Knit India Through Literature Volume 1 - The South Sivasankari, 2017-03-05

Reading History with the Tamil Jainas R. Umamaheshwari, 2018-01-25 This book provides a social history of the Tamil Jainas, a minority community living in Tamil Nadu in south India. It holds special significance in the method of studying the community, living in villages of Tamil Nadu and retrieving their perspectives on their past. This is a new approach in terms of historiography from extant works on Jainism in south India. A major feature of this book is the hitherto uncovered aspect of the question of language and identity, caste and the modern socio-political movements in Tamil Nadu, such as the Self-Respect Movement (initiated by 'Periyar'), in which some Tamil Jainas were active participants. Special features in the book include photographs of the community and monuments, maps, and a unique style, which combines a journalistic approach and academic historical research. This book is of interest to readers of Tamil language and history, and to anyone working on the idea of politics of marginalisation of religious identities, idea as of memory, and community narratives of shared history in the face of religious persecution.

101 Middle Eastern Tales and Their Impact on Western Oral Tradition Ulrich Marzolph, 2020-08-18 Against the methodological backdrop of historical and comparative folk narrative research, *101 Middle Eastern Tales and Their Impact on Western Oral Tradition* surveys the history, dissemination, and characteristics of over one hundred narratives transmitted to Western tradition from or by the Middle Eastern Muslim literatures (i.e., authored written works in Arabic, Persian, and Ottoman Turkish). For a tale to be included, Ulrich Marzolph considered two criteria: that the tale originates from or at least was transmitted by a Middle Eastern source, and that it was recorded from a Western narrator's oral performance in the course of the nineteenth or twentieth century. The rationale behind these restrictive definitions is predicated on Marzolph's main concern with the long-lasting effect that some of the Oriental narratives exercised in Western popular tradition—those tales that have withstood the test of time. Marzolph focuses on the originally Oriental tales that became part and parcel of modern Western oral tradition. Since antiquity, the Orient constitutes the quintessential Other vis-à-vis the European cultures. While delineation against this Other served to define and reassure the Self, the Orient also constituted a constant source of fascination, attraction, and inspiration. Through oral retellings, numerous tales from Muslim tradition became an integral part of European oral and written tradition in the form of learned treatises, medieval sermons, late medieval fabliaux, early modern chapbooks, contemporary magazines, and more. In present times, when national narcissisms often acquire the status of strongholds delineating the Us against the Other, it is imperative to distinguish, document, visualize, and discuss the extent to which the West is not only indebted to the Muslim world but also shares common features with Muslim narrative tradition. *101 Middle Eastern Tales and Their Impact on Western Oral Tradition* is an important contribution to this debate and a vital work for scholars, students, and readers of folklore and fairy tales.

Imagining a Place for Buddhism Anne Elizabeth Monius, 2001 This study argues that, in early medieval south India, it was in the literary arena that religious ideals and values were publicly contested.

India, Sri Lanka and the SAARC Region Lopamudra Maitra Bajpai, 2020-10-28 This book examines the historical and socio-cultural connections across the SAARC region, with a special focus on the relationship between India and Sri Lanka. It investigates hitherto unexplored narratives of history, popular culture and intangible heritage in the region to identify the cultural parallels and intersections that link them together. In doing so, the volume moves away from an organised and authorised heritage discourse and encourages possibilities of new understandings and re-interpretations of cross-cultural communication and its sub-texts. Based on original ethnographic work, the book discusses themes such as cultural ties between India and Sri Lanka, exchanges between Arthur C. Clarke in Sri Lanka and Satyajit Ray in India, cultural connectivity reflected through mythology and folklore, the influence of Rabindranath Tagore on modern dance in Sri Lanka, the introduction of railways in Sri Lanka, narrative scrolls and masked dance forms across SAARC countries, Hindi cinema as the pioneer of cultural connectivity, and women's writing across South Asia. Lucid and compelling, this book will be useful for scholars and researchers of cultural studies, South Asian studies, cultural anthropology, sociology, popular culture, cross-cultural communication, gender studies, political sociology, cultural history, diplomacy, international relations and heritage studies. It will also appeal to general readers interested in the linkages between India and Sri Lanka.

The Maze of Fantasy in Tamil Folktales Gabriella Eichinger Ferro-Luzzi, 2002 The book pursues an ethnographic and a theoretical purpose. The ethnographic first part examines how Tamil folktales, mostly gathered and published by Tamil authors, reflect Tamil culture. However, since the narrators want to amuse their listeners and arouse their interest they tend to exaggerate or invert the normal situation. Therefore, their tales reflect more reliably Tamil values, beliefs and interest than social behaviour. The second theoretical part stresses the importance of the actually occurring motifs and casts doubt on typology. Rather than artificially distinguishing tale types, often thought to exist independent of the narrators, it points out a network of thematic connections among Tamil folktales.
