

Families

Mary Ann Hoberman

Families Shelley Rotner, Sheila M. Kelly, 2015-01-15 Big or small, similar or different-looking, there are all kinds of families. Celebrate diversity with this picture book for very young children about the many faces of contemporary families. Bright photographs by National Geographic photographer Shelley Rotner capture families having fun together, enjoying all the ways they are similar and different. Some families have one parent, and some have two; some have aunts and uncles and grandparents living with them. Some have adopted children, some have children born to them. Whether they live all together or far apart, families love and care for each other. Designed to showcase the wide variety of modern families and spur discussions about young readers' own family history, this beautiful picture book is a must-have for children beginning to learn about the world and the people around them.

Families, Families, Families! Suzanne Lang, 2015-03-24 No matter your size, shape, or pedigree--if you love each other, you are a family! Moms, dads, sisters, brothers – and even Great Aunt Sue – appear in dozens of combinations, demonstrating all kinds of nontraditional families! Silly animals are cleverly depicted in framed portraits, and offer a warm celebration of family love. From School Library Journal PreS-Gr 1–Imagine a house with many rooms, whose walls each have a different color or wallpaper, accenting a family portrait hanging there. On a rustic wooden wall hangs the first portrait—a large family of ducks posing beside a still pond. The next spread shows three pandas in pink vests, much like the pink oriental wallpaper behind them. Each portrait features a gently rhyming line: Some children live with their grandparents.../and some live with an aunt./Some children have many pets.../and some just have a plant. All of these appealing images demonstrate different ways of being a family. Some children live with their father./ Some children have two mothers./Some children are adopted./Some have stepsisters and brothers. The cartoon-style critters contrast pleasantly with more realistic elements—a bamboo plant, a slender ceramic dog, a fat ceramic cat. Families of hippos, tigers, lions, ostriches, and whales join the other family groups in the final spread. The loud-and-clear message is that if you love each other, then you are a family. And imagine the many children who will be reassured because they have found a portrait of a family they will recognize as their own. A solid choice for most libraries.—Mary Jean Smith, formerly at Southside Elementary School, Lebanon, TN

Families Change Julie Nelson, 2006-11-15 All families change over time. Sometimes a baby is born, or a grown-up gets married. And sometimes a child gets a new foster parent or a new adopted mom or dad. Children need to know that when this happens, it's not their fault. They need to understand that they can remember and value their birth family and love their new family, too. Straightforward words and full-color illustrations offer hope and support for children facing or experiencing change. Includes resources and information for birth parents, foster parents, social workers, counselors, and teachers.

Families Meredith Tax, 1996-10-01 Describes different kinds of families.

The Way We Never Were Stephanie Coontz, 2000 Includes bibliographical references and index

Discipline That Connects With Your Child's Heart Jim Jackson, Lynne Jackson, 2016-09-20 A Powerful Approach to Bringing God's Grace to Kids Did you know that the way we deal (or don't deal) with our kids' misbehavior shapes their beliefs about themselves, the world, and God? Therefore it's vital to connect with their hearts--not just their minds--amid the daily behavior battles. With warmth and grace, Jim and Lynne Jackson, founders of Connected Families, offer four tried-and-true keys to handling any behavioral issues with love, truth, and authority. You will learn practical ways to communicate messages of grace and truth, how to discipline in a way that motivates

your child, and how to keep your relationship strong, not antagonistic. Discipline is more than just a short-term attempt to modify your child's actions--it's a long-term investment to help them build faith, wisdom, and character for life. When you discover a better path to discipline, you'll find a more well-behaved--and well-believed--kid.

All Kinds of Families! Mary Ann Hoberman,2009-08-01 With irresistible, rollicking rhyme, beloved picture book author Mary Ann Hoberman shows readers that families, large and small, are all around us. From celery stalks to bottle caps, buttons, and rings, the objects we group together form families, just like the ones we are a part of. And, as we grow up, our families grow, too. Mary Ann Hoberman gives readers a sense of belonging in this all-inclusive celebration of families and our role in them.

