The Face-to-Face Book Ed Keller, Brad Fay, 2012-05-22

The world's preeminent word-of-mouth marketing experts demonstrate how in-person social networking, not online marketing, is the secret to soaring revenues.

Face to Face Brian Grazer, 2019-09-17 Featured on CBS This Morning, Squawk Box, MSNBC, CNN, Bloomberg, Forbes, Fast Company, The New York Times, and more. "Reading Face to Face is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood's best producer." —Malcolm Gladwell, author of Talking to Strangers
Legendary Hollywood producer and author of the bestselling *A Curious Mind*, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer's success—as a #1 New York Times bestselling author, Academy Award-winning producer, father, and husband—comes from his ability to establish genuine connections with almost anyone. In *Face to Face*, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like *A Beautiful Mind*, *Empire*, *Arrested Development*, *American Gangster*, and *8 Mile*, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he's learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of the human experience. Only when we are face to face, able to look one another in

the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

Face/On Sharrona Pearl, 2017-04-12 Are our identities attached to our faces? If so, what happens when the face connected to the self is gone forever—or replaced? In *Face/On*, Sharrona Pearl investigates the stakes for changing the face—and the changing stakes for the face—in both contemporary society and the sciences. The first comprehensive cultural study of face transplant surgery, *Face/On* reveals our true relationships to faces and facelessness, explains the significance we place on facial manipulation, and decodes how we understand loss, reconstruction, and transplantation of the face. To achieve this, Pearl draws on a vast array of sources: bioethical and medical reports, newspaper and television coverage, performances by pop culture icons, hospital records, personal interviews, films, and military files. She argues that we are on the cusp of a new ethics, in an opportune moment for reframing essentialist ideas about appearance in favor of a more expansive form of interpersonal interaction. Accessibly written and respectfully illustrated, *Face/On* offers a new perspective on face transplant surgery as a way to consider the self and its representation as constantly present and evolving. Highly interdisciplinary, this study will appeal to anyone wishing to know more about critical interventions into recent medicine, makeover culture, and the beauty industry.

The Book of Faces Joseph Campana, 2005-11 In Joseph Campana's debut collection, starring Audrey Hepburn, icons of public consumption speak in the language of private devotion. Encourage emulation. Inspire

idolatry. Be a muse, be a nymph, be a sprite, bewitch me. Rise from obscurity. Set trends. Break habits. Make statements. Count blessings. Distribute kindnesses. Arouse devotion. Devote yourself to nobility. Ascend, ascend, ascend. -from How to Be a Star

Face Recognition Technology Ian Berle, 2020-03-11
This book examines how face recognition technology is affecting privacy and confidentiality in an era of enhanced surveillance. Further, it offers a new approach to the complex issues of privacy and confidentiality, by drawing on Joseph K in Kafka's disturbing novel *The Trial*, and on Isaiah Berlin's notion of liberty and freedom. Taking into consideration rights and wrongs, protection from harm associated with compulsory visibility, and the need for effective data protection law, the author promotes ethical practices by reinterpreting privacy as a property right. To protect this right, the author advocates the licensing of personal identifiable images where appropriate. The book reviews American, UK and European case law concerning privacy and confidentiality, the effect each case has had on the developing jurisprudence, and the ethical issues involved. As such, it offers a valuable resource for students of ethico-legal fields, professionals specialising in image rights law, policy-makers, and liberty advocates and activists.

