The Japanese Navy in World War II David C. Evans,2017-02-15 Top-ranking Japanese officers offer their personal perspectives of the Pacific War. Lauded by historians and World War II buffs eager for the Japanese viewpoint, this collection of essays makes significant contributions to the field of World War II literature. This second edition, originally published in 1986, adds five articles to the original twelve to provide a full picture of the Japanese's navy's role in the war. Most of these moving accounts were written in the 1950s and retain the immediacy felt by the writers when they participated in the events. They provide valuable information on the strategy, tactics, and operations of the Japanese fleet, as well as insights into the personalities and motives of its leaders. Here, Vice Admiral Shigeru Fukudome comes to grips with allegations that the assault on Pearl Harbor represented strategic

folly, political blundering, and tactical stupidity. Captain Mitsuo Fuchida describes how his bombing group unleashed “devils of doom” on Battleship Row, and Mitsuru Yoshida gives an eye-witness account of the sinking of the famous battleship Yamato. The new contributions to the volume, translated especially for this book by the editor, discuss operations in the Indian Ocean, the battle of the Philippine Sea, the protection of merchant shipping, submarine warfare, and Japan’s overall naval strategy. A brief introduction precedes each essay to set it in historical context, and a biographical summary of each contributor is included. A striking collection of photographs and maps, many of which are new to this edition, augment the text.

Saving Central Park Elizabeth Barlow Rogers,2018-05-15
The story of how one woman's long love affair with New York's Central Park led her to organize its rescue from a state of serious decline, returning it to the beautiful place of recreational opportunity and spiritual sustenance that it is today. Elizabeth Barlow Rogers opens with a quick survey of her early life--a middle-class upbringing in Texas; college at Wellesley, marriage, a master's degree in city planning at Yale. And then her move to New York, where she starts a family and, when she finds being a mother and a housewife is not enough, pours herself into the protection and enhancement of the city's green spaces. Interwoven into her own story is a comprehensive history of Central Park: its design and construction as a scenic masterpiece; the alterations of each succeeding era; the addition of numerous facilities for sports and play; and finally, the anything goes phase of the 1960s and 70s, which was often fun but nearly destroyed the park. The two narratives continue to entwine as she finds a job in the administration of Central Park, founds the Central Park Conservancy, and transforms both the park and herself--a transformation that has led to the writing of her many books, to travels that have taken her to parks and gardens around the world, and to solidifying the prestige of one of New York's most conspicuous landmarks.
