*The Falcon's Eyes* Francesca Stanfill,2022-07-05 With her eye for historical detail and flair for sympathetic heroines, Francesca Stanfill breathes new life into the medieval court of Eleanor of Aquitaine. The Falcon’s Eyes is a novel of epic proportions that succeeds in being both intimate and vast. History is Stanfill’s canvas, humanity her inspiration.—Amanda Foreman, bestselling author of *Georgiana: Duchess of Devonshire* “Stanfill has persuasively re-imagined the Middle Ages, surrounding the legendary Queen Eleanor of Aquitaine with indelible characters in an immersive tale of intrigue, bravery, ruthlessness, and compassion. . . . The Falcon’s Eyes is a dazzling adventure, with riveting twists and turns and a surprising yet deeply satisfying conclusion.—Sally Bedell Smith, author of *Elizabeth the Queen Set in France and England at the end of the twelfth century*, the moving story of a spirited, questing young woman, Isabelle, who defies convention to forge a remarkable life, one profoundly influenced by the fabled queen she idolizes and comes to know – Eleanor of Aquitaine Willful and outspoken, sixteen-year-old Isabelle yearns to escape her stifling life in provincial twelfth century France. The bane of her mother’s existence, she admires the notorious queen most in her circle abhor: Eleanor of Aquitaine. Isabelle’s arranged marriage to Gerard --- a rich, charismatic lord obsessed with falcons --- seems, at first, to fulfill her longing for adventure. But as Gerard’s controlling nature, and his consuming desire for a male heir, become more apparent, Isabelle, in the spirit of her royal heroine, makes bold, often perilous, decisions which will forever affect her fate. A suspenseful, sweeping tale about marriage, freedom, identity, and motherhood, THE FALCON’S EYES brings alive not only a brilliant century and the legendary queen who dominated it, but also the vivid band of complex characters whom the heroine encounters

on her journey to selfhood: noblewomen, nuns, servants, falconers, and courtiers. The various settings — Château Ravinour, Fontevraud Abbey, and Queen Eleanor’s exiled court in England — are depicted as memorably as those who inhabit them. The story pulses forward as Isabelle confronts one challenge, one danger, after another, until it hurtles to its final, enthralling, page. With the historical understanding of Hillary Mantel and the storytelling gifts of Ken Follett, Francesca Stanfill has created an unforgettable character who, while firmly rooted in her era, is also a woman for all times.

*Starry Eyes* Jenn Bennett,2019-01-08 When teens Zorie and Lennon, a former couple, are stranded in the California wilderness together, they must put aside their differences, and come to terms with lingering romantic feelings, in order to survive.

They've infiltrated homes in Hong Kong, shops in Vancouver, the streets of in Sierra Leone, town squares in Oaxaca, schools in Tel Aviv, bedrooms in Indiana. They're everywhere. They're here. They're us. They're not pets, or ghosts, or robots. They're real people, but how can a person living in Berlin walk freely through the living room of someone in Sydney? How can someone in Bangkok have breakfast with your children in Buenos Aires, without your knowing? Especially when these people are completely anonymous, unknown, unfindable. The characters in Samanta Schweblin's brilliant new novel, Little Eyes, reveal the beauty of connection between far-flung souls—but yet they also expose the ugly side of our increasingly linked world. Trusting strangers can lead to unexpected love, playful encounters, and marvelous adventure, but what happens when it can also pave the way for unimaginable terror? This is a story that is already happening; it's familiar and unsettling because it's our present and we're living it, we just don't know it yet. In this prophecy of a story, Schweblin creates a dark and complex world that's somehow so sensible, so recognizable, that once it's entered, no one can ever leave.

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Public Health Approaches to Reduce Vision Impairment and Promote Eye Health,2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

Blue Eyes, Brown Eyes Stephen G. Bloom,2021-10-05 The never-before-told true story of Jane Elliott and the “Blue-Eyes, Brown-Eyes Experiment” she made world-famous, using eye color to simulate racism. The day after Martin Luther King, Jr.’s assassination in 1968, Jane Elliott, a schoolteacher in rural Iowa, introduced to her all-white third-grade class a shocking experiment to demonstrate the scorching impact of racism. Elliott separated students into two groups. She instructed the brown-eyed children to heckle and berate the blue-eyed students, even to start fights with them. Without telling the children the experiment’s purpose, Elliott demonstrated how easy it was to create abhorrent racist behavior based on students’ eye color, not skin color. As a result, Elliott would go on to appear on Johnny Carson’s Tonight Show, followed by a stormy White House conference, The Oprah Winfrey Show, and thousands of media events and diversity-training sessions worldwide, during which she employed the provocative experiment to induce racism. Was the experiment benign? Or was it a cruel, self-serving exercise in sadism? Did it work? Blue Eyes, Brown Eyes is a meticulously researched book that details for the first time Jane Elliott’s jagged rise to stardom. It is an unflinching assessment of the incendiary experiment forever associated with Elliott, even though she was not the first to try it out. Blue Eyes, Brown Eyes offers an intimate portrait of the insular community where Elliott grew up and conducted the experiment on the town’s children for more than a decade. The searing story is a cautionary tale that examines power and privilege in and out of the classroom. It also documents small-town White America’s reflex reaction to the Civil Rights Movement of the 1970s and 1980s, as well as the subsequent meteoric rise of diversity training that flourishes today. All the while, Blue Eyes, Brown Eyes reveals the struggles that tormented a determined and righteous woman, today referred to as the “Mother of Diversity Training,” who was driven against all odds to succeed.
