Eye Color Morgan Worthy, 1999 Morgan Worthy, a research psychologist, presents a comprehensive picture of how eye color is related to the behavior of humans and animals. In humans, he used archival records of athletic performance to show the theoretical pattern which has light-eyed athletes performing at their best on self-paced tasks and dark-eyed athletes, on average, performing at their best on reactive tasks. This same general pattern is shown to hold true in animal behaviors such as hunting tactics of predators and escape tactics of prey. Whereas dark-eyed predators tend to rely on immediate, quick, reactions to catch prey, light-eyed predators tend to rely more on their ability to lie-in-wait or stalk prey. Various other behaviors such as perception and social interaction are discussed in the same theoretical framework.

Photoshop Elements 4 One-on-one Deke McClelland, Galen Fott, 2005 Photoshop Elements 4 One-on-One marks a landmark in computer publishing. In addition to offering 12 lessons of project-based tutorials with all sample files included, each lesson starts with a video introduction, hosted by the author himself, Deke McClelland. And these are no ordinary videos. Produced by Adobe's official video training partner, Total Training, each video measures 960 by 540 pixels and plays at 30 frames per second, with no interlacing. That's a play rate of 15.5 million pixels per second, making this the first computer publication to include high-definition video, playable on any modern PC with a DVD-ROM drive. The picture is so crystal clear, it's like watching the world-reknowned expert work right along with you. In addition to the video -- all new recordings created exclusively for this title -- the book has been completely revamped for Photoshop Elements 4. Inside the full-color pages are new exercises devoted to color-correcting skin tones, auto-tagging images with faces, isolating foreground subjects, extracting people and objects from their backgrounds, creating custom slide shows, correcting red-eye, and sharing images online. Every bit as wildly ambitious and brass-tacks practical as the best-selling image editor itself, Photoshop Elements 4 One-on-One will have you gasping with amazement at your own creations. Deke puts the magic of digital imaging squarely where it belongs -- in your hands.

Leading Anti-Bias Early Childhood Programs Louise Derman-Sparks, Debbie LeeKeenan, John Nimmo, 2015 With a focus on the leader's role in initiating and sustaining anti-bias education in programs for young children and their families, this book is both a stand-alone text and a perfect companion for Anti-Bias Education for Young Children and Ourselves. It emphasizes that this work is not only about changing curriculum, but requires thoughtful, strategic, long-term planning that addresses all components of an early childhood program. With a powerful combination of conceptual frameworks, strategies, and practical tools, Louise Derman-Sparks, renowned expert on anti-bias education, together with experienced early childhood directors Debbie LeeKeenan and John Nimmo explain the structural and individual changes leaders must foster. Featuring the authors' extensive experience in the field, supplemented with insights from other anti-bias educators, they build on and expand current thinking about best early childhood leadership practices. This is an essential resource for anti-bias education leaders engaged in change in the wide range of early childhood care and education settings. Book Features: The principles, guidelines, and strategies needed for school- and program-wide transformation. Activities for working with teachers and families to integrate an anti-bias approach. Strategies for supporting and strengthening the leader's ability to initiate and sustain anti-bias education change, including resources to increase staff skills for implementing anti-bias education with children. Tools for assessing anti-bias education progress and managing mandated standards and assessments. "A concise and powerful

message for anti-bias leaders in early childhood education everywhere. A truly inspired gift of lessons from the movement, for the movement.” —Carol Brunson Day, President of the Board, National Association for the Education of Young Children “If you are an educator wanting to see more equity and inclusiveness in the world, at times discouraged confused, or overwhelmed with how to manage the conflict that always emerges in the change process, you’ll find reassurance, resources, and strategic thinking to engage in this anti-bias work.” —Margie Carter, author, *The Visionary Director*, and international early childhood consultant It is never too early to prepare children to deal effectively with issues of race, class, gender, family, and ability and equity. This book is a tool box for building early childhood programs that foster sentiments of justice and fairness in leaders, teachers, and young children, and help them to act on these values.” —Herbert Kohl, educator and bestselling author of *The Herb Kohl Reader: Awakening the Heart of Teaching*

Real Retouching Carrie Beene, 2012-11-12 From the perfect glossy pages of a magazine to the larger-than-life images floating on a billboard in the sky, image retouching has become a key component of today's digital photography world. So popular, in fact, that the sheer act of retouching has become its own verb as we often ask ourselves, I wonder if this image was Photoshopped? Sometimes controversial but widely accepted, and even expected, excellent retouching skills are crucial to finding success in the field of digital imaging. As you work through the clear step-by-step instructions in the book using the images provided on the bonus CD, you'll learn how to do real retouching jobs from start to finish, including each and every technical step along the way. You'll also get behind the scenes advice for talking to clients and establishing a workflow to ensure that your client gets the results they are looking for. If you're a student or aspiring professional just starting out in the world of retouching, the information found in this book can help you find work in the advertising/retouching industry. If you're already a working photographer, you'll be able to add retouching to your repertoire as an additional offering to your clients. Carrie Beene is a professional retoucher and educator who has worked with some of the world's most prestigious companies, including Revlon, MAC, and L'Oreal, and has contributed imagery to such renowned publications as the New York Times, Sports Illustrated, and Vanity Fair. In this excellent new book, she'll share the techniques she has learned and developed over the years to help you navigate the often mysterious world of image retouching.

Counterterrorism [2 volumes] Frank Shanty, 2012-08-17 This two-volume set examines modern nation-state legislative, diplomatic, military, and non-military attempts to combat terrorism within and outside state borders. The articles which comprise this comprehensive reference work address counterterrorism efforts employed by the international community prior to and following the events of September 11, 2001. Global terrorism in the 21st century threatens the foundations of secular democracies and directly challenges global security thereby raising new and critical issues that transcend national borders. This two-volume reference carefully examines threats such as Weapons of Mass Destruction (WMD) terrorism, agro-environmental terrorism, and energy-related terrorism, and discusses technologies and strategies—such as the use of biometrics, data mining, information systems, psychological profiling, and terrorists rehabilitation efforts—to mitigate these threats. Counterterrorism: From the Cold War to the War on Terror provides an easy-to-read discussion of some of the principal issues involved in combating contemporary terrorism. Information is presented in non-technical language, making it appealing to the general reader as well as a solid reference for undergraduate college students and researchers. Following each article are references to other articles of interest and a comprehensive index facilitates access to specific subject material. The second volume includes a compilation of significant national and international treaties, laws, conventions, and protocols that have been implemented in an attempt to counter these ongoing threats to domestic and international security.
