United States. Federal Communications Commission

Locating Lost Family Members and Friends Kathleen W. Hinckley, 1999 Provides instructions for locating lost family members on the Internet, and demonstrates how to overcome research obstacles. Bibliog.

**The Locator** Troy Dunn, 2000 A step-by-step guide to finding lost family, friends, and loved ones -- anywhere, anytime.

**Emergency Management: Actions to Implement Select Provisions of the Post-Katrina Emergency Act** William O. Jenkins, 2009-12 Hurricane Katrina (HK) severely tested disaster mgmt. at the fed., state, and local levels and revealed weaknesses in the basic elements -- leadership, capabilities, and accountability -- of preparing for, responding to, and recovering from disasters. In October 2006, Congress enacted the Post-Katrina Act to address issues identified in the response to HK. In Nov. 2008, the Dept. of Homeland Security (DHS) and FEMA had preliminary efforts under way to address most of the provisions, but also identified areas that required further action. This statement discusses basic elements related to: (1) findings from the response to HK; (2) provisions of the Post-Katrina Act; and (3) actions DHS and FEMA have taken to implement these provisions.

*Surveillance Futures* Emmeline Taylor, Tonya Rooney, 2016-08-05 From birth to adulthood, children now find themselves navigating a network of surveillance devices that attempt to identify, quantify, sort and track their thoughts, movements and actions. This book is the first collection to focus exclusively on technological surveillance and young people. Organised around three key spheres of children's day-to-day life: schooling, the self and social lives, this book chronicles the increasing surveillance that children, of all ages, are subject to. Numerous surveillance apparatus and tools are examined, including, but not limited to: mobile phones, surveillance cameras, online monitoring, GPS and RFID tracking and big data analytics. In addition to chronicling the steady rise of such surveillance practices, the chapters in this volume identify and problematise the consequences of technological surveillance from a range of multidisciplinary perspectives. Bringing together leading scholars working across diverse fields - including sociology, education, health, criminology, anthropology, philosophy, media and information technology - the collection highlights the significant socio-political and ethical implications of technological surveillance throughout childhood and youth.

Handbook of Mobile Data Privacy Aris Gkoulalas-Divanis, Claudio Bettini, 2018-10-26 This handbook covers the fundamental principles and theory, and the state-of-the-art research, systems and applications, in the area of mobility data privacy. It is primarily addressed to computer science and statistics researchers and educators, who are interested in topics related to mobility privacy. This handbook will also be valuable to industry developers, as it explains the state-of-the-art algorithms for offering privacy. By discussing a wide range of privacy techniques, providing in-depth coverage of the most important ones, and highlighting promising avenues for future research, this handbook also aims at attracting computer science and statistics students to this interesting field of research. The advances in mobile devices and positioning technologies, together with the progress in spatiotemporal database research, have made possible the tracking of mobile devices (and their human companions) at very high accuracy, while supporting the efficient storage of mobility data in data warehouses, which this handbook illustrates. This has provided the means to collect, store and process mobility data of an unprecedented quantity, quality and timeliness. As ubiquitous computing pervades our society, user mobility data represents a very useful but also extremely sensitive source of information. On one hand, the movement traces that are left behind by the mobile devices of the users can be very useful in a wide spectrum of applications such as urban planning, traffic engineering, and environmental pollution management. On the other hand, the disclosure of mobility data to third parties may severely

jeopardize the privacy of the users whose movement is recorded, leading to abuse scenarios such as user tailing and profiling. A significant amount of research work has been conducted in the last 15 years in the area of mobility data privacy and important research directions, such as privacy-preserving mobility data management, privacy in location sensing technologies and location-based services, privacy in vehicular communication networks, privacy in location-based social networks, privacy in participatory sensing systems which this handbook addresses.. This handbook also identifies important privacy gaps in the use of mobility data and has resulted to the adoption of international laws for location privacy protection (e.g., in EU, US, Canada, Australia, New Zealand, Japan, Singapore), as well as to a large number of interesting technologies for privacy-protecting mobility data, some of which have been made available through open-source systems and featured in real-world applications.

Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac Jack W. Plunkett, 2008-08 Market research guide to the wireless access and cellular telecommunications industry ? a tool for strategic planning, competitive intelligence, employment searches or financial research. Contains trends, statistical tables, and an industry glossary. Also provides profiles of 350 leading wireless, Wi-Fi, RFID and cellular industry firms - includes addresses, phone numbers, executive names.

