The powerful city-state of Saraykeht is a bastion of peace and culture, a major center of commerce and trade. Its economy depends on the power of the captive spirit, Seedless, an andat bound to the poet-sorcerer Heshai for life. Saraykeht, though, has always been too strong for the Galts to attack, but now they see an opportunity. If they can dispose of Heshai, Seedless's bonded poet-sorcerer, Seedless will perish and the entire city will fall. With secret forces inside the city, the Galts prepare to enact their terrible plan. In the middle is Otah, a simple laborer with a complex past. Recruited to act as a bodyguard for his girlfriend's boss at a secret meeting, he inadvertently learns of the Galtish plot. Shadows in the Mind's Eye Janyre Tromp, 2022-04-19 Tromp weaves a complex historical tale incorporating love, suspense, hurt, and healing--all the elements that keep the pages turning. —Julie Cantrell, *New York Times* and *USA TODAY* bestselling author of *Perennials* Charlotte Anne Mattas longs to turn back the clock. Before her husband, Sam, went to serve his country in the war, he was the man everyone could rely on--responsible, intelligent, and loving. But the person who's come back to their family farm is very different from the protector Annie remembers. Sam's experience in the Pacific theater

has left him broken in ways no one can understand--but that everyone is learning to fear. Tongues start wagging after Sam nearly kills his own brother. Now when he claims to have seen men on the mountain when no one else has seen them, Annie isn't the only one questioning his sanity and her safety. If there were criminals haunting the hills, there should be evidence beyond his claims. Is he really seeing what he says, or is his war-tortured mind conjuring ghosts? Annie desperately wants to believe her husband. But between his irrational choices and his nightmares leaking into the daytime, she's terrified he's going mad. Can she trust God to heal Sam's mental wounds--or will sticking by him mean keeping her marriage at the cost of her own life? Debut novelist Janyre Tromp delivers a deliciously eerie, Hitchcockian story filled with love and suspense. Readers of psychological thrillers and historical fiction by Jaime Jo Wright and Sarah Sundin will add Tromp to their favorite authors list.

Eye Make-up Techniques Linda Eva, 2017-02-04 Make-up is enormously adaptable, as far as hues and items, as well as far as how it is worn. While some wear make-up to make a huge and sensational appearance, others will wear make-up more unobtrusively. Make-up can be worn in a wide assortment of circumstances, extending from work, occasions, evenings out, and even simply round the house on the off chance that you so covet. Thus of such assorted qualities, the make-up industry is gigantic, implying that everyone ought to have the capacity to discover items that they would need to wear and be seen donning. Be that as it may, the way that make-up is connected fluctuates almost no between circumstances. Most make-up specialists take after a similar standard, intended to improve the timeframe that the make-up keeps going when worn. This standard directs that in the first place, before you even apply a drop of make-up, you ought to guarantee that your face is perfect and washed. Improve up will make due on a perfect face, free from common oils. Ensure too that your eyebrows are formed how you need them to be, and are free from any stray hairs. Next, concentrate on your skin. Apply fluid establishment, and afterward concealed. Next, apply free powder to guarantee that your skins are totally matt. Concealed can differ in when it is connected, and can be connected after the powder. At long last, you can apply blusher to your cheeks. Once your skin is looking flawless, you can move onto your eyes. To start with apply your picked eye shadow, or eye shadows, and mix this if requirements be. When your eye shadow has been connected, proceed onward to eye liner, be that fluid or pencil. In the event that you need to utilize eyebrow pencil, this can take after the eye liner. To complete your eyes, utilize mascara to finish the look. At long last, you go to your lips. Obviously, this standard will change from individual to individual, and some may favor not to stick to it by any means. This routine is straightforward a proposal in how best to apply make-up. Attempt to apply the bases of the make-up in the first place, for example, establishment or eye shadow, as not exclusively will they last more, they will likewise direct how different items will be included. More fragile items ought to be connected last, for example, blusher, as they won't survive different items being included top of them. These fundamental guidelines of make-up will help you to maximize your make-up, and guarantee you are looking great.

Shadow of Justice Jess Faraday, 2020-03-10 Constable Simon Pearce doesn't believe in love. It's a dangerous proposition for many people in 19th century London, but for an ambitious copper climbing Scotland Yard's greasy career ladder, it's out of the question. He doesn't believe in monsters, either, though there seem to be a lot of them about. Whether it's a ghost haunting a London churchyard where men seek men's companionship, a phantom hound in Edinburgh that's hell-bent on revenge, or a murdered businessman on a cross-country train who just won't stay dead -- the mysterious has a way of finding Pearce, whether he wants it to or not. But are these happenings truly supernatural? Or is something worse -- something thoroughly human -- to blame? Pearce has his theories -- about crime, about monsters, and about love. But life has a way of testing even the most carefully considered ideas. And as he chases mysteries from one end of Britain to the other, he may just have to reconsider his ideas about all three.

Streetlights and Shadows Gary A. Klein, 2011-09-30 An expert explains how the conventional wisdom about decision making can get us into trouble—and why experience can't be replaced by rules, procedures, or analytical methods In making decisions, when should we go with our gut and when should we try to analyze every option? When should we use our intuition and when should we rely on logic and statistics? Most of us would probably agree that for important decisions, we should follow certain guidelines—gather as much information as possible, compare the options, pin down the goals before getting started. But in practice we make some of our best decisions by adapting to circumstances rather than blindly following procedures. In *Streetlights and Shadows*, Gary Klein debunks the conventional wisdom about how to make decisions. He takes ten commonly accepted claims about decision making and shows that they are better suited for the laboratory than for life. The standard advice works well when everything is clear, but the tough decisions involve shadowy conditions of complexity and ambiguity. Gathering masses of information, for example, works if the information is accurate and complete—but that doesn't often happen in the real world. (Think about the careful risk calculations that led to the downfall of the Wall Street investment houses.) Klein offers more realistic ideas about how to make decisions in real-life settings. He provides many examples—ranging from airline pilots and weather forecasters to sports announcers and Captain Jack Aubrey in Patrick O'Brian's *Master and Commander* novels—to make his point. All these decision makers saw things that others didn't. They used their expertise to pick up cues and to discern patterns and trends. We can make better decisions, Klein tells us, if we are prepared for complexity and ambiguity and if we will stop expecting the data to tell us everything. "I know of no one who combines theory and observation—intellectual rigor and painstaking observation of the real world—so brilliantly and gracefully as Gary Klein." —Malcolm Gladwell, author of *Outliers* and *Blink*

Color Theory for the Makeup Artist Katie Middleton, 2018-06-12 *Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects* analyzes and explains traditional color theory for fine artists and applies it to the make-up artist. This book is suitable for both professionals and beginners who wish to train their eye further to understand and recognize distinctions in color. these concepts to beauty and special effects make-up. The book teaches the reader how to mix flesh tones by using only primary colors, and explains how these colors in paints and make-up are sourced and created. It also discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick. Ideas and techniques are also described for painting prosthetics, in addition to using color as inspiration in make-up designs. The book also discusses how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications.