Perception of Faces, Objects, and Scenes Mary A. Peterson, Gillian Rhodes, 2003-05-22
From a barrage of photons, we readily and effortlessly recognize the faces of our friends, and the familiar objects and scenes around us. However, these tasks cannot be simple for our visual systems--faces are all extremely similar as visual patterns, and objects look quite different when viewed from different viewpoints. How do our visual systems solve these problems? The contributors to this volume seek to answer

this question by exploring how analytic and holistic processes contribute to our perception of faces, objects, and scenes. The role of parts and wholes in perception has been studied for a century, beginning with the debate between Structuralists, who championed the role of elements, and Gestalt psychologists, who argued that the whole was different from the sum of its parts. This is the first volume to focus on the current state of the debate on parts versus wholes as it exists in the field of visual perception by bringing together the views of the leading researchers. Too frequently, researchers work in only one domain, so they are unaware of the ways in which holistic and analytic processing are defined in different areas. The contributors to this volume ask what analytic and holistic processes are like; whether they contribute differently to the perception of faces, objects, and scenes; whether different cognitive and neural mechanisms code holistic and analytic information; whether a single, universal system can be sufficient for visual-information processing, and whether our subjective experience of holistic perception might be nothing more than a compelling illusion. The result is a snapshot of the current thinking on how the processing of wholes and parts contributes to our remarkable ability to recognize faces, objects, and scenes, and an illustration of the diverse conceptions of analytic and holistic processing that currently coexist, and the variety of approaches that have been brought to bear on the issues.

The Many Faces of Shame Donald L. Nathanson, 1987-06-01
For almost a century the concept of guilt, as embedded in drive theory, has dominated psychoanalytic thought. Increasingly, however, investigators are focusing on shame as a key aspect of human behavior. This volume captures a range of compelling viewpoints on the role of shame in psychological development, psychopathology, and the therapeutic process. Donald Nathanson has assembled internationally prominent authorities, engaging them in extensive dialogue about their areas of expertise. Concise introductions to each chapter place the authors both historically and theoretically, and outline their emphases and contributions to our understanding of shame. Including many illustrative clinical examples, the book covers such topics as the relationship between shame and narcissism, shame's central place in affect theory, psychosis and

shame, and shame in the literature of French psychoanalysis and philosophy.

Faces of Women and Aging Ellen Cole, Esther D Rothblum, Nancy C Davis, 2014-06-03 Discover the diverse

ways aging women attempt to deal with the universal challenges of loss, sickness, and death along with the problems of being old women in a society that values women mainly as sexual partners or producers of children. Old women are often seen as poor, powerless, and pitiful in our sexist and youth-oriented society. The truth is that women age much more successfully than do men and they are increasingly in the majority as our population ages. These truths and others are presented in *Faces of Women and Aging*--a collection written by women, a number of whom are themselves older women who bring their unique life experiences and personalities to the topic. This uplifting book emphasizes that middle and old age are merely stages of growth and development, not just seasons of loss and decline as the end approaches. A wealth of topics are covered in *Faces of Women and Aging* that broaden the reader's awareness of the problems of women and aging including: how to maintain self-esteem in the face of sexism, ageism, and severe illness the problems of being single or divorced in the later years the problems of maintaining a good body image for older women in a society which values the young and the beautiful the additional difficulties of minority women, specifically lesbians and native American women increased dependency brought on by illness and loss of partners *Faces of Women and Aging* combines personal narratives that serve as reminders of the human beings behind statistics and case studies with theoretical observations which help therapists assist older women cope with the daily hardships as well as the more catastrophic problems of aging.

Along the way he scores his biggest heist yet, but there's a catch—a beautiful, dangerous catch who goes by the name Alma.

Your Many Faces Virginia Satir, 2011-04-20 Each one of us has a medley of faces that composes our individual personality: intelligence, anger, love, jealousy, helplessness, courage, and many more. We're often quick to judge these characteristics as either positive or negative, without recognizing that we need each of them in order to become fuller, more balanced human beings. Originally written in 1978 by renowned psychotherapist Virginia Satir, the timeless classic *Your Many Faces* has been updated and reissued—and is as relevant today as ever. In a refreshingly candid style, Satir takes us on a lively and insightful journey of self-discovery and transformation. We learn how to acknowledge, understand, and manage our many faces—and in doing so, open up a world of possibilities for ourselves. This new edition also features a compelling foreword by Mary Ann Norfleet, PhD, which explores Satir's pioneering approaches to psychology and her enduring legacy in the field of family therapy.