**Transcendent Parenting** Sun Lim, Sun Sun Lim, 2019-12-03 Whether members of the family are headed to school or work, smartphones accompany family members throughout the day. The growing sophistication of mobile communication has unleashed a proliferation of apps, channels, and platforms that link parents to their children and the key institutions in their lives. While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone, they may also feel pressured and overwhelmed by this need to always be on call for their children. This book focuses on the phenomenon of transcendent parenting, where parents actively use technology to go beyond traditional, physical practices of parenting. In drawing on the experiences of intensely digitally-connected families in Singapore to tell a global story, Sun Sun Lim argues how transcendent parenting can embody and convey, intentionally or not, the parenting priorities in these households. Chapters outline how parents exploit mobile connectivity to transcend the physical distance between themselves and their children, the online and offline social interaction environments, and the timelessness of seemingly ceaseless parenting. Transcendent Parenting further explores how mobile communication allows parents to be more involved than ever in their children's lives, leaving readers to question whether or not parents have become too involved as a result. With its clear discussions of the effects of transcendent parenting on parents' wellbeing and children's personal development, Transcendent Parenting will appeal to a broad audience of readers, from scholars, educators and policy makers to parents and young people across the globe.

The Locator Steven Weisz, 2002-01-01

**Everyday Surveillance** William G. Staples, 2013-10-18 When we think of surveillance in our society, we usually imagine "Big Brother" scenarios with the government tracking our every move. The actual surveillance of our everyday lives is much more subtle, however, and may be more insidious. William G. Staples shows how our lives are tracked by both public and private organizations—sometimes with our consent, and sometimes without—through our internet use, cell phones, public video cameras, credit cards, license plates, shopping habits, and more. Everyday Surveillance is a provocative exploration of the myriad ways we are watched each day, and how this surveillance shapes our lives. Thoroughly revised, the second edition considers new topics, such as the rise of social media, and updates research throughout. Everyday Surveillance introduces students to concepts of social control and incites classroom discussion about how surveillance impacts the

ways we understand people and our lives at home, work, school, or in the community.

*Supporting Life Skills for Children and Young People with Vision Impairment and Other Disabilities* Fiona Broadley, 2022-12-29 This practical resource is designed to help professionals, parents, and carers on their journey to independence with children and young people with vision impairments. Building on the ideas and practices introduced in *Supporting Life Skills for Young Children with Vision Impairment and Other Disabilities*, this book addresses middle childhood, the period from when the child starts school, through to the onset of puberty. It offers a wealth of practical strategies and activities to enhance key skills, including personal safety, advanced dressing, personal hygiene, dealing with puberty, social skills, time, money and organisational skills, eating, drinking and food preparation skills, and the transition to secondary school. This book: Addresses the main independent living skills areas for vision impaired children in middle childhood, by providing simple explanations of skills and offering practical strategies and techniques to support progression onto the next stage. Is written in a fully accessible style, with photocopiable pages and additional downloadable eResources. Provides a variety of documentation to chart the child's development and show progress over time. This invaluable resource puts the changes that occur during middle childhood into context and will help busy professionals, families and carers start preparing children with a vision impairment for adulthood, allowing them to become confident and independent individuals.

*Social Location Marketing* Simon Salt, 2011-01-25 Front cover "Too many people are running around nowadays calling themselves 'social media experts.' Simon doesn't call himself that. His clients do. And they're right. I'll read anything this man writes." -Peter Shankman Back cover Social Location Marketing Breakthrough social location marketing techniques for promoting your service, product, or venue! Social Location Marketing offers powerful new ways to promote practically any product, service, or venue. Now, pioneering expert Simon Salt shows exactly how to make the most of it! Salt introduces Foursquare, Gowalla, Yelp, and other apps, helping you choose your best options, and build cost-effective marketing programs that work. Through real examples, you'll learn how to reach your key audiences and segments...craft and execute winning strategies on realistic budgets...measure activity and calculate ROI...avoid costly mistakes...and much more! Whatever your goal, role, or industry, this book will help you find new customers where they are, strengthen loyalty and retention, and supercharge profits! You'll Learn How To: • Understand how social location marketing works and what it can (and can't) do for your business • Learn the surprising realities about who uses social location software • Know your customers and their motivations-and build marketing plans around them • Develop communities of customer advocates who'll work on your behalf • Use games, competitions, time-limited offers, and other innovative approaches • Successfully reach teens, tweens, women, or men • Discover proven approaches for fashion, retail, hospitality, and restaurants • Effectively handle criticism, and transform negatives into positives • Preview brand-new social location tools, including Google Hotpot • Understand the privacy issues associated with social location marketing SIMON SALT is a key social media influencer who works with large brands and international PR companies. After participating in three succes1tups, he now leads his own marketing communications firm, whose client list includes Fortune® 500 companies. Salt is now conducting a Social Media roadshow, speaking on social location sharing across the United States. He has spoken at major conferences including BlogWorld, Internet Summit, and will speak at SXSW 2011.

