Base Camp Dianne Whelan,2014 Each spring, over eight hundred climbers attempt to reach the summit of Mt. Everest. The conditions are challenging, and without warning can become life-threatening. Some make it to the top of what is considered the world's most majestic mountain, but others are not so lucky, and in the attempt to reach the elusive summit, many more have tragically lost their lives. Not all are recovered, their bodies left to the mountain. In the spring of 2010, the author immersed herself in the challenging and captivating world of base camp on Mt. Everest. Whelan shares gripping stories of Maoist rebels, avalanches and dead bodies surfacing out of a dying glacier. Whelan interviews climbers, doctors and Sherpas all living for months on end in the belly of the mountain as they wait for a weather window. Woven into the stories is the devastating truth of the human impact on the mountain and the eerie and unforeseen effects of climate change. Experts believe there are over 250 bodies buried on the path from base camp to the peak of Mt. Everest. With the glacier melting and moving at over four inches a day, the toll of the human desire to conquer the mountain is slowly and irreversibly surfacing at base camp. Dianne Whelan is a Canadian filmmaker, photographer, author and multimedia artist. In April 2010, Whelan traveled to Mount Everest Base Camp to direct and shoot her documentary film 40 Days At Base Camp.--Provided by publisher.

The Envelope Andrew Stevenson,2014-12-11 Twelve years after his classic travel narrative Annapurna Circuit Andrew Stevenson returns alone once again to the Himalayas on a deeply personal quest, a journey both corporal and spiritual. Narrowly escaping paralysis after shattering his spine in a motorbike accident weeks after his younger brother's untimely death, Stevenson's hike up to Everest Base Camp is as much introspective passage of healing as intriguing depiction of his fellow backpackers and the Sherpa people. Lying in a hospital bed in a morphine-induced state of hallucination after his accident, Stevenson promises himself to go back to the Himalayas, to heal. Five months after his mishap, and against all the odds, this recuperative solitary climb into high mountain valleys provides a spectacular backdrop to an emotional acknowledgment and acceptance of a lost sibling. Interlaced with the hardships of pushing to the edge of personal physical endurance and beyond, The Envelope: Walking up to Everest Base Camp is a richly rewarding read on every level.

For the purposes of this guidebook, the Seven Summits are based on the continental model used in Western Europe, the United States, and Australia, also referred to as the 'Bass list.'

Doofus Dad Does Everest Base Camp Mark E Johnson,2018-11-13 Mark Johnson has a magical way of picking you up from your comfy reading chair and dropping you off in the heart of the cold and at times unforgiving Himalayas. I read the whole book in just a few quick sittings and constantly found myself laughing, biting my nails, and undeniably identifying with every ridiculous thing Mark found himself doing on his journey. If you enjoy grand adventures and a fair share of dad humor, add Mark's EBC chronicle to your bookshelf now. Tim Moore, The Penny Hoarder Imagine yourself trekking through the epic Himalayan wilderness to Everest Base Camp - 17,600 feet above sea level and the gateway to the planet's most iconic mountain. Experience the world's most startling, high-altitude landscapes, interact with the welcoming Sherpa people, and struggle to catch your breath as you narrowly avoid being trampled by an oncoming train of enormous, shaggy yaks loaded with climbing expedition supplies. Now, imagine living this adventure without leaving your favorite reading chair. Doofus Dad Does Everest Base Camp brings that scenario to life. In April 2018, Tennessee writer Mark E. Johnson embarked on a life-changing, grueling, and often-hilarious adventure - a 12-day, 80-mile trek to Mount Everest Base Camp in Nepal's Himalaya Mountains - after launching an improbable trekking company a year earlier. This was Johnson's first excursion out of the continental U.S., and this journey into the exotic country of Nepal was indeed a trial by fire (and ice). Hike alongside Doofus Dad on each part of this bucket list quest, from the starting point of Nashville, Tennessee, through a mind-numbing 23 hours of air travel, into the suicidal traffic of Kathmandu, and on every day of the trek with equal parts lush detail and sly humor. Experience Kathmandu's Hindu and Buddhist temples, visit the infamous Yeti's Scalp of the Khumjung Monastery and join in on a hysterical salsa dance lesson at 14,000-feet. Doofus Dad Does Everest Base Camp is a gripping adventure story that also serves as a practical resource for future trekkers. It includes: A standard EBC trekking map An EBC itinerary Daily trekking statistics including elevation changes and hiking times The gear lists of Mark and his wife, Holly A Nepal trekking training guide The foreword is provided by mountaineering legend and Everest blogger Alan Arnette, called one of America's most respected chroniclers of Everest, by Outside Magazine. This book is a must-have for the bookshelf of yesterday's, today's and tomorrow's traveler, says Arnette. The audiobook is read by Johnson and even includes sound effects from the trek itself. Johnson is a longtime freelancer and blog writer, best known for his Dave Barry-esque stories about parenting, rural living, and health and fitness.

In the Shadow of the Mountain Silvia Vasquez-Lavado,2022-02-01 “In climbing the Seven Summits, Silvia Vasquez-Lavado did nothing less than take back her own life—one brave step at a time. She will inspire untold numbers of souls with this story, for her victory is a win on behalf of all of us.”—Elizabeth Gilbert Endless ice. Thin air. The threat of dropping into nothingness thousands of feet below. This is the climb Silvia Vasquez-Lavado braves in her page-turning, pulse-raising memoir chronicling her journey to Mount Everest. A Latina hero in the elite macho tech world of Silicon Valley, privately, she was hanging by a thread. Deep in the throes of alcoholism, hiding her sexuality from her family, and repressing the abuse she'd suffered as a child, she started climbing. Something about the brute force required for the ascent—the risk and spirit and sheer size of the mountains and death's close proximity—woke her up. She then took her biggest pain as a survivor to the biggest mountain: Everest. “The Mother of the World,” as it's known in Nepal, allows few to reach her summit, but Silvia didn't go alone. She gathered a group of young female survivors and led them to base camp alongside her. It was never easy. At times hair-raising, nerve-racking, and always challenging, Silvia remembers the acute anxiety of leading a group of novice climbers to Everest's base, all the while coping with her own nerves of summiting. But, there were also moments of peace, joy, and healing with the strength of her fellow survivors and community propelling her forward. In the Shadow of the Mountain is a remarkable story of heroism, one which awakens in all of us a lust for adventure, an appetite for risk, and faith

in our own resilience.

Everest Base Camp for Normal People Robyn Webb,2016-07-20 What is it with Everest Base Camp? Why do so many people, every year, train for months and then trek to the base of the world's highest mountain? What is it like anyway? Is it only for mountaineers and tour groups? Everest Base Camp is just breathtaking. Both the view, the achievement and the journey there. The terrain, which I envisaged to be mostly snow, transforms with the journey. it is something I will never forget, for many reasons, and the stillness I found on the earthen path , is still there in my core. This is the journal of my trek. All of the author's proceeds from the sale of this book are donated to the Trek Climb Ski Nepal Community Fund.
