Brandilyn Collins

Pearl Harbor Harry Albright,1988

Be Aware of the Dog Frank Newkirk,2005 In January 1995, a 2-year-old boy in South Dakota wandered into a neighbor's yard, where he was attacked and killed by two chained wolf-German shepherd hybrids. In September 1995, a 3-week-old girl in Pennsylvania was killed in her crib by the family Chow Chow while her parents slept in the next room. In March 1996, an 86-year-old woman in Tennessee went outside of her home to check the weather and was fatally mauled by two Rottweilers owned by a neighbor; the dogs had attacked and injured the woman one month before the fatal attack. Unfortunately, the above instances are far from rare: man and woman's best friend will bite 4.7 million Americans this year, 60 percent of whom are children. As many as 800,000 people require medical attention for dog bites annually. From 1979 through 1994, attacks by dogs resulted in 279 human deaths in the United States. Such attacks have prompted widespread review of existing local and state dangerous-dog laws, but much is still needed to be done. Now, dog owner, former dog boarder, and new author, Frank Newkirk, exposes all and offers step-by-step advice in how to protect yourself from dog attacks in his new book *Be AWARE of the Dog: Protecting Yourself from a Fatal Dog Attack*.

Wild Awakening Greg J. Matthews,James Lund,2020-09-08 In this “powerful story about the healing every man needs” (John Eldredge, New York Times bestselling author), a near-fatal attack by an enraged grizzly bear leads to an unexpected encounter with God for alpha male Greg Matthews. Greg Matthews was the ultimate poster-boy for masculinity. Avid hunter and outdoorsman, Air Force and civilian firefighter, EMT, rescue helicopter pilot, fugitive recovery agent, Ground Zero volunteer and more, Greg had spent his whole life striving to serve others but for all the wrong reasons. After his parents’ divorce when he was young, Greg believed deep down that the only way he could be loved and valued—by his father, by his family, and by God—was if he earned it through daring, high-stakes, high-risk—what society commonly refers to as “manly”—achievements. But everything changed when an idyllic hunting trip through the backwoods of Alaska turned into a harrowing fight for his life. Greg was attacked by a grizzly bear—but the gruesome, nearly fatal conflict offered an unexpected encounter with God. Greg’s eyes, and more importantly, his heart, were finally opened to the lie that he’d internalized as a child: that his dangerously high-risk achievements were the sole signifiers of his worth. The road to recovery was long and painful, but it forced Greg to come face-to-face with the long-held view of manhood he had absorbed as his own identity. The relentless grizzly uncovered something in Greg’s heart: that he was being pursued by an equally persistent God, who loved him unconditionally. A gripping tale of survival and a rebuttal to outdated notions about masculinity, *Wild Awakening* “will help you lead a life of greater purpose” (John O’Leary, author of *On Fire*).

The pressure is building inside the Cappuanos’ marriage, and something’s got to give before Nick takes the oath of office. A series of knife attacks in the midst of inauguration madness has the District on edge, and when the case strikes shockingly close to home, Sam returns to help hunt down a heartless killer. An Unforgivable Act Robert J. Sherwood,2014-06-13 Hiroshima, 1945—a city incinerated by nuclear attack, and the forge that creates a beautiful psychopath named Mito Mitsui, bent on ultimate revenge against America. What is born in these ashes will change the world forever...Baltimore, Maryland, present day—a simple supply problem for fighter planes escalates into a much more deadly threat—fueled by an obsession spanning more than five decades. A Japanese keiretsu, formed in vengeance, is driven toward lethal conflict with the United States by Mito Mitsui—Japan's most beloved performer for over fifty years. What she demands is equal destruction, and she holds a blackmail card that can't be trumped...David Dawson is back in this thriller, caught in the dangerous dance of revenge—holding the fate of America and the world in the balance. What starts as a seemingly innocuous supply problem with a small but vital electronic component for a fighter plane soon reveals a much larger, and more dangerous, vulnerability. America relies on foreign companies for the production of sensitive technology—and one of those companies belongs to a Japanese keiretsu, a business conglomerate brought into being by the white hot hate of a woman damaged beyond redemption by the fatal attack on Hiroshima.Mito Mitsui is his nemesis in this tale. Known publicly as Japan's favorite entertainer, she is the last of a proud Samurai family destroyed by the nuclear attack on Japan in 1945, and has laid her plans for revenge over decades, carefully maneuvering and waiting for the right time to strike. She has nurtured and guided the businesses in the keiretsu to develop the technology and expertise that will entrap the country she hates. Her public persona has been the perfect cover for a life-long vendetta against the United States—and she has used her sex appeal, her brilliant mind, and her all consuming desire for revenge to orchestrate the ruin of the country who destroyed her family.When America, as the world's largest weapon's producer, becomes reliant on Japan and Israel for sensitive guidance systems and global positioning software, she sees her opportunity. She ensures that the American weapons manufacturer is first dependant on Japanese technology, then launches a master stroke to paralyze America and bring the country to its knees. She threatens to manipulate GPS technology in every commercial transportation system, interrupting trade and creating horrific mass casualty catastrophes in the air and on the ground—with the backing of Russia, Israel and a handful of countries in the Middle East.The American President is given a choice that is no choice at all—give in to her demands, and detonate a bomb over American soil, or allow her to destroy the country. It's up to David Dawson and his small team to stop her, and to uncoil the bloody desire for vengeance before it is too late.An Unforgivable Act is the fourth in a series of David Dawson thrillers, written by Robert J. Sherwood.

