. 'Well supposedly I said that. But in what context did I say it?' Just talking about people building up this image of you. It was one of the first things you ever said to me. 'Yes, but I'm not, am I?' There was also that interview that described you as someone fragile being who's hidden himself away. 'That was fairly amusing. A lot of the time it doesn't bother me. I suppose I do think I go out of my way to be a very normal person and I just find it frustrating that people think that I'm some kind of weirdo reclusive that never comes out into the world.' His voice notches up in volume. Did you ever feel you would finish your first book? 'Oh yeah,' he sighs. 'I mean, there were so many times I thought, I'll have the book finished this year, definitely, I'll get it out this year. Then there were a couple of years where I thought, I'm never gonna do this. I don't know why. Time evaporates.' He walks over and picks up the manuscripts. He reads a bit. He laughs. 'Did I really agree to this?' he asks. Mark knows the answer. 'A couple of people who read the first book Tour De Europa,' he says, 'they either really liked it or they found it very uncomfortable. I liked the idea of it being uncomfortable. I thought that was great. I love the ambiguity. But I also loved looking back on lost conversations and instantly remembering an emotion.' A clock somewhere strikes two and a friend arrives with tea, pizza, avocado with balsamic vinegar and cream cake for afters, only to be playfully admonished by Mark, who protests, 'I can't eat all this shit!' It would appear some things never change.
