Be the Bridge Latasha Morrison, 2019-10-15 NEW YORK TIMES BESTSELLER • ECPA BESTSELLER • “When it comes to the intersection of race, privilege, justice, and the church, Tasha is without question my best teacher. *Be the Bridge* is THE tool I wish to put in every set of hands.”—Jen Hatmaker WINNER OF THE CHRISTIAN BOOK AWARD® • Winner of the Christianity Today Book Award • A leading advocate for racial reconciliation calls Christians to move toward deeper understanding in the midst of a divisive culture. In an era where we seem to be increasingly divided along racial lines, many are hesitant to step into the gap, fearful of saying or doing the wrong thing. At times the silence, particularly within the church, seems deafening. But change begins with an honest conversation among a group of Christians willing to give a voice to unspoken hurts, hidden fears, and mounting tensions. These ongoing dialogues have formed the foundation of a global movement called *Be the Bridge*—a nonprofit organization whose goal is to equip the church to have a distinctive and transformative response to racism and racial division. In this perspective-shifting book, founder Latasha Morrison shows how you can participate in this incredible work and replicate it in your own community. With conviction and grace, she examines the historical complexities of racism. She expertly applies biblical principles, such as lamentation, confession, and forgiveness, to lay the framework for restoration. Along with prayers, discussion questions, and other resources to enhance group engagement, *Be the Bridge* presents a compelling vision of what it means for every follower of Jesus to become a bridge builder—committed to pursuing justice and racial unity in light of the gospel.

Design Considerations for Airport EOCs Heidi Ann Benaman, 2018 This guidebook will help airports with Emergency Operations Center (EOC) planning and design considerations, such as (1) establishing an EOC in an existing facility; (2) upgrading a current EOC facility; (3) designing and building a new facility within the terminal (or other existing campus building); and (4) designing and building a greenfield project, which means the airport is not bound by any constraints with existing buildings or infrastructure such as the terminal or other existing campus structures. -- Page 1.

Evidence-Based Practice for Public Health Emergency Preparedness and Response National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Evidence-Based Practices for Public Health Emergency Preparedness and Response, 2020-11-28 When communities face complex public health emergencies, state local, tribal, and territorial public health agencies must make difficult decisions regarding how to effectively respond. The public health emergency preparedness and response (PHEPR) system, with its multifaceted mission to prevent, protect against, quickly respond to, and recover from public health emergencies, is inherently complex and encompasses policies, organizations, and programs. Since the events of September 11, 2001, the United States has invested billions of dollars and immeasurable amounts of human capital to develop and enhance public health emergency preparedness and infrastructure to respond to a wide range of public health threats, including infectious diseases, natural disasters, and chemical, biological, radiological, and nuclear events. Despite the investments in research and the growing body of empirical literature on a range of preparedness and response capabilities and functions, there has been no national-level, comprehensive review and grading of evidence for public health emergency preparedness and response practices comparable to those utilized in medicine and other public health fields. Evidence-Based Practice for Public Health Emergency Preparedness and Response reviews the state of the evidence on PHEPR practices and the improvements necessary to move the field forward and to strengthen the PHEPR system. This publication evaluates PHEPR evidence to understand the balance of benefits and harms of PHEPR practices, with a focus on four main areas of PHEPR: engagement with and training of community-based partners to improve the outcomes of at-risk populations after public health emergencies; activation of a public health emergency operations center; communication of public health alerts and guidance to technical audiences during a public health emergency; and implementation of quarantine to reduce the spread of contagious illness.

No Hard Feelings Genevieve Novak, 2022-04-01 Hungover, underpaid and overwhelmed, this isn't where Penny expected to be as

she reached her late twenties. A sharp, smart and witty look at adulting - Fleabag meets Sorrow and Bliss with a splash of Dolly Alderton. 'No Hard Feelings is clever, funny and surprisingly sweet, and Penny captured my heart' Toni Jordan I exist on validation from emotionally unavailable men, biscuits, and cheap wine, and it's easier to get off with Max than a Tiny Teddy. Penny can't help but compare herself to her friends. Annie is about to become a senior associate at her law firm, Bec has just got engaged, Leo is dating everyone this side of the Yarra, and Penny is just ... waiting. Waiting for Max, her on-again, off-again boyfriend, to allow her to spend the night, waiting for the promotion she was promised, waiting for her Valium to kick in. Waiting for her real life to start. Out of excuses and sick of falling behind, Penny is determined to turn things around. She's going to make it work with Max, impress her tyrannical boss, quit seeing her useless therapist, remember to water her plants, and stop having panic attacks in the work toilets. But soon she's back to doomscrolling on Instagram, necking bottles of Aldi's finest sauvignon blanc, and criticising herself with renewed vigour and loathing. As her goals seem further away than ever, she has to wonder: when bad habits feel so good, how do you trust what's right for you? Praise for No Hard Feelings: 'Genevieve Novak will inevitably be compared to other authors, but the truth is, she is herself and herself alone - and that's a good thing. Funny, biting, vulnerable and unflinching, Novak's novel is like an ocean dip: a bit salty, very refreshing.' Lauren Sams 'Scaldingly funny and bitingly real, No Hard Feelings deserves a warning label: danger, may induce binge reading. With her sly wit, Genevieve Novak's debut demonstrates a brilliant eye for observing the little things in life, which together can be the biggest things of all.' Tori Haschka, author of Grace Under Pressure 'No Hard Feelings is a gratifying, warm and funny debut' Books+Publishing 'Novak has perfectly captured the self-doubt and total horror of having to be happy and functional in your twenties. It would have you crying into your chipped manicure if it wasn't so darn funny.' Kimberley Allsopp, author of Love and Other Puzzles

How to Speak Machine John Maeda, 2019-11-12 Visionary designer and technologist John Maeda defines the fundamental laws of how computers think, and why you should care even if you aren't a programmer. Maeda is to design what Warren Buffett is to finance. --Wired John Maeda is one of the world's preeminent interdisciplinary thinkers on technology and design. In *How to Speak Machine*, he offers a set of simple laws that govern not only the computers of today, but the unimaginable machines of the future. Technology is already more powerful than we can comprehend, and getting more powerful at an exponential pace. Once set in motion, algorithms never tire. And when a program's size, speed, and tirelessness combine with its ability to learn and transform itself, the outcome can be unpredictable and dangerous. Take the seemingly instant transformation of Microsoft's chatbot Tay into a hate-spewing racist, or how crime-predicting algorithms reinforce racial bias. *How to Speak Machine* provides a coherent framework for today's product designers, business leaders, and policymakers to grasp this brave new world. Drawing on his wide-ranging experience from engineering to computer science to design, Maeda shows how businesses and individuals can identify opportunities afforded by

technology to make world-changing and inclusive products--while avoiding the pitfalls inherent to the medium.

White Awake Daniel Hill,2017-09-19 Daniel Hill will never forget the day he heard these words: Daniel, you may be white, but don't let that lull you into thinking you have no culture. White culture is very real. In fact, when white culture comes in contact with other cultures, it almost always wins. So it would be a really good idea for you to learn about your culture. Confused and unsettled by this encounter, Hill began a journey of understanding his own white identity. Today he is an active participant in addressing and confronting racial and systemic injustices. And in this compelling and timely book, he shows you the seven stages to expect on your own path to cultural awakening. It's crucial to understand both personal and social realities in the areas of race, culture, and identity. This book will give you a new perspective on being white and also empower you to be an agent of reconciliation in our increasingly diverse and divided world.
