Written with the Senior reader in mind and presented in larger type for easier reading. In the digital world there is sometimes one event that can propel a technology to the forefront of the public's awareness. In the case of video chatting this has been the Covid-19 pandemic. Video chatting has been used, in one form or another, for many years, but it was not until the pandemic that it became an invaluable tool for millions of people around the world, for keeping in touch with family and friends. As with most forms of popular technology, there are a number of elements to consider to successfully engage with the video chatting revolution. These include: The different devices that can be used for video chatting. Getting connected for video chatting, both at home using Wi-Fi, and mobile connections for when you are out and about. Video chatting apps that provide the means to communicate with family and friends. Video Chatting for Seniors in easy steps is the ideal companion to help you navigate the expanding world of video communication, covering the following areas: Finding the right equipment for successful video chatting. Following good etiquette so that your video chats go as smoothly as possible. Getting set up with your video chatting apps. Undertaking video chats with individuals and groups. Using text chat to enhance the video chatting experience. Making audio calls using video chatting apps. A detailed look at the most popular video chatting apps: Zoom; FaceTime; Skype; and Facebook Messenger. Looking at other video chatting apps, to expand the possibilities for communicating with family and friends. Video chatting on a range of digital devices is very much here to stay and, with Video Chatting for Seniors in easy steps by your side, you will be able to fully embrace it and be communicating like an expert with sound and vision.

Power, Policy and Profit Christina Garsten, Adrienne Sörbom, Power, Policy and Profit investigates the manifold ways in which corporate actors attempt to broadly influence political activities. With intensified globalization of markets, the restructuring of provisions of welfare services and accumulation of private capital opportunities for corporate influence in politics affairs have multiplied. Bringing together scholars from different fields in the study of global governance, the volume addresses the rising influence and power of corporate actors on the national and transnational political scene.

Deep Learning for Coders with fastai and PyTorch Jeremy Howard, Sylvain Gugger, 2020-06-29 Deep learning is often viewed as the exclusive domain of math PhDs and big tech companies. But as this hands-on guide demonstrates, programmers comfortable with Python can achieve impressive results in deep learning with little math background, small amounts of data, and minimal code. How? With fastai, the first library to provide a consistent interface to the most frequently used deep learning applications. Authors Jeremy Howard and Sylvain Gugger, the creators of fastai, show you how to train a model on a wide range of tasks using fastai and PyTorch. You'll also dive progressively further into deep learning theory to gain a complete understanding of the algorithms behind the scenes. Train models in computer vision, natural language processing, tabular data, and collaborative filtering. Learn the latest deep learning techniques that matter most in practice. Improve accuracy, speed, and reliability by understanding how deep learning models work. Discover how to turn your models into web applications. Implement deep learning algorithms from scratch. Consider the ethical implications of your work. Gain insight from the foreword by PyTorch cofounder, Soumith Chintala.

Brazen Careerist Penelope Trunk, 2009-05-30 Are you taking long lunches? Ignoring sexual harassment? Do you keep your desk neat to the point of looking like you don't have enough to do? The answer to all three should be yes, if you want to succeed in your career on your own terms. Penelope Trunk, expert business advice columnist for the Boston Globe, gives anything but standard advice to help members of the X and Y generations succeed on their own terms in any industry. Trunk asserts that a take-charge attitude and thinking outside the box are the only ways to make it in today's job market. With 45 tips that will get you thinking bigger, acting bolder, and blazing trails you never thought possible, Brazen Careerist will forever change your career outlook. Guy Kawasaki, author of The Art of the Start, Take everything you think you 'know' about career strategies, throw them away, and read this book because the rules have changed. 'Brazen,' 'counter-intuitive,' and 'radical' are the best three descriptions of Trunk's work. Life is too short to be stuck in a rat hole... Robert I. Sutton, Ph.D, author of the New York Times Bestseller The No Asshole Rule. A delightful book, with some edgy advice that made me squirm a bit at times. I agreed with 90% of it, found myself arguing with the other 10%, and was completely engaged from start to finish. Paul D. Tieger, author of Do What You Are and CEO of SpeedReading People, LLC. Penelope Trunk brings considerable savvy and a fresh new perspective to the business of career success. Bold and sometimes unconventional, Brazen Careerist gives readers much to think about as well as concrete, practical suggestions that will help them know what they want, and know how to get it. Keith Ferrazzi, bestselling author of Never Eat Alone: And Other Secrets to Success, One Relationship at a Time. Brazen Careerist has the street-smarts you need to make your career and life work for you from the start. Read it now, or you'll wish you had when you're 40!

