The Visual World of Shadows Roberto Casati, Patrick Cavanagh, 2023-12-26 How the perception of shadows, studied by vision scientists and visual artists, reveals the inner workings of the visual system. In *The Visual World of Shadows*, Roberto Casati and Patrick Cavanagh examine how the perception of shadows, as studied by vision scientists and visual artists, reveals the inner workings of the visual system. Shadows are at once a massive problem for vision—which must distinguish them from objects or material features of objects—and a resource, signaling the presence, location, shape, and size of objects. Casati and Cavanagh draw up an inventory of information retrievable from shadows, showing their amazing variety. They present an overview of the visual system, distinguishing between measurement and inference. They discuss the shadow mission, the work done by the visual brain to parse, and perhaps discard, the information from shadows; shadow ownership, the association of a shadow with the object that casts it; shadow labeling, the visual system's ability to tell shadows from nonshadows; and the shadow concept, our knowledge about shadows as a category. Casati and Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena: illumination, reflection, and transparency. Finally, they examine the art of the shadow, paying tribute to artists' exploration of shadow, analyzing a series of artworks (reproduced in color) from a rich and fascinating art historical corpus.

Sharing Short Stories Cynthia Cordell,2012-07-25 Paint a picture of a familiar character, and chances are you'll encounter that person in this collection of short stories. This anthology abounds with the funny, positive things that come up in life. The wonder of short stories can motivate you to investigate all that life has to offer. "These sparkling short stories by Cynthia Cordell are a great way to spend your time curled up on the sofa or bed with a steaming cup of chamomile at your side. The majority are slices-of-life vignettes; peeks into the lives of ordinary people going about their business, and then, surprise! ... the occasional sci-fi story thrown in to add a bit of contrast and allow Ms. Cordell to show the ease with which she can change genres. The stories are a brilliant mix of the intricacies of computer programming and website design juxtaposed with makeup and hair issues and quite a lot of the love of food. The masculine and the feminine combined ... and a mix I've never encountered as a reader before. Get your copy and get your tea ready! Highly recommended!" —Gerald Hansen, author of *An Embarrassment of Riches*, *Hand in the Till*, and *Fleeing the Jurisdiction*

For some reason, she now wants Ethan. But a lust potion? It couldn't possibly be real...could it?

From The Mind Of Critic: 2018 BRYAN RADZIN,2019-07-07 This is the fourth of many collections From the Mind Of Critic. The short essays can be flipped through randomly, or read in succession. They run the gamut of human emotions from love, to hate, to fear. Along with a healthy dose of politics, humanism, unity, accountability and truth, this collection will hopefully stir the pot just enough to start conversations. If we could simply talk to each other like human beings, we'll find that many of our generational issues can be solved. Emotions soften when the fog lifts, making us realize we agree on a lot more than we disagree. We just need to get out of our own way, and remember everything we need to know we learned in kindergarten. The gray area we all live in is

constantly evolving, if we adapt instead of resist, we'll evolve right alongside Letting go of outcomes is like venturing into the darkness, it's only scary if we don't allow our soul to light the way. Hope and love get us started, conscious action moves us forward.

Larkin's Travelling Spirit Alex Howard, 2020-11-25 This book examines Larkin's evocation of place and space, along with the opportunities for self-discovery offered by the act and thought of travel. From his canonical verse to his lesser-known juvenilia and dream diaries, this title unveils a new Larkin; a man whose religious, political and ontological affiliations are often as wide-ranging and experimental as the very form and symbolic licence used to express them. Whether exploring Larkin's fondness for deictics ('pointing' words, like here/there), his fascination with death, or his interest in the sexual opportunities of an itinerant lifestyle, this monograph provides fresh critical approaches bound to appeal to established Larkin scholars and newcomers alike.

Humanity: Devolved Greyson Ferguson, 2023-12-16 Nobody knows your DNA like your government. Routine DNA scans flag individuals with genetic mutations. To systematically purge humanity of corrupt genetics, authorities pluck them from society, never to be seen or heard from again. This is done on a global scale. Kyla Thomas, a nurse technician who already lost her husband to these removals, does everything in her power to protect Sam, her cancer-ridden son. Using illegal methods to scrub his DNA samples, she manages to hide him in plain sight until an accident at school reveals his secret. Although temporarily able to fight off capture, the government's relentless pursuit of the fugitives rips Sam from Kyla's grasp and jails her. But few things can prevent a desperate mother's search for her son, and in the process, Kyla begins to uncover government secrets only a select few were ever meant to know.

reluctant sleuth Laura Carnegie. It was widely assumed not eating would do Thomasina in, making her unglamorous exit twice as shocking for New York’s fashion aficionados, not to mention disastrous for Laura, her sister, and their very first, make-or-break runway show. A Catwalk Full of Suspects After Laura got to the bottom of the Pomerantz case, she decided sleuthing was too last season. She hopes Detective Cangemi can handle all the heavy lifting this time since plenty of folks wanted Thomasina dead: Bob, the football-star-turned-hedge-fund guru; Rolf, the sociopathic brother with skinhead connections; Roquelle Rik, modeling agent, and Penelope Sidewinder, model minder, the twin dragons of the fashion world. Yet, with so many leads to choose from, Cangemi focuses on Laura’s sister, Ruby. For Laura, her sister as murderer just doesn’t make the cut. Laura Carnegie Mysteries In Death of a Supermodel, Laura Carnegie, her sister Ruby, Jeremy St. James, Stu, and a supporting cast of backstabbers, manipulators and ruthless ladder-climbers return for another merry go-round through New York’s fashion center. ——— Dead Is the New Black Death of a Supermodel A Dress to Die For p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.0px Helvetica}
