Fashioning Fat Amanda M. Czerniawski,2015-01-30 For two and a half years, Amanda Czerniawski was a sociologist turned plus-size model. Journeying into a world where, as a size 10, she was not considered an average body type, but rather, for the fashion industry, “plus-sized,” Czerniawski studied the standards of work and image production in the plus-sized model industry. Fashioning Fat takes us through a model’s day-to-day activities, first at open calls at modeling agencies and then through the fashion shows and photo shoots. Czerniawski also interviewed 35 plus-size models about their lives in the world of fashion, bringing to life the strange contradictions of being an object of non-idealized beauty. Fashioning Fat shows us that the mission of many of these models is to challenge our standards of beauty that privilege the thin body; they show us that fat can be sexy. Many plus-size models do often succeed in overcoming years of self-loathing and shame over their bodies, yet, as Czerniawski shows, these women are not the ones in charge of beauty’s construction or dissemination. At the corporate level, the fashion industry perpetuates their objectification. Plus-size models must conform to an image created by fashion’s tastemakers, as their bodies must fit within narrowly defined parameters of size and shape—an experience not too different from that of straight-sized models. Ultimately, plus-size models find that they are still molding their bodies to fit an image instead of molding an image of beauty to fit their bodies. A much-needed behind-the-scenes look at this growing industry, Fashioning Fat is a fascinating, unique, and important contribution to our understanding of beauty. Instructor's Guide

Fashioning Models Joanne Entwistle,Elizabeth Wissinger,2013-07-18 The fashion model's hold on popular consciousness is undeniable. How did models emerge as such powerful icons in modern consumer culture? This volume brings together cutting-edge articles on fashion models, examining modelling through race, class and gender, as well as its structure as an aesthetic marketplace within the global fashion economy. Essays include treatments of the history of fashion modelling, exploring how concerns about racial purity and the idealization of light skinned black women shaped the practice of modelling in its early years. Other essays examine how models have come to define femininity through consumer culture. While modelling's global nature is addressed throughout, chapters deal specifically with model markets in Australia and Tokyo, where nationalist concerns colour what is considered a pretty face. It also considers how models glamorize consumption through everyday activities, and neoliberal labour forms via reality TV. With commentaries from industry professionals who experienced the cultural juggernaut of the supermodels, the final essay situates their impact within the rise of brand culture and the globalization of fashion markets since 1990. Accessible and highly engaging, Fashioning Models is essential reading for students and scholars of fashion and related disciplines.

This Year's Model Elizabeth Wissinger,2015-09-18 Over the last four decades, the fashion modeling industry has become a lightning rod for debates about Western beauty ideals, the sexual objectification of women, and consumer desire. Yet, fashion models still captivate, embodying all that is cool, glam, hip, and desirable. They are a fixture in tabloids, magazines, fashion blogs, and television. Why exactly are models so appealing? And how do these women succeed in so soundly holding our attention? In This Year’s Model, Elizabeth Wissinger weaves together in-depth interviews and research at model castings, photo shoots, and runway shows to offer a glimpse into the life of the model throughout the 20th and 21st centuries. Once an ad hoc occupation, the “model life” now involves a great deal of physical and virtual management of the body, or what Wissinger terms “glamour labor.” Wissinger argues that glamour labor—the specialized modeling work of self-styling, crafting a ‘look,’ and building an image—has been amplified by the rise of digital media, as new technologies make tinkering with the body’s form and image easy. Models can now present self-fashioning, self-surveillance, and self-branding as essential behaviors for anyone who is truly in the know and ‘in fashion.’ Countless regular people make it their mission to achieve this ideal, not realizing that technology is key to creating the unattainable standard of beauty the model upholds—and as Wissinger argues, this has been the case for decades, before Photoshop even existed. Both a vividly illustrated historical survey and an incisive critique of fashion media, This Year’s Model demonstrates the lasting cultural influence of this unique form of embodied labor.

Nathalie - Confessions of a Fashion Model Nathalie Augustina, 2018-02-06 This book tells the story of Nathalie, a fashion model who has been celebrated for her striking physical beauty. She did shootings for many prestigious magazines and photographers, and she has been booked for important fashion and jewelry shows to the huge fashion catalogs worldwide. Nathalie did shows for Dior, Cartier, Issey Miyake, Chanel, Kenzo, Comme des Garçons and many other famous designers. She was also booked by Diners Club for luxury fashion catalogs which are exclusively made and only available for the high class society. Many think that fashion models lead a glamorous life. In this book you will learn that not everything is about glamour and fame. In the Fashion industry there are countless dangers. After Nathalie became the darling of high ranking politicians, moguls, powerful business executives, famous actors, Royalties and members of some of the richest families of this world, she was drugged for elite sex parties and raped by many of them. Most modeling agencies are nothing less than whorehouses, and bookers are their pimps. Models are beaten, get their faces cut up or will be killed if they dare to tell the truth. Many of them died falling from a balcony or in other mysterious ways. Other models did disappear before they got the chance to reveal what is going on behind the scenes. They have never been found. It is very dangerous for young girls and boys to become part of the fashion world. There is no one who protects them. After reading this book, you will understand that the models agencies cannot be trusted. They are the last to protect the young models. In this book you will not only gain insights into the world of the Fashion industry, it is also an outstanding piece of information about Monarch Total Mind Control programming. Nathalie was not just a fashion model. Special mind control programs play an important role in the world of fashion. Like many models, Nathalie has undergone Monarch mind control programming. This program is able to divide the human psyche into multiple personalities (MPD), all within the same individual. Each personality is able to take over one's consciousness at any given moment. Nathalie has been programmed multifunctional. She has unique features to her system of personalities. She not only has standard Monarch programming, one of the multiple personalities (programmed alters) created within Nathalie was a programmed high class Beta sex slave, exclusively for the super rich. The primary function of Beta models is to provide perverted sex and Sadism and Masochism. Her story shows that she has undergone the Delta military programming as well. She has a special knowledge about warfare, all sorts of military weapons, different guns and ammunition. One of her other personalities knows Secret Codes for Access to internal computers of intelligence agencies. During her career as a fashion model, Nathalie not only has been used by the sex industry, but she has been used also by several organizations in fields such as the military and intelligence agencies. Nathalie has gone through a lot. She did not know that the source of many of the incomprehensible events had to do with her programming. She had no idea that she was a programmed Monarch slave. Nathalie woke up at the age of 36, after having flashbacks. Occurrences that she is aware of nowadays were unknown to her in the past. This is reflected in her story. In this book you will not only gain important insights into the world of the Fashion industry, it is also an outstanding piece of information about Monarch Mind Control.
