Oracle Solaris 11 System Administration Bill Calkins,2013 Oracle® Solaris 11 System Administration covers every skill required to effectively install and administer the Oracle® Solaris 11.1 operating system in production environments. It features dozens of step-bystep "learn by example" procedures, demonstrating how to apply complex solutions in real-world data center environments. Author Bill Calkins has administered and taught Oracle Solaris and its predecessors for more than twenty years. He also helped develop the newest Oracle Certified Associate (OCA) and Oracle Certified Professional (OCP) exams, which raise the bar for Solaris certification. This guide covers every new 1Z0-821 exam topic in detail and also covers many 1Z0-822 exam topics. Calkins also reviews the changes that system administrators will face when upgrading to Solaris 11.1 and presents new ways to perform familiar tasks on both SPARC and x86 hardware. You'll learn how to Install the Solaris 11 Operating Environment with Live Media or Text Interactive installers Install, manage, and update software with the Image Packaging System and IPS repositories Understand, customize, and troubleshoot SPARC and x86 boot processes from system power-up to loading the OS (including coverage of ILOM, OpenBoot, and GRUB 2) Administer and create services through the service management facility (SMF) Configure system messaging using SMF notifications, syslog and rsyslog Configure and administer ZFS storage pools, including ZFS on the boot drive, local disks, LUNs, and a SAN Configure and manage ZFS file systems: encryption, redundancy, snapshots, clones, network sharing, monitoring, device replacement, and legacy UFS migration Create, migrate, contain, and administer zones, including solaris10 branded and immutable zones Use RBAC to create custom rights profiles and grant special privileges Manage and monitor system process scheduler (including FSS process schedulers and proc tools) Configure Solaris networking and network services, including Reactive and Fixed Network Configurations, VNICs, and Virtual Networking A companion website (unixed.com/solaris11book.html) includes new 1Z0-821 and 1Z0-822 study strategies and self-assessment exams.

Instant Recovery with Write-Ahead Logging Goetz Graefe,Wey Guy,Caetano Sauer,2022-05-31 Traditional theory and practice of write-ahead logging and of database recovery focus on three failure classes: transaction failures (typically due to deadlocks) resolved by transaction rollback; system failures (typically power or software faults) resolved by restart with log analysis, redo, and undo phases; and media failures (typically hardware faults) resolved by restore operations that combine multiple types of backups and log replay. The recent addition of single-page failures and single-page recovery has opened new opportunities far beyond the original aim of immediate, lossless repair of single-page wear-out in novel or traditional storage hardware. In the contexts of system and media failures, efficient single-page recovery enables on-demand incremental redo and undo as part of system restart or media restore operations. This can give the illusion of practically instantaneous restart and restore: instant restart permits processing new queries and updates seconds after system reboot and instant restore permits resuming queries and updates on empty replacement media as if those were already fully recovered. In the context of node and network failures, instant restart and instant restore combine to enable practically instant failover from a failing database node to one holding merely an out-of-date backup and a log archive, yet without loss of data, updates, or

transactional integrity. In addition to these instant recovery techniques, the discussion introduces self-repairing indexes and much faster offline restore operations, which impose no slowdown in backup operations and hardly any slowdown in log archiving operations. The new restore techniques also render differential and incremental backups obsolete, complete backup commands on a database server practically instantly, and even permit taking full up-to-date backups without imposing any load on the database server. Compared to the first version of this book, this second edition adds sections on applications of single-page repair, instant restart, single-pass restore, and instant restore. Moreover, it adds sections on instant failover among nodes in a cluster, applications of instant failover, recovery for file systems and data files, and the performance of instant restart and instant restore.

