**Where's the Easy Button?** Carol-Ann Medina,2007-05 I had the career of a lifetime. I was a teacher. I began my teaching career believing that one person could make a difference, and throughout the years, I never lost sight of that conviction. Teaching connected me to my students in ways quite humorous, as well as heart breaking. I hope the reader laughs a lot and cries only a little, while walking in my footsteps as an educator. Laugh with me as you read about Fred, the crusty cockroach we set free to find his wife and eighty-seven children. In addition, there is always my favorite story about the scary monster under the bed holding a student's homework hostage. I fed a rooster and his hens bread crumbs for breakfast each morning, until they tried to follow me, in single file, into the school board building one day. Some difficult students in summer school mistakenly believed my black patent leather belt to be a black belt in Karate. Who was I to tell them differently? Coming right on top of the laughs were the times I went home to cry. I remember the student, new to our school, who went home one evening and hung himself, his cries for help coming too late. I remember with equal sadness, the foster child we sponsored in Kenya who died because help did not reach him in time. Closer to home was the overage student who was shot and killed while he participated in a home invasion, just days after he finished summer school. Outside factors reached inside our classroom as well, reeking havoc with the emotions of both the children and me. The disastrous space shuttle, with the teacher on board, happened before our very eyes; while the greatest tragedy of all was the destruction of the twin towers on 9/11. These stories and many more comprise my educational career, and although there was no easy button, I would do it all over again. I was a teacher.

The Dichotomy of Leadership Jocko Willink, Leif Babin, 2018-09-25 THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of Extreme Ownership comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, Extreme Ownership (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in THE DICHOTOMY OF LEADERSHIP, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in Extreme Ownership: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above

all accomplish the strategic mission. • Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission. With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain THE DICHOTOMY OF LEADERSHIP—skills that are mission-critical for any leader and any team to achieve their ultimate goal: VICTORY.

The Circle of Fire Justina Page,2015-09-08 A woman's true story of rebuilding her faith in the aftermath of harrowing tragedy. In the early hours of March 7, 1999, Justina Page's life changed forever when a four alarm house fire ravaged and destroyed her family's home. In the aftermath, in addition to the heartbreaking loss of one of her 22-month-old twin boys, Justina and her husband had to cope with the physical injuries to both her and their surviving son. The Circle of Fire chronicles her struggle to overcome the devastating consequences of this catastrophic event. The book explains, with hope and passion, how our existing entrepreneurial ecosystem, with the ideals of democracy, can be the foundation for a new mission-driven capitalism. The good news is the components of this problem-solving ecosystem already exist. The authors explain what is required to join people, purpose, and profit together for world-changing impact—starting with rebuilding trust among Business, Government, and Society. The authors draw on their leadership experience with Silicon Valley innovation, venture capital, and work at the highest levels of the federal government. The book tells engaging stories of successful entrepreneurs, with diverse perspectives and intersectional experiences, who combine mission and venture to solve critical societal problems. This book seeks to inspire a generation of students, young professionals, and entrepreneurial executives to pursue mission-driven

ventures that can make the world a better place. Venture Meets Mission also explains why and how forward-thinking government officials and policymakers can harness private sector entrepreneurship and innovation to solve society's problems.
