**Irresistible Apps** Chris Lewis,2014-03-18 When you create an app, a website, or a game, how do you attract users, and perhaps more importantly, how do you keep them? Irresistible Apps explains exactly how to do this using a library of 27 motivational design patterns and real-world examples of how they work. As a developer, you need to retain users in the new economy of advertisements, subscriptions, and in-app purchases, but how do you do this? How do some applications keep users coming back? Why do people spend hours and hours playing World of Warcraft? Why do people care about Reddit karma? What makes customers keep buying from Amazon? Why do so many people love Khan Academy? The answers are found in Gameful, Social, Interface, and Information patterns. Not only will you learn about these patterns, you'll also learn why they work using psychological theories of intrinsic motivation, behavioral psychology, and behavioral economics. Good and bad implementations of the patterns are shown so practitioners can use them effectively and avoid pitfalls along the way.

**Southern Stalemate** Christopher Bonastia,2012-01-11 In 1959, Virginia's Prince Edward County closed its public schools rather than obey a court order to desegregate. For five years, black children were left to fend for themselves while the courts decided if the county could continue to deny its citizens public education. Investigating this remarkable and nearly forgotten story of local, state, and federal political confrontation, Christopher Bonastia recounts the test of wills that pitted resolute African Americans against equally steadfast white segregationists in a battle over the future of public education in America. Beginning in 1951 when black high school students protested unequal facilities and continuing through the return of whites to public schools in the 1970s and 1980s, Bonastia describes the struggle over education during the civil rights era and the human suffering that came with it, as well as the inspiring determination of black residents to see justice served. Artfully exploring the lessons of the Prince Edward saga, Southern Stalemate unearths new insights about the evolution of modern conservatism and the politics of race in America.

*Platforms and Cultural Production* Thomas Poell,David B. Nieborg,Brooke Erin Duffy,2021-10-14 The widespread uptake of digital platforms - from YouTube and Instagram to Twitch and TikTok - is reconfiguring cultural production in profound, complex, and highly uneven ways. Longstanding media industries are experiencing tremendous upheaval, while new industrial formations - live-streaming, social media influencing, and podcasting, among others - are evolving at breakneck speed. Poell, Nieborg, and Duffy explore both the processes and the implications of platformization across the cultural industries, identifying key changes in markets, infrastructures, and governance at play in this ongoing transformation, as well as pivotal shifts in the practices of labor, creativity, and democracy. The authors foreground three particular industries - news, gaming, and social media creation - and also draw upon examples from music, advertising, and more. Diverse in its geographic scope, Platforms and Cultural Production builds on the latest research and accounts from across North America, Western Europe, Southeast Asia, and China to reveal crucial differences and surprising parallels in the trajectories of platformization across the globe. Offering a novel conceptual framework grounded in illuminating case studies, this book is essential for students, scholars, policymakers, and practitioners seeking to understand how the institutions and practices of cultural production are transforming - and what the stakes are for understanding platform power.

The private and public papers of such Southern leaders as Calhoun, Davis, and Lee will reveal, as nothing else can, the principles for which they contended, and give to posterity the true estimate of their lives and deeds. -- Introduction.
