Critical Disability Theory Dianne Pothier,Richard Devlin,2011-11-01 Despite the widespread belief that Canada is a country of liberty, equality, and inclusiveness, many persons with disabilities experience social exclusion and marginalization. In this book, twenty-four scholars from a variety of disciplines contend that achieving equality for the disabled is not fundamentally a question of medicine or health, nor is it an issue of sensitivity or compassion. Rather, it is a question of politics, and of power and powerlessness. This book argues that we need a new understanding of participatory citizenship that encompasses the disabled, new policies to respond to their needs, and a new vision of their entitlements.

The Respect Effect: Using the Science of Neuroleadership to Inspire a More Loyal and Productive Workplace Paul Meshanko,2013-08-16 What does every employee want? In a word: RESPECT The best leaders are the ones who motivate employees to want to perform at the highest level possible--which is never accomplished with an iron-fist style of management. The best results are achieved through one of the most basic human behaviors: the showing of respect. Organizational change expert Paul Meshanko has studied how the human brain responds in various workplace situations--and his conclusion is astonishing: People perform at their highest level when treated with respect. Conversely, when an employee is emotionally attacked by disrespectful behavior, he or she shuts down. In *The Respect Effect*, Meshanko reveals the transformational power of respect in the workplace. Given the pressures of the workplace, this is sometimes easier said than done. So Meshanko provides a practical action plan you can use to train yourself or others to get on track--and stay on track. His proven strategy helps you understand the initial, biological reactions to what people (This means you!) say and do. Through his cited research in neuroscience,

Meshanko teaches you how to create positive situations, avoid negative ones, and ultimately build a better work environment for everyone. The Respect Effect explains: The hard science proving why respect is the most powerful employee motivator How to build a corporate culture based on respect, starting with senior leadership The 12 Rules of Respect--simple but powerful ways to communicate respectfully in any situation The strategy, resource requirements, and tools for sustaining a respectful workplace culture How do you use the concept of neuroscience to achieve a great work environment? The answer is obvious. Feed others a diet of respect--real, deserved, genuine respect--and you will see amazing things happen in your organization. Use Meshanko's proven approach to organizational change to create a culture of contagious respect in your organization. PRAISE FOR THE RESPECT EFFECT: The Respect Effect reminds us of the critical role relationships play in the workforce. . . . A great read for new and experienced leaders! -- ANNEMARIE M. GRASSI, PH.D., CEO, Open Doors Academy The Respect Effect offers concise, engaging learning, not only for business leaders, but for anyone working in an organization where developing an inclusive and productive work environment is a priority. Respect is a powerful principle for businesses to understand and practice--this book will contribute much to its advancement. -- RICK CHIRICOSTA, President and CEO, Medical Mutual [Meshanko] shows how demonstrating respect to employees leads to better health and well-being for both the organization and the individual. Whether you are a supervisor, manager, VP, or small business owner, The Respect Effect will make you a more effective leader. -- PAUL MARCIANO, PH.D., author, Carrots and Sticks Don't Work In The Respect Effect, Paul Meshanko shows that respect is the foundation for interpersonal trust, revealing why high-trust organizations are successful. The step-by-step process Meshanko outlines to cultivate and nurture respect provides a new leverage point to increase employee satisfaction and productivity. -- PAUL J. ZAK, PH.D., author, The Moral Molecule Paul's book inspires us to keep our focus and gives us concrete behaviors for living the attributes of The Respect Effect. -- RALPH STAYER, owner and CEO, Johnsonville Sausage, LLC
