**Remembering Dixie** Susan T. Falck, 2019-08-23 Nearly seventy years after the Civil War, Natchez, Mississippi, sold itself to Depression-era tourists as a place "Where the Old South Still Lives." Tourists flocked to view the town's decaying antebellum mansions, hoopskirted hostesses, and a pageant saturated in sentimental Lost Cause imagery. In *Remembering Dixie: The Battle to Control Historical Memory in Natchez, Mississippi, 1865-1941*, Susan T. Falck analyzes how the highly biased, white historical memories of what had been a wealthy southern hub originated from the experiences and hardships of the Civil War. These collective narratives eventually culminated in a heritage tourism enterprise still in business today. Additionally, the book includes new research on the African American community's robust efforts to build historical tradition, most notably, the ways in which African Americans in Natchez worked to create a distinctive postemancipation identity that challenged the dominant white structure. Using a wide range of late nineteenth- and early twentieth-century sources—many of which have never been fully mined before—Falck reveals the ways in which black and white Natchezians of all classes, male and female, embraced, reinterpreted, and contested Lost Cause ideology. These memory-making struggles resulted in emotional, internecine conflicts that shaped the cultural character of the community and impacted the national understanding of the Old South and the Confederacy as popular culture. Natchez remains relevant today as a microcosm for our nation's modern-day struggles with Lost Cause ideology, Confederate monuments, racism, and white supremacy. Falck reveals how this remarkable story played out in one important southern community over several generations in vivid detail and richly illustrated analysis.

The chapters examine aspects of reliability, culture, innovation, trust, governance and business development within rescue and emergency services, including differentiation, internationalisation and globalisation. Drawing on detailed case studies of Falck's global work in the USA, Columbia, India and Denmark, *Private Action for Public Purpose* is instructive for students and researchers of business and management, and will provide value for emergency responders, managers, policy-makers and organisations involved in emergency response and

Weeds Zachary J. S. Falck, 2010 As long as humans have existed, they've worked and competed with plants to shape their surroundings. As cities developed and expanded, their diverse spaces were covered with and colored by weeds. In *Weeds*, Zachary J. S. Falck presents a comprehensive history of "happenstance plants" in American urban environments. Beginning in the late nineteenth century and continuing to the present, he examines the proliferation, perception, and treatment of weeds in metropolitan centers from Boston to Los Angeles. In dynamic city ecosystems, population movements and economic cycles establish and transform habitats where vegetation continuously changes. Americans came to associate weeds with infectious diseases and allergies, illegal dumping, vagrants, drug dealers, and decreased property values. Local governments and citizens' groups attempted to eliminate unwanted plants to better their urban environments and improve the health and safety of inhabitants. Over time, a growing understanding of the natural environment made "happenstance plants" more tolerable and even desirable. In the twenty-first century, scientists have warned that the effects of global warming and the heat-trapping properties of cities are producing more robust strains of weeds. Falck shows that nature continues to flourish where humans have struggled: in the aftermath of Hurricane Katrina, in the abandoned homes of the California housing bust, and alongside

crumbling infrastructure. Weeds are here to stay.
