Extreme Hunting Daniel West, 2015-08-10 Desperate to distract the public from their ever diminishing lifestyle, the government steals a page out of the Roman's playbook. They bring back the gladiatorial arena to give the unwashed masses a chance to revel in the blood and gore of true reality TV. Contestants, armed with only a hunting knife, go up against some of the deadliest predators in the world. The rules are simple, two go into the arena, but only one can come out alive, and the odds are stacked against the hunter.

Galaxy Outlaws Mission Pack 1 J.S. Morin, 2015-10-01 Science to build a starship. Wizardry to take it past light speed. A crew to give it a soul. The Mobius is a cobbled-together ship with a matching crew. Captain Carl Ramsey is an ex-Earth Navy pilot whose crew won't let him fly his own ship. The pilot is his ex-wife, the mechanic is a drunk, and the chief of security is from a predatory species. Instead of a star-drive to travel through the astral space between worlds, the ship's wizard does it by hand. Mission 1: Salvage Trouble A salvage mission turns into a rescue, and no good deed goes unpunished. With two refugees onboard, the Mobius crew is hounded by bounty hunters, border partols, and corporate enforcers. Mission 2: A Smuggler's Conscience "Don't open the package." It's the smuggler's credo for good reason. When the Mobius crew takes a peek at their illicit cargo, the entire job takes an about-face. Mission 3: Poets and Piracy The Mobius crew gets caught in a turf war between a pirate fleet and a galactic criminal syndicate. The trick is getting everyone out alive (and maybe getting paid in the process). Mission 4: To Err is Azrin Sometimes you can't go home again. When a job takes the crew to their security chief's homeworld, she gets dragged into a familial power struggle. Can the rest of the crew bail her out of an old feud gone horribly wrong? Bonus Short Story: Guardian of the Plundered Tomes Mordecai The Brown has been on the run from the Convocation for decades. How does a respectable wizard with a wife and two kids end up crisscrossing the galaxy in the company of outlaws? Black Ocean is a science fantasy series set in the 26th century. Do you wish there had been a second season of Firefly? Do you love the irreverent fun of Guardians of the Galaxy? Have you ever wondered how Star Wars would have turned out if Luke and Obi-wan had ditched the rebellion to become smugglers with Han and Chewie? Then Black Ocean is the series for you! Pick up your copy and aim to misbehave with the crew of the Mobius!

Called By The Wild Conraad De Rosner, Graham Spence, Elaine Bell, 2023-03-13 The thrilling story of a pioneering conservationist working with dogs to protect wildlife from poachers. Conraad de Rosner is one of the first game rangers to focus on working with specially trained dogs to protect wildlife from poachers – both 'bushmeat' poachers, who use cruel snares to trap animals, and criminal syndicates killing for rhinoceros horn and capturing critically endangered pangolins, the most trafficked animal in the world. Con's life – constantly at risk from poachers, wildlife and even his own fellow rangers – has been saved on numerous occasions by his devoted canine companions. His first dog, Zingela, a Weimaraner, saved Con from near certain death at the hands of two fellow rangers; on another occasion, Zingela alerted Con to a concealed wounded buffalo, one of Africa's most dangerous animals, about to charge. When Zingela was tragically killed, hit by a car while Con was away, the only meagre consolation was that Con had kept Landa, one of the nine puppies sired by Zingela. Landa followed in his father's footsteps as the leader of the canine anti-poaching team that is still operating today. Con's story is an epic of modern-day African wildlife conservation, filled with courage, adventure and romance.

Crowds and Power Elias Canetti,2021-11-30 Crowds and Power is a revolutionary work in which Elias Canetti finds a new way of looking at human history and psychology. Breathtaking in its range and erudition, it explores Shiite festivals and the English Civil war, the finger exercises of monkeys and the effects of inflation in Weimar Germany. In this study of the interplay of crowds, Canetti offers one of the most profound and startling portraits of the human condition.

Hunters and Bureaucrats Paul Nadasdy,2011-11-01 Based on three years of ethnographic research in the Yukon, this book examines contemporary efforts to restructure the relationship between aboriginal peoples and the state in Canada. Although it is widely held that land claims and co-management - two of the most visible and celebrated elements of this restructuring - will help reverse centuries of inequity, this book challenges this conventional wisdom, arguing that land claims and co-management may be less empowering for First Nation peoples than is often supposed. The book examines the complex relationship between the people of Kluane First Nation, the land and animals, and the state. It shows that Kluane human-animal relations are at least partially incompatible with Euro-Canadian notions of "property" and "knowledge." Yet, these concepts form the conceptual basis for land claims and co-management, respectively. As a result, these processes necessarily end up taking for granted - and so helping to reproduce - existing power relations. First Nation peoples' participation in land claim negotiations and co-management have forced them - at least in some contexts - to adopt Euro-Canadian perspectives toward the land and animals. They have been forced to develop bureaucratic infrastructures for interfacing with the state, and they have had to become bureaucrats themselves, learning to speak and act in uncharacteristic ways. Thus, land claims and co-management have helped undermine the very way of life they are supposed to be protecting. This book speaks to critical issues in contemporary anthropology, First Nation law, and resource management. It moves beyond conventional models of colonialism, in which the state is treated as a monolithic entity, and instead explores how "state power" is reproduced through everyday bureaucratic practices - including struggles over the production and use of knowledge.
