Song of the Nile Hannah Fielding,2021-05-27 Luxor, 1946. When young nurse Aida El Masri returns from war-torn London to her family's estate in Egypt she steels herself against the challenges ahead. Eight years have passed since her father, Ayoub, was framed for a crime he did not commit, and died as a tragic result. Yet Aida has not forgotten, and now she wants revenge against the man she believes betrayed her father – his best friend, Kamel Pharaony. Then Aida is reunited with Kamel's son, the captivating surgeon Phares, who offers her marriage. In spite of herself, the secret passion Aida harboured for him as a young girl reignites. Still, how can she marry the son of the man who destroyed her father and brought shame on her family? Will coming home bring her love, or only danger and heartache? Set in the exotic and bygone world of Upper Egypt, *Song of the Nile* follows Aida's journey of rediscovery – of the homeland she loves, with its white-sailed feluccas on the Nile, old-world charms of Cairo and the ancient secrets of its burning desert sands – and of the man she has never forgotten. A compelling story of passion and intrigue – a novel that lays open the beating heart of Egypt.

Current Trends in the Representation of Physical Processes in Weather and Climate Models David A. Randall, J. Srinivasan, Ravi S.

Nanjundiah, Parthasarathi Mukhopadhyay, 2019-01-31 This book focuses on the development of physical parameterization over the last 2 to 3 decades and provides a roadmap for its future development. It covers important physical processes: convection, clouds, radiation, land-surface, and the orographic effect. The improvement of numerical models for predicting weather and climate at a variety of places and times has progressed globally. However, there are still several challenging areas, which need to be addressed with a better understanding of physical processes based on observations, and to subsequently be taken into account by means of improved parameterization. And this is all the more important since models are increasingly being used at higher horizontal and vertical resolutions. Encouraging debate on the cloud-resolving approach or the hybrid approach with parameterized convection and grid-scale cloud microphysics and its impact on models' intrinsic predictability, the book offers a motivating reference guide for all researchers whose work involves physical parameterization problems and numerical models.

Ecology and Biogeography in Sri Lanka C.H. Fernando, 2012-12-06 When the late Professor Joachim Illies suggested in 1980 that I edit a volume of the *Monographiae Biologicae* on Sri Lanka, I was glad to accept the challenge. Although I had spent only six years of my research and teaching career in Sri Lanka, I had made personal contact or corresponded with many scientists who had worked in, still work in, or who have studied material from Sri Lanka. The present domicile of the authors of the chapters in this volume shows the wide geographic spread of interest in Sri Lanka, and indicates also the dispersion of Sri Lankan scientists like myself. Sri Lanka has had a relatively long history of indigenous scientific research in the natural sciences. From the early work of Kelaart (1852, *Prodromus Fauna Zeylanicae*, Ceylon Govt. Press, 250 pp.) to the present time, there has been a more or less sustained research effort in the natural sciences. The Colombo Museum, which celebrated its centenary only a few years ago, and the world famous Peradeniya Botanical Gardens, served as repositories and bases for continued research on the fauna and flora. There are a number of land marks in these studies.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Echoes of Love Hannah Fielding,2014-02-10 Gold medallist: Independent Publisher Book Awards - Romance Category.'An epic love story that is beautifully told.'The Sun newspaper. Set in Venice,The Echoes of Loveis a beautiful, poignant story of lost love and betrayal, unleashed passion and learning to love again, whatever the price.Venetia Aston-Montaguehas escaped to Italy's most captivating city to work in her godmother's architectural

practice, hoping to put a lost love behind her. Paolo Barone, a charismatic entrepreneur who bears the scars of a tragic past, is endeavoring to build a new life for himself. Venice on a misty carnival night brings these two people together. When Venetia finds herself assigned to Paolo's magnificent country home, love blossoms in the beautiful hills of Tuscany and the wild Sardinian Maquis. But if they are to be together, they must first confront their past and dark forces in the shadows determined to come between them. Daring to love again after so many years, can Venetia overcome her own demons? Or will Paolo's carefully guarded, devastating secret tear them apart forever? Praise for Hannah Fielding: Escape to the winding streets of Venice, where Venetia gets herself tangled up with charismatic stranger Paolo. He's a Don Juan with a dangerous secret, and she has sworn that her heart is closed - but can they resist their smouldering chemistry? Inside Soap. I absolutely adored the depth of the love story in The Echoes of Love, it felt almost voyeuristic to read. Fielding encapsulates the overwhelming experience of falling deeply, completely, utterly in love beautifully, and the glorious backdrop of Venice, eloquently described throughout, is the perfect setting for this romantic novel.