All Kinds of Families Norma Simon,2016-05-01 Explores in words and pictures what a family is and how families vary in makeup and styles. In a book far ahead of its time, *All Kinds of Families* celebrated the broad diversity of American families when it was first published in 1976. Now Norma Simon and Sarah S. Brannen have updated this classic for the modern age. Multicultural and multigenerational people demonstrate what being in a family means and how all families offer each other support and love.

The Family Book Todd Parr,2011-06-01 There are so many different types of families, and *THE FAMILY BOOK* celebrates them all in a funny, silly, and reassuring way. Todd Parr includes adopted families, step-families, one-parent families, and families with two parents of the same sex, as well as the traditional nuclear family. His quirky humor and bright, childlike illustrations will make children feel good about their families. Parents and teachers can use this book to encourage children to talk about their families and the different kinds of families that exist.

Families Jane Howard,1998-01-01 In *Families* Jane Howard informally visits many dozens of families and tries to discover what makes the best ones work so well. Families are not dying, she finds, although they are evolving in various ways. From the tightest-knit nuclear family or extended clan to the most fragile new commune, the family in one guise or another remains everybody's most basic hold on reality. We may run away from our families as many do, but no sooner do we escape than we find another one, often very much like it. Millions of clans and families all over the United States continue to celebrate, quarrel, disband, reunite, and endure Jane Howard makes us realize how our lives are interwoven both with the families we are born into and with those we invent as we go through life.

All about Families Felicity Brooks,2018-05-18 Families come in all shapes and sizes and from all sorts of backgrounds. They speak various languages, eat different sorts of food, live in different kinds of homes and celebrate special occasions in a variety of ways. This book lets children explore questions such as 'What is a family?', 'What different sorts of families are there?' and more. A entertaining and gently informative book that potrays diverse families and helps children think, talk about and understand difference. Helps children with the 'Understanding the World' part of the Early Years curriculum. Hardback edition of 9781474937085.

Sociology of Families David M Newman,Elizabeth Grauerholz,2002-02-19 Covering a series of issues, this book seeks to reestablish sociology of the family as a key area in undergraduate studies. It provides a theoretical and scholarly overview of the area and includes various essays.

The Great Big Book of Families Mary Hoffman,2015-03-05 What is a family? Once, it was said to be a father, mother, boy, girl, cat and dog living in a house with a garden. But as times have changed, families have changed too, and now there are almost as many kinds of families as colours of the rainbow - from a mum and dad or single

parent to two mums or two dads, from a mixed-race family to children with different mums and dads, to families with a disabled member. Mary Hoffman takes a look through children's eyes at the wide varieties of family life: from homes, food, ways of celebrating, schools and holidays to getting around, jobs and housework, from extended families, languages and hobbies to pets and family trees – and she concludes that, for most people, their own family is the best one of all! With Ros Asquith's delightful pictures, this book takes a fresh, optimistic look at families of today.

Families Can Dan Saks, 2021-04-06 A rhyming, light-hearted celebration of the wonderful differences that make each family unique. A family can be Any kind of number Maybe there's one parent Strong like thunder This charmingly heartfelt board book is for families: families who cook together and families who sing together, families with lots of members and families with a special few, families who live together and families who live separately—for all families. Celebrate the differences that make each family unique and the similarities and love that connect us all together.

Divided Families Frank F. Furstenberg, Andrew J. Cherlin, 1991 Explores the effects of divorce on children and their parents.

