Cornell Notes Notebook Just Notebooks,2019-10-05 The Cornell note taking system will help you if you are a student in a high school, language school, or university, or if you attend meetings, conferences, or like studying on your own! This method organizes ideas spatially, so it's great for visual learners. The idea is to give yourself space for copying down information, for identifying key points, and for summing up the main ideas of the lesson. (The left side of the page that forms the margin is where key points from the content are written. The mainpart of the page is where the margin's information will be expanded on and finally, there is the summary section at the bottom of the page). Cornell Notes Notebook: 120 pages Size 8.5'' x 11'' (21.59 x 27.94 cm) Non-spiral bound (book will not open flat) Non-perforated Soft, glossy cover The Cornell note taking system makes a student more effective in note taking, helps them absorb information faster, and then makes it easier to revisit content when it comes time to revise for exams.
