Democratic Republic of São Tomé and Príncipe International Monetary Fund. African Dept.,2017-12-18 This paper discusses São Tomé and Príncipe's Third and Fourth Reviews Under the Extended Credit Facility Arrangement, Extension of the Arrangement, And Modification of Performance Criteria (PCs). Program implementation is broadly back on track. After missing the end-2016 fiscal targets by large margins, the government adopted corrective measures and met all five end-June 2017 PCs. The implementation of structural reforms under the program is progressing, albeit at a much slower pace than anticipated due mainly to capacity constraints and delays in the delivery of technical assistance. The IMF staff recommends the completion of the joint third and fourth reviews, approval of the extension to end-2018, and rephrasing of the program.

Democratic Republic of São Tomé and Príncipe International Monetary Fund. African Dept.,2016-06-17 This paper discusses recent economic developments and economic outlook and risks of São Tomé and Príncipe. Although São Tomé and Príncipe's economic development is constrained by its insularity, fragility, limited resources, and low capacity as a small island state, this African country has made commendable progress toward greater macroeconomic stability. GDP growth has averaged more than 4 percent per year since 2012, faster than many small islands states, but not sufficiently strong and diversified to meaningfully improve economic prospects and reduce poverty significantly. The forthcoming presidential election, with the risk of extra budgetary spending and continued weakness in the banking sector, are the main sources of short-term risks to the economic outlook.