Hidden Agenda Kevin Allen, 2016-10-21 Each of us pitches ideas every day. Regardless of what idea we're selling—or who we're selling it to—it all boils down to the act of stirring someone to join you, to agree to follow you. Yet we consistently underestimate how critical it is to recognize the role of the decision maker. Decisions are, after all, made by people; and people have needs and agendas, spoken and unspoken. Understanding these needs and agendas are critical to success in business. Kevin Allen's approach is not about persuading, but about creating a connection that assures a mutual win. By unearthing the true motivation or desire of the decision maker, Allen shows how to craft a story or message around it, creating a predictable and repeatable end result. Full of stories and examples, this entertaining book teaches you how to effectively find, connect, and finally to speak to the Hidden Agenda to win business unfailingly, every time.

Queens of the Resistance: Nancy Pelosi Brenda Jones, Krishan Trotman, 2020-06-30 Part of the four-book Queens of the Resistance series, saluting some of the most beloved boss ladies in Congress: a celebration of the first woman Speaker of the House and a trailblazer for generations to come, Nancy Pelosi. Behold one of the toughest dealers in the political arena, a singularly shrewd operator who cut her teeth from deep within the ranks of the Democratic Party and climbed all the way to the top. Rising higher than any woman ever who came before, Madame Speaker created a blueprint that those after her could follow. And now, back to her rightful place as Madame Speaker, she's prepared to take back power for the people . . . and at the end of it all, in characteristic class and style, she will pass on the gavel to the next generation of badass leaders. With illustrations, deep research, and writing as endlessly quotable as she is, Queens of the Resistance pays tribute to this phenomenal woman. About the

series: Each book of the Queens of the Resistance series is a celebration of the rebellion against the oppression of women and an embracement of the new in the United States government. The series is adorned with sass, discernment, and the badassery of the present and future leadership. The Doomsday Clock is at a minute to midnight, and the patriarchal power grid that lights “the shining city on a Hill” is about to black out. It’s time to yield to the alternative—the power of women.

New Concepts for Presence and Availability in Ubiquitous and Mobile Computing Mirko Fetter,2019 Modern Computer-mediated Communication technologies like Instant Messaging (IM) systems enable spontaneous communication over distance. With the advances in Mobile and Ubiquitous Computing, these technologies move away from the desktop computers of our offices, and become more and more pervasive and interwoven with our daily lives. The introduction of these great possibilities to communicate from everywhere with everyone however comes at a cost: The cost of constantly being available to everybody, everywhere, leading to an increasing number of interruptions in our daily tasks. The challenge is, that current technology does not empower users to manage their availability in an adequate manner. Most IM clients for example, only support one single online status that needs to be managed manually by the user. In this work I am founding the concepts of Presence and Availability on a deep understanding of human privacy needs, derived from literature. Based on this foundation, I show how the selective and dynamic nature of privacy is not sufficiently reflected in current systems. Based on two user studies I reveal patterns for selective information disclosure and present an analysis of Selective Availability needs. With the collected study data, I further show that Selective Availability for nomadic users can be predicted based on sensors installed on the users' laptop computer with a good accuracy through machine learning. As the personalised nature of the data requires new concepts for building an adaptive system, I introduce the LILOLE Framework. The LILOLE Framework outlines the concept of an adaptive system that relies on stream-based active learning to continuously learn and automatically adapt fine-grained personal availability preferences for individual users. The concept is validated through a proof-of-concept implementation and an evaluation based on real user data. In comparison to related work, the presented work is one of very few examples that goes beyond the pure analysis of the predictability, but provides a concept and an implementation of a real system as validation. My approach is novel by combining concepts from Data Stream Mining and Active Learning to predict availability, thus making it very flexible for different settings. This way I am able to address the selective and dynamic nature of availability preferences for nomadic users.

Chances Are Richard Russo,2019-09-03 One beautiful September day, three sixty-six-year old men convene on Martha's Vineyard, friends ever since meeting in college in the sixties. They couldn't have been more different then, or even today - Lincoln's a commercial real estate broker, Teddy a tiny-press publisher, and Mickey a musician beyond his rockin' age. But each man holds his own secrets, in addition to the monumental mystery that none of them has ever stopped puzzling over since a Memorial Day weekend right here on the Vineyard in 1971. Now, forty-four years later, as this new weekend unfolds, three lives and that of a significant other are displayed in their entirety while the distant past confounds the present like a relentless squall of surprise and discovery. Shot through with Russo's trademark comedy and humanity, Chances Are ... also introduces a new level of suspense and menace that will quicken the reader's heartbeat throughout this absorbing saga of how friendship's bonds are every bit as constricting and rewarding as those of family or any other community. For both longtime fans and lucky newcomers, Chances Are ... is a stunning demonstration of a highly acclaimed author deepening and expanding his remarkable achievement.
