Eye Color Morgan Worthy,1999 Morgan Worthy, a research psychologist, presents a comprehensive picture of how eye color is related to the behavior of humans and animals. In humans, he used archival records of athletic performance to show the theoretical pattern which has light-eyed athletes performing at their best on self-paced tasks and dark-eyed athletes, on average, performing at their best on reactive tasks. This same general pattern is shown to hold true in animal behaviors such as hunting tactics of predators and escape tactics of prey. Whereas dark-eyed predators tend to rely on immediate, quick, reactions to catch prey, light-eyed predators tend to rely more on their ability to lie-in-wait or stalk prey. Various other behaviors such as perception and social interaction are discussed in the same theoretical framework.

Cross known as Kim lives in Danville Virginia. She was born in the spring of April on the 8th day in 1976. Kim began creative writing in 2015. Calm Night was her stress reliever after a long work night and a quick workout at the gym. When Kim arrived home she would type. The initial writing of Calm Night was to be a short story. But with each new day Kim fell in love with Calm Night referring to the writing as her first born. Kim would stay awake inside her tiny studio apartment and type until her eyes became heavy with sleep. But that is when Kim's eclectic imagination would explode. She dreamed of Calm Night when she slept. The dreams are now chapters in the book. Each character was brought to life with what Kim's idea of wholeness, ability and concord is. Kim's political views, opinions of society and her fondest passions were her muse to write Calm Night. The book cover is Kim's work of art. She named the painting Sisters because both beings are identical but with different dedications toward the same objective. Kim finished the painting of Sisters in the winter of February on the 1st day of 2015. A few months after in the spring of May on the 15th day Kim began the writing of Calm Night. In the autumn of October on the 28th day in 2019 Kim completed Calm Night. She is happy to share Calm Night with you. From Kim's imagination to your enjoyment.

Ultimate Insider's Guide to Eye Health Paul Krawitz,

The Social Media Age Zoetanya Sujon, 2021-04-07 Exploring power and participation in a connected world. Social media are all around us. For many, they are the first things to look at upon waking and the last thing to do before sleeping. Integrated seamlessly into our private and public lives, they entertain, inform, connect (and sometimes disconnect) us. They're more than just social though. In addition to our experiences as everyday users, understanding social media also means asking questions about our society, our culture and our economy. What we find is dense connections between platform infrastructures and our experience of the social, shaped by power, shifting patterns of participation, and a widening ideology of connection. This book introduces and examines the full scope of social media. From the social to the technological, from the everyday to platform industries, from the personal to the political. It brings together the key concepts, theories and research necessary for making sense of the meanings and consequences of social media, both hopefully and critically. Dr Zoetanya Sujon is a Senior Lecturer and Programme Director for Communications and Media at London College of Communication, University of the Arts London.
