Classical Music Phil G. Goulding,2011-03-16 MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's Rite of Spring cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, Classical Music provides such essential information as: * Rankings of the top 50 composers (Bach is #1. Borodin is #50) * A detailed and anecdotal look at each composer's life and work * The five primary works of each composer and specific recommended CDs for each. * Further great works of each composer--if you really like him * Concise explanations of musical terminology, forms, and periods * A guide to the parts and history of the symphony orchestra This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads. --The Washington Post One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature....[He] has raised music appreciation from a racket to a service. --The Arizona Daily Star

The Life and Death of Classical Music Norman Lebrecht,2007-04-10 In this compulsively readable, fascinating, and provocative guide to classical music, Norman Lebrecht, one of the world's most widely read cultural commentators tells the story of the rise of the classical recording industry from Caruso's first notes to the heyday of Bernstein, Glenn Gould, Callas, and von Karajan. Lebrecht compellingly demonstrates that classical recording has reached its end point—but this is not simply an exposé of decline and fall. It is, for the first time, the full story of a minor art form, analyzing the cultural revolution wrought by Schnabel, Toscanini, Callas, Rattle, the Three Tenors, and Charlotte Church. It is the story of how stars were made and broken by the record business; how a war criminal conspired with a concentration-camp victim to create a record empire; and how advancing technology, boardroom wars, public credulity and unscrupulous exploitation shaped the musical backdrop to our modern lives. The book ends with a suitable shrine to classical recording: the author's critical selection of the 100 most important recordings—and the 20 most appalling. Filled with memorable incidents and unforgettable personalities—from Goddard Lieberson, legendary head of CBS Masterworks who signed his letters as God; to Georg Solti, who turned the Chicago Symphony into “ the loudest symphony on earth”—this is at once the captivating story of the life and death of classical recording and an

opinioned, insider’s guide to appreciating the genre, now and for years to come.
