*Latin American Relations with the Middle East* Marta Tawil Kuri,Élodie Brun,2022-03-29 Latin American Relations with the Middle East surveys the dealings of ten Latin American and Caribbean states – Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, Peru, Mexico, Uruguay, and Venezuela – with the Middle East. This volume examines these states' external behavior at both an empirical and conceptual level. Empirically, authors seek to examine Latin American and Caribbean foreign policies towards the Middle East in four dimensions: diplomatic attention; trade and investment (including the energy issue); development cooperation; security matters/intelligence, and relationship with multilateralism (Iran, Palestine, and Syria). Case studies are selectively deployed to observe the influence of unfavorable circumstances that have increased since 2015, such as domestic turmoil, wars, economic crisis, ideological bias, and international constraints. Conceptually, the book enhances the theoretical framework for understanding Southern countries' foreign policies, through fomenting dialogue with Latin American and Caribbean regional literature on foreign policy. Authors inquire about how decision-making processes occur, and uncover how influential actors help to test the main hypotheses of Foreign Policy Analysis (FPA). Forging essential new paths of inquiry, this book is a must read for researchers of International Relations, Foreign Policy, South-South Relations, Latin American Politics, and Middle Eastern Politics.

*Social dialogue and the role of the brazilian labour inspection in dealing with the new Coronavirus pandemic* Diego Pinto de Barros Leal,2023-06-27 Social dialogue and labour inspection are essential to promote and achieve decent work and are also important in times of crisis. After a brief historical review of social dialogue in Brazil in recent years, the experience of the Brazilian labour inspection in dealing with the crisis caused by the new coronavirus pandemic is described and later compared with the practices adopted by labour inspectorates in other countries. Data collection includes interviews with two social partners and an international survey with the participation of representatives from twelve countries. In the end, guidelines are proposed on how the performance of labour inspection and the use of social dialogue should be in the face of a crisis with negative economic effects in order to overcome it quickly and without major problems, generating beneficial and lasting results in the world of work and helping to recover the economy.