Dependable Computing - EDDC-3 Jan Hlavicka,Erik Maehle,Andras Pataricza,2003-06-26 The idea of creating the European Dependable Computing Conference (EDCC) was born at the moment when the Iron Curtain fell. A group of enthusiasts, who were pre viously involved in research and teaching in the ?eld of fault tolerant computing in different European countries, agreed that there is no longer any point in keeping pre viously independent activities apart and created a steering committee which took the responsibility for preparing the EDCC calendar and appointing the chairs for the in dividual conferences. There is no single European or global professional organization that took over the responsibility for this conference, but there are three national in terest groups that sent delegates to the steering committee and support its activities, especially by promoting the conference materials. As can be seen from these materi als, they are the SEE Working Group "Dependable Computing" (which is a successor organizationof AFCET)in France,theGI/ITG/GMATechnicalCommitteeonDepend ability and Fault Tolerance in Germany, and the AICA Working Group "Dependability of Computer Systems" in Italy. In addition, committees of several global professional organizations, such as IEEE and IFIP, support this conference. Prague has been selected as a conference venue for several reasons. It is an easily accessible location that may attract many visitors by its beauty and that has a tradition in organizing international events of this kind (one of the last FTSD conferences took place here).

  Intelligent Computing Kohei Arai,2021-07-12 This book is a comprehensive collection of chapters focusing on the core areas of computing and their further applications in the real world. Each chapter is a paper presented at the Computing Conference 2021 held on 15-16 July 2021. Computing 2021 attracted a total of 638 submissions which underwent a double-blind peer review process. Of those 638 submissions, 235 submissions have been selected to be included in this book. The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences. We hope that readers find this volume interesting and valuable as it provides the state-of-the-art intelligent methods and techniques for solving real-world problems. We also expect that the conference and its publications is a trigger for further related research and technology improvements in this important subject.

  Fast Like a Girl Dr. Mindy Pelz,2022-12-27 INTERNATIONAL BESTSELLER! WALL STREET JOURNAL BESTSELLER! PUBLISHER'S WEEKLY BESTSELLER! Includes a 30-Day

fasting reset that uses the power of your cycle—even if you no longer have one! A go-to fasting manual created specifically to address women's needs based on their hormones and menstrual cycle by Dr. Mindy Pelz, a well-known expert on women and fasting, whose fast-growing YouTube channel has become the destination for women who want to learn about fasting. Are you among the many women who feel unheard and unseen by their doctors and health professionals? Have you become exhausted by the promise of quick-fix diets that only leave you disappointed? Well in Fast Like a Girl, Dr. Mindy helps you to take back control of your health by using the quickest path back to better health—fasting. While most fasting advice has been a one-size-fits-all approach that leaves women with more questions than answers, in this book Dr. Mindy shares the proven strategies, specific protocols to use if you are trying to overcome a condition, fasting hacks, and tools that she has used to help hundreds of thousands of women thrive with their fasting lifestyles. Dr. Mindy will teach you: the rights steps on how to go from eating all day to intermittent fasting (13-15 hours) how to safely fast longer if you choose to do so (15-72 hours) how to time fasting according to your menstrual cycle (although if you don't have a cycle, she has you covered) the best foods to break your fast to achieve better metabolic health This book also includes more than 50 recipes based on the two food plans—ketobiotic and hormone feasting—she created to best support women's hormones. And, it has recipes specifically created to break a fast such as her Coconut Cacao Chia Pudding. Inspired by the thousands of women she has worked with who have reclaimed their health with fasting, Dr. Mindy wrote this book because, "once a woman knows how to build a fasting lifestyle around her cycle, she becomes unstoppable."

