**Reliable Used Luxury Cars Under \$10,000** Doris Chan, 2016-09-21 Buy a world-class luxury car for under \$10,000. Most people have a love-hate relationship with luxury cars. They love the idea of driving a luxury car. They envy luxury car owners. But they're scared to own a luxury car themselves. You're not most people. You know that used luxury cars are the greatest deal going. For around \$5,000, you can drive a top-of-the-line flagship luxury car that is still classier, faster, and more comfortable than new cars sold today. The only downside may be that your friends think you have too much money to spend, because no one will be able to guess you only paid \$5,000 for a car that cost \$70,000 new Don't settle. Used luxury cars aren't scary, if you know which ones to buy and which ones to avoid, and how to choose them, buy them, and maintain them. The only thing better than cruising around in the comfort of a \$70,000+ car is knowing that you paid under \$10,000 for it. This book is an in-depth guide to: Why used luxury cars are underpriced (the Uncle Howard effect) Why you shouldn't buy a used luxury car from the corner car lot Why you shouldn't spank yourself for wanting a luxury car Which used

luxury cars are the best deals and which ones you must avoid just as assiduously as you'd avoid making eye contact with a clown What years, configurations, and options to choose on each car What specific pitfalls to avoid with each recommended car How to get parts and labor for a reasonable price, without compromising your sexual morals How to love life because you're driving an amazing luxury car and you paid only \$5,000 for itDoris bought her first used luxury car when she was still in high school, and has been obsessing over buying and selling used luxury cars since then. She loves cars, she loves bargains, and she loves helping people save money on car ownership. This book combines all three of her interests. Doris Chan is a lifelong car enthusiast who grew up in Los Angeles and has spent the last decade working in corporate finance for a major automaker. She holds a degree in economics from a major Ivy League university. In her spare time, she dreams about her next used luxury car purchase, listens to Willie Nelson, and tells dirty jokes.

### **Happy To Be Different: Personal and Money Success through Better Thinking Dan**

Danford, 2020-08-28 The articles I wrote for ordinary people became my obsession. Why? It is because the mass of information created for ordinary people isn't very helpful. It's boring. It's hard to understand. It's dictatorial. It's irrelevant. Did I mention that it's boring? So, I created a different style of writing about money to answer these problems. I tried to explain things in a way that makes sense to normal folks. I dispensed with the bossy junk, the worn-out examples, and the rules of thumb routinely ignored by millions. Instead, I tried to make the lessons real and explain things in a way that normal people can understand. I also argue against the austere budget dictated by finance professionals everywhere. Have some fun, I say. Go ahead and drink that latte. Order those season tickets. Let

eBay or Amazon help you succeed. Buy the house you want and don't fret much about payments. Dan Danford, CFP, has been a financial advisor since 1984. He started Family Investment Center in 1998 and his columns and articles have appeared in hundreds of magazines, journals, and newspapers. Most of all, his continuing work with actual clients sets him apart from most personal finance writers. He is a gifted communicator about financial topics and his stories and examples teach valuable lessons on how to succeed financially. Money won't buy happiness, he explains, but it can eliminate or reduce some of the stress that makes people unhappy.

**Shoo, Jimmy Choo!** Catey Hill, 2010-05-01 Remember when Sex and the City's Carrie Bradshaw faced the brutal realization that she couldn't buy her apartment because she'd already spent her money on a closet full of Manolos? Well, if Carrie had met Catey first, she'd own her co-op and be on her way to a comfortable retirement! Catey Hill is the online money expert for the Daily News Web site—and author of this humorous, practical “girlfriends guide” to personal finance for 20- and 30-something females. (The ones with the designer shoes...and maxed-out credit cards.) With a hip, “I’ve been there” voice along with worksheets and exercises, she helps women evaluate why they spend, get out of debt, and create a savings and retirement plan that even allows for the occasional splurge. Among the topics she covers: student loans, car payments, investing, saving for a home, and more.

**A Fine Mess** T. R. Reid, 2017-04-04 New York Times bestselling author T. R. Reid travels around the world to solve the urgent problem of America's failing tax code, unravelling a complex topic in plain English - and telling a rollicking story along the way. The U.S. tax code is a total write-off. Crammed with loopholes and special interest provisions, it works for no one except tax

lawyers, accountants, and huge corporations. Not for the first time, we have reached a breaking point. That happened in 1922, and again in 1954, and again in 1986. In other words, every thirty-two years. Which means that the next complete overhaul is due in 2018. But what should be in this new tax code? Can we make the U.S. tax system simpler, fairer, and more efficient? Yes, yes, and yes. Can we cut tax rates and still bring in more revenue? Yes. Other rich countries, from Estonia to New Zealand to the UK—advanced, high-tech, free-market democracies—have all devised tax regimes that are equitable, effective, and easy on the taxpayer. But the United States has languished. So byzantine are the current statutes that, by our government's own estimates, Americans spend six billion hours and \$10 billion every year preparing and filing their taxes. In the Netherlands that task takes a mere fifteen minutes! Successful American companies like Apple, Caterpillar, and Google effectively pay no tax at all in some instances because of loopholes that allow them to move profits offshore. Indeed, the dysfunctional tax system has become a major cause of economic inequality. In *A Fine Mess*, T. R. Reid crisscrosses the globe in search of the exact solutions to these urgent problems. With an uncanny knack for making a complex subject not just accessible but gripping, he investigates what makes good taxation (no, that's not an oxymoron) and brings that knowledge home where it is needed most. Never talking down or reflexively siding with either wing of politics, T. R. Reid presses the case for sensible root-and-branch reforms with

a companionable ebullience. This affects everyone. Doing our taxes will never be America's favorite pastime, but it can and should be so much easier and fairer.
