**It Gets Worse** Shane Dawson, 2016-07-19 THE INSTANT #1 NEW YORK TIMES BESTSELLER New York Times bestselling author Shane Dawson returns with another highly entertaining and uproariously funny essay collection, chronicling a mix of real life moments both extraordinary and mortifying, yet always full of heart. Shane Dawson shared some of his best and worst experiences in *I Hate Myselfie*, the critically acclaimed book that secured his place as a gifted humorist and keen observer of millennial culture. Fans felt as though they knew him after devouring the New York Times, Publishers Weekly, Los Angeles Times, and Wall Street Journal bestseller. They were right... almost. In this new collection of original personal essays, Shane goes even deeper, sharing never-before-revealed stories from his life, giving readers a no-holds-barred look at moments both bizarre and relatable, from cult-like Christian after-school activities, dressing in drag, and losing his virginity, to hiring a psychic, clashes with celebrities, and coming to terms with his bisexuality. Every step of the way, Shane maintains his signature brand of humor, proving that even the toughest breaks can be funny when you learn to laugh at yourself. This is *Let's Pretend This Never Happened* and *Running With Scissors* for the millennial generation: an inspiring, intelligent, and brutally honest collection of true stories by a YouTube sensation-turned one of the freshest new voices out there.

**Fat** Deborah Lupton, 2018-05-15 In contemporary western societies, the fat body has become a focus of stigmatizing discourses and practices aimed at disciplining, regulating and containing it. Despite the fact that in many western countries fat bodies outnumber those that are thin, fat people

are still socially marginalized, and treated with derision and even repulsion and disgust. Medical and public health experts continue to insist that an 'obesity epidemic' exists and that fatness is a pathological condition which should be prevented and controlled. *Fat* is a book about why the fat body has become so reviled and reviewed as diseased, the target of such intense discussion and debate about ways to reduce its size down to socially and medically acceptable dimensions. It is about the lived experience of fat embodiment: how does it feel to be fat in a fat phobic-society? Fat activism and obesity politics, and related controversies, are also discussed. Internationally-renowned sociologist Deborah Lupton explores fat as a sociocultural artefact: a bodily substance or body shape that is given meaning by complex and shifting systems of ideas, practices, emotions, material objects and interpersonal relationships. This analysis identifies broader preoccupations and trends in the ways that human bodies and selfhood are experienced and practised. The second and much expanded edition of *Fat* is twice as long as the original edition. Lupton incorporates the very latest current critical scholarship and research offered in the humanities and social sciences on fat embodiment and fat politics. New updated material is presented in every chapter, including substantial additional sections on new digital media. *Fat* is a lively, at times provocative introduction for the general reader, as well as for students and academics interested in the politics of embodiment and health.