Eat Less, Move More, Don't Diet: Natural Weight Loss and Fitness Tips for

the Whole Family Randy Lauritzen,Amy Lauritzen,2012-08-21 Amy and Randy are a 40ish, middle class American couple living in Florida with five children, one daughter-in-law, and three grandchildren. Randy works as a Network Security Admin and Web Developer, so Amy can stay at home. Amy comes from a strong Northern Wisconsin-Polish background and was raised to show love with food—more butter, more sugar, sausage, Pierogies, etc. It didn't take long for Amy to start showering Randy with three full meals a day plus desserts and treats. Over the course of four years, Amy fattened him up to well over 300 pounds! Then Randy started having chest pains, so he went to the doctor. He was a young man in his thirties with somewhat high LDL (bad) cholesterol and EXTREMELY low (good) HDL cholesterol, which put him at high risk for a heart attack. It was scary, especially with four children in the house. Amy was literally loving her husband to death, so they had to make a change. She had to cook healthier foods. But Randy was spoiled with treats, and there was no way he was going to eat salad and drink diet soda. With that in mind, they took it slowly-really, really slowly. It took about two years. Randy lost over 120 pounds, and his cholesterol is healthy. He runs 5 to 10K four times a week and hits the weights pretty hard. There are no tricks to it, no special diets to follow or some voodoo gimmick that will make the pounds disappear. As Amy and Randy learned more about healthy living, the sneaky people started to stand out. There were so many of them preying on others with promises to make you thin and beautiful if you just pay their price. Thus, the creation of Health-Actually.com. Amy and Randy share products they tried, exercise that worked, and recipes that fit it into their family. Their goal: to make your life better by offering you the long version of how they did it.

  Building a Windows HTPC Terry Walsh,2014-02-02 Building a Windows Home Theatre PC is We Got Served's definitive guide to planning, building, installing and using a Windows-based home theatre PC. If you're serious about streaming and managing your music and movies collection, then a Home Theatre PC (HTPC) puts you firmly in control. Sure, you can stream media on Connected TVs, Blu-ray players and other receivers but you have limited opportunities to customise and tailor those offerings to your needs, your family's needs and the needs of your home. Depending on your choice, you get these services, miss out on those services and are reliant on a benevolent manufacturer to continue adding new apps and maintaining existing apps. But a HTPC with a small footprint – powerful and silent hardware running slick, easy to manage media center software is not a dream. It's available for you today. Right now. You can build the hardware you want, install the services you prefer and play the media you love. In this 513 page guide, we walk you step by through creating a first-class, small and mighty HTPC – you'll plan the specifications, components and form factor you need, select the hardware and learn how to assemble a barebones kit (such as our reference build, an Intel NUC HTPC) or build a PC from scratch. From there, we deep dive into maximising performance of your HTPC through tweaking motherboard settings and installing Intel's Rapid Start and Smart Connect management applications. We'll install the latest release of Windows and configure the operating system for HTPC use, tailoring settings to support DTS and Dolby Digital audio, then enhancing video support for Blu-ray disc. With support for Blu-ray on board, you'll be guided through advanced topics like region unlocking

and DVD/Blu-ray ripping to a choice of formats, including MKV, BDMV and ISO for streaming in your favourite media center software. We install USB and Network TV Tuners for configuring Live and Recorded TV and use DVBLink to integrate our channels and EPG into a variety of popular media applications. If you think we're done, then hold on! The guide takes a detailed look at configuring a universal remote control (the Logitech Harmony Hub) for use with our HTPC and look at various ways to download and manage music, video and TV metadata for our media collection. You'll learn the basics of popular file downloaders SABnzbd and uTorrent and we wrap up with a comprehensive review of leading media center packages Plex Media Server and XBMC. Building a Windows Home Theatre PC is packed with tips, tricks and tutorials to help you build a kick-ass home theatre PC that will last you for years to come! Chapters Chapter 1: Consider the Environment Chapter 2: Selecting Your HTPC Hardware Chapter 3: Assemble a Barebones HTPC Chapter 4: Build Your HTPC From Scratch Chapter 5: Configure Your UEFI Motherboard Chapter 6: Maximise Responsiveness With Intel Rapid Start and Smart Connect Chapter 7: Install Windows 8.1 Chapter 8: Configure Windows Audio for DTS and Dolby Digital Surround Sound Support Chapter 9: Enhancing Windows Video and Blu-ray Support Chapter 10: Rip Your DVDs and Blu-rays for Viewing Any Time Chapter 11: View Live and Recorded TV on Your HTPC Chapter 12: Configure a Logitech Harmony Remote to Control Your HTPC Chapter 13: Manage Your Music Metadata Chapter 14: Automatically Collate and Manage Movie & TV Metadata Chapter 15: Flex Your Media Muscles With Plex Chapter 16: Download Files on Your HTPC With SABnzbd Chapter 17: Install a BitTorrent Client Chapter 18: Using XBMC Step by Step