All Our Families Jennifer Natalya Fink, 2022-03-22 A provocation to reclaim our disability lineage in order to profoundly reimagine the possibilities for our relationship to disability, kinship, and carework Disability is often described as a tragedy, a crisis, or an aberration, though 1 in 5 people worldwide have a disability. Why is this common human experience rendered exceptional? In All Our Families, disability studies scholar Jennifer Natalya Fink argues that this originates in our families. When we cut a disabled member out of the family story, disability remains a trauma as opposed to a shared and ordinary experience. This makes disability and its diagnosis traumatic and exceptional. Weaving together stories of members of her own family with sociohistorical research, Fink illustrates how the eradication of disabled people from family narratives is rooted in racist, misogynistic, and antisemitic sorting systems inherited from Nazis. By examining the rhetoric of genetic testing, she shows that a fear of disability begins before a child is even born and that a fear of disability is, fundamentally, a fear of care. Fink analyzes our racist and sexist care systems, exposing their inequities as a source of stigmatizing ableism. Inspired by queer and critical race theory, Fink calls for a lineage of disability: a reclamation of disability as a history, a culture, and an identity. Such a lineage offers a means of seeing disability in the context of a collective sense of belonging, as cause for celebration, and is a call for a radical reimagining of carework and kinship. All Our Families challenges us to re-lineate disability within the family as a means of repair toward a more inclusive and flexible structure of care and community.

The Secrets of Happy Families Bruce Feiler, 2013-02-19 In The Secrets of Happy Families, New York Times bestselling author Bruce Feiler has drawn up a blueprint for modern families – a new approach to family dynamics, inspired by cutting-edge techniques gathered from experts in the disciplines of science, business, sports, and the military. Don't worry about family dinner. Let your kids pick their punishments. Ditch the sex talk. Cancel date night. These are just a few of the surprising innovations in this bold first-of-its-kind playbook for today's families. Bestselling author and New York Times family columnist Bruce Feiler found himself squeezed between caring for aging parents and raising his children. So he set out on a three-year journey to find the smartest solutions and the most cutting-edge research about families. Instead of the usual family experts, he sought out the most creative minds—from Silicon Valley to the set of Modern Family, from the country's top negotiators to the Green Berets—and asked them what team-building exercises and problem-solving techniques they use with their

families. Feiler then tested these ideas with his wife and kids. The result is a fun, original look at how families can draw closer together, complete with 200 never-before-seen best practices. Feiler's life-changing discoveries include a radical plan to reshape your family in twenty minutes a week, Warren Buffett's guide for setting an allowance, and the Harvard handbook for resolving conflict. The Secrets of Happy Families is a timely, counterintuitive book that answers the questions countless parents are asking: How do we manage the chaos of our lives? How do we teach our kids values? How do we make our family happier? Written in a charming, accessible style, The Secrets of Happy Families is smart, funny, and fresh, and will forever change how your family lives every day.

Families Susan Kuklin, 2010-02-16 In frank, funny, and touching interviews, children from fifteen different families talk about their home lives. They represent mixed-race and immigrant families; families of gay and lesbian couples; large and small families; religious families; families with adopted children or children with special needs. This book-told in the children's own words, and created in collaboration with them-is a celebration of families of all kinds.

Find Out About: Families Pat-a-Cake, 2020-08-06 There are lots of different kinds of families. Learn all about them in this fun lift-the-flap book.

Modern Families Susan Golombok, 2015-03-12 This book provides an expert view of research on parenting and child development in new family forms.

Whispering the Techniques of Language: An Psychological Quest through **Families**

In a digitally-driven earth wherever screens reign supreme and quick transmission drowns out the subtleties of language, the profound secrets and mental nuances concealed within words often move unheard. Yet, situated within the pages of **Families** a charming fictional prize blinking with natural thoughts, lies an extraordinary journey waiting to be undertaken. Composed by an experienced wordsmith, that enchanting opus encourages viewers on an introspective journey, delicately unraveling the veiled truths and profound influence resonating within the very material of each and every word. Within the emotional depths with this touching evaluation, we shall embark upon a genuine exploration of the book's primary subjects, dissect their interesting publishing design, and succumb to the strong resonance it evokes strong within the recesses of readers' hearts.
