Walter E. Sellers

In the Blood Robert Wuthnow,2020-08-04 A vivid and moving portrait of America's farm families Farming is essential to the American economy and our daily lives, yet few of us have much contact with farmers except through the food we eat. Who are America's farmers? Why is farming important to them? How are they coping with dramatic changes to their way of life? In the Blood paints a vivid and moving portrait of America's farm families, shedding new light on their beliefs, values, and complicated relationship with the land. Drawing on more than two hundred in-depth interviews, Robert Wuthnow presents farmers in their own voices as they speak candidly about their family traditions, aspirations for their children, business arrangements, and conflicts with family members. They describe their changing relationships with neighbors, their shifting views about religion, and the subtle ways they defend their personal independence. Wuthnow shares the stories of farmers who operate dairies, raise livestock, and grow our fruit and vegetables. We hear from corn and soybean farmers, wheat-belt farmers, and cotton growers. We gain new insights into how farmers assign meaning to the land, and how they grapple with the increasingly difficult challenges of biotechnology and global markets. In the Blood reveals how, despite profound changes in modern agriculture, farming remains an enduring commitment that runs deeply in the veins of today's farm families.

Invasion USA David J. Hogan,2017-10-12 With the queasy U.S.-Soviet wartime alliance long dissolved into mutual suspicion, the House Un-American Activities Committee launched aggressive investigations of alleged communist activity in the Hollywood film industry in 1947--and again in 1951. Studio chiefs, terrified of scandal, scrambled to display their patriotism by producing anti-communist films, from melodramas to thrillers to animated cartoons. Twenty-one lively new essays by film historians examine the aesthetics and politics of more than 40 remarkable films of the McCarthy era and the chauvinism that spawned them.

Invasion Usa: Border War William W. Johnstone,2012-06-06 When a Mexican gang hijacks a school bus full of American school girls, a Vietnam vet takes matters into his own deadly hands in this border thriller. The gang of kidnappers is led by the ruthless crime lord Alphonso Guerrero, whose daughter is on that bus. His ex-wife took his daughter back to the States, but Alphonso wants her back—and will stop at nothing to get her. Now he's got a devil's bounty of young women to be used as hostages, or sold into the horrors of slavery if his demands are not met. But Vietnam vet Tom Brannon has something to say about this. His niece is on that school bus, so he's recruiting a battle-tough squad of ex-soldiers made up from the families of the kidnapped girls. They're going to rescue the girls

and destroy Guerrero and his gang of border thugs once and for all.

The Farm at Holstein Dip Carroll Engelhardt, 2012-08-15 Carroll Engelhardt's parents grew up in homes without electricity on farms without tractors and began farming in the same way. As a farm boy in northeastern Iowa, he thought that history happened only to important people in earlier times and more exotic places. After decades of teaching, he at last perceived that history happens to us all, and he began writing this book. Set within the thoughtfully presented contexts of the technological revolution in American agriculture, the Second World War, the Cold War, and the emerging culture of affluence, *The Farm at Holstein Dip* is both a loving coming-of-age memoir and an educational glimpse into rural and small-town life of the 1940s and 1950s. Engelhardt writes about growing up in a spacious farmhouse where life was centered in the kitchen and frugality dictated that every purchase be weighed carefully. His chores grew up with him: he fed chickens and gathered eggs at age six, rode a horse on the hayfork at nine or ten, milked cows by hand at eleven, and hired out to other farmers to load bales in the field and work in the haymow at fifteen. The simple pleasures and predictable routines of a Saturday night at the movies in nearby Elkader, Pioneer Days on the 4th of July, Confirmation Sunday, class picnics, and baseball and basketball games play out against a background of rural decline, alternating economic uncertainty and prosperity, and Cold War anxiety—next to polio, he most feared Communist subversion and atomic blasts. The values and contradictions imparted by this evolving mix of international, national, and local cultures shaped his coming of age. Engelhardt brings us into the world of his fourth-generation farm family, who lived by the family- and faith-based work ethic and concern for respectability they had inherited from their German and Norwegian ancestors. His writing has a particularly Iowa flavor, a style that needs no definition to those who live in the state. Readers will discover the appeal of his wry, humorous, and kind observations and appreciate his well-informed perspective on these transformative American decades.