**FCC Record** United States. Federal Communications Commission, 2014

**Big Brother** Mark Dice, 2011-01 In *Big Brother: The Orwellian Nightmare Come True*, Mark Dice details actual NSA high-tech spy systems, mind-reading machines, secret government projects, and emerging artificial intelligence programs that seem as if they came right out of George Orwell's novel *Nineteen Eighty-Four*. Orwell's famous book was first published in 1949, and tells the story of a nightmarish future where citizens have lost all privacy and are continuously monitored by the omniscient Big Brother surveillance system which keeps them obedient to a totalitarian government. The novel is eerily prophetic as many of the fictional systems of surveillance described have now become a reality. Mark Dice shows you the scary documentation that Big Brother is watching you, and is more powerful than you could imagine. - The National Security Agency - Facial Recognition Scanners - Mind Reading Machines - Neural Interfaces - Psychotronic Weapons - Orwellian Government Programs - The Nanny State - Orwellian Weapons - Artificial Intelligence - Cybernetic Organisms - A Closer Look at 1984 - Our Social Structure - The Control of Information - Perpetual State of War - The Personification of the Party - Telescreens - A Snitch Culture - Relationships in Shambles - A Heartless Society - Foreign Countries Painted as Enemies - Power Hungry Officials - An Erosion of the Language - Double Think - And More! By the author of *The Illuminati: Facts & Fiction*

**The Final Countdown Vol.3** Billy Crone, 2018-01-02 Because God loves us, He has given us many warning signs to show us that the 7-year Tribulation is near and that the return of Jesus Christ is rapidly approaching. Therefore, *The Final Countdown* takes a look at 10 signs given by God to lovingly wake us up so we'd give our lives to Him before it's too late. These signs are the Jewish People, Modern Technology, Worldwide Upheaval, The Rise of Falsehood, The Rise of Wickedness, The Rise of Apostasy, One World Religion, One World Government, One World Economy, and The Mark of the Beast. Like it or not, we are headed for *The Final Countdown*. Please, if you've haven't already done so, give your life to Jesus today, because tomorrow may be too late!

**Intelligent Systems and Applications** Yaxin Bi, Rahul Bhatia, Supriya Kapoor, 2019-08-23 The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence, and their real-world applications. It gathers the proceedings of the Intelligent Systems Conference 2019, which attracted a total of 546 submissions from pioneering researchers, scientists, industrial engineers, and students from all around the world. These submissions underwent a double-blind peer-review process, after which 190 were selected for inclusion in these proceedings. As intelligent systems continue to replace and sometimes outperform human intelligence in decision-making processes, they have made it possible to tackle a host of problems more effectively. This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends. This book collects both theory and application based chapters on virtually all aspects of artificial intelligence; presenting state-of-the-art intelligent methods and techniques for solving real-world problems, along with a vision for future research, it represents a unique and valuable asset.

**Digital Cop** Sahil Baghla and Arun Soni, 2015-09-07 Authors and ardent techies, Sahil Baghla and Arun Soni share their innate wisdom on protecting yourself and your family from certain vices of technology. They also show us how to make the most of it! With just a little help from our trusty computers and smart phones, the duo educate us on a variety of practical applications and online safeguards to help us get the best out of technology and not get beat down by it. \*Did you know that there are actually applications to enable us to send a 'self-destruct' message? \*Did you know that you can convert your free time into a lucrative career by getting genuine work online? \*Why and

how is your computer susceptible to a virus, and how can you prevent people from hacking into your email account? \*How do you track someone's location using their phone GPS, and how do you use your smart phone to check for hidden cameras? These are only some of the questions to which you will finally have the answers! From the ordinary and practical to the amusing, they give you solutions that range from the mundane to the ingenious! And in a language that's simple, and easy to follow ... Read on. 'Digital Cop' promises to serve and cyber secure everyone!