Preventing Fatal Incidents in School and Youth Group Camps and Excursions Andrew Brookes,2018-05-07 This book approaches the prevention of fatal incidents in outdoor education and related fields through detailed study of past tragedies. Although safety in many fields is built on accumulated lessons from past incidents, tragedies on school or youth group camps and excursions are so infrequent and so widely scattered that knowledge from previous incidents can elude those who would benefit. Nevertheless, the emergence of unlearned lessons from the past weighs heavily when those affected by a tragedy judge whether an incident should have been prevented. This book provides a foundation for a detailed and comprehensive understanding of fatality prevention in outdoor education, and in youth camps and excursions. It compiles, examines, and analyses information on fatal incidents that have occurred over many decades, involving many kinds of groups and endeavours, from around the globe. No previous work has attempted this task.

Fatal Grievances Gregory M. Vecchi,Mary Ann Markey,Jeffrey A. Daniels,2022-12-30 Active killer attacks frequently dominate the headlines with stories of seemingly random mass killings in school, campus, and workplace settings. Nearly all of the attacks are over before the police can respond, leaving unanswered questions as to why these attacks happen and what can be done to prevent them. *Fatal Grievances: Forecasting and Preventing Active Killer Threats in School, Campus, and Workplace Settings* takes a proactive view of active killer threat management and resolution to prevent the attack before it occurs. Drawing from established threat assessment, behavioral analysis, and law enforcement negotiation theory and practice, the book presents models and methods designed to forecast and prevent an active killer attack through the process of identification,

assessment, and engagement. This approach begins with definitions and orientations to violence, the importance of the primacy of focusing on direct behaviors of planned lethal violence over other more indirect behaviors, understanding how to identify a fatal grievance and that only fatal grievances result in planned lethal violence, the importance of understanding the process of crisis intervention as the key to eliminating the fatal grievance and the motivation to kill, and the use of time-series predictive behavioral threat forecasting methods to prevent an active killer attack. Case studies from within the United States (US) and abroad support this unique approach to threat assessment and make the concepts and principles accessible to professionals working in the fields of education, human resources, and security.

When Man Becomes Prey Cat Urbigkit,2014-10-07 When Man Becomes Prey examines the details of fatal predator attacks on humans, providing an opportunity to learn about the factors and behaviors that led to attacks. The predators profiled in the book include black bears, grizzly bears, mountain lions, coyotes, and gray wolves—the first time all five species have been included in one volume. Compelling narratives of conflicts involving these top predators are accompanied by how-to information for avoiding such clashes.

The conspirators’ planned attack will leave Pakistan largely undefended, ensuring the success of India’s military campaign. To conceal the origins of the attack, the group has obtained Russian-made nuclear warheads and torpedos from a renegade Russian arms merchant, which will be delivered covertly by INS Chakra. As Brad leads the investigation, the fight becomes personal and draws him into an anger and hatred where he finds that anyone can become a killer.
